

NEWS OF THE WEEK.

Ireland.

London, July 7.—Parnell has written a letter to the Cork branch of the Land League with regard to the arrest of O'Donnor, the Secretary, stating that the time has long since gone by when the Government arrested men for any reason assigned under the Coercion Act. Those arrested have been chiefly instrumental in keeping people within the bounds of the order.

London, July 8.—A delegation of Irish farm laborers waited on Mr. Forster, and presented their grievances. Mr. Forster said that when the Government was ready to confer the franchise upon agricultural laborers the measure would not be confined to England, but would be extended to Scotland and Ireland. He knew that the condition of the laborers was very bad, but the matter was most difficult to deal with. He rejected the idea of the State providing cottages and land as impracticable, but the State might help to remove obstacles to their getting good employment and cottages and might give facilities or offer temptations to persons interested to improve their condition. All must try to do their duty, and ensure that the Land Bill does not leave the laborer in a worse position.

The police seized a box of revolvers at Castlereagh, County Roscommon, on Saturday.

It is anticipated that Friday will see the Land Bill out of Committee of the House of Commons. If the Bill becomes law this year a convention of branches of the Land League of Ireland will be held in London, with a view to concerting measures to watch its operations, and advise tenant farmers in availing themselves of its provisions.

France.

It is asserted that France has sent to the Porte saying that she held Turkey responsible for the agitation among Mahomedans in Tunis and Oran.

The Post says the news that France intends to mobilize 120,000 troops is of extreme gravity and may lead to serious complications.

The Republics of France prominently in an article severely blaming the Turkish operations in Tripoli, and predicting grave complications. The semi-official Telegraph mentions the report among the Arabs of Tunis that 50,000 Turks and Arabs entered Tunis from Tripoli. The Telegraph says the relations of France and Turkey are strained to the utmost. The Sultan declared that he would never again receive Tissot, French ambassador. Tissot sent a reply that the Sultan might learn some day what it costs to insult a great country in the person of its representative.

The London Post prints the following prominently:—"We have reason to believe that in the course of a few days France intends to mobilize 120,000 men, and ask the Chambers for credits for the despatch and employment of the troops for three months. This extraordinary step is based upon the necessity of immediately securing tranquility in the French possessions in Northern Africa. The French Minister of Foreign Affairs will address representations to the Powers explaining the motives of the above movement, giving them to understand that France is prepared to take further measures requisite for the protection of her interests wherever menaced."

A dispatch from Paris says:—"Ex-President of the Senate, Martel, is dead."

Russia.

It is reported that the town of Minsk has been almost destroyed by fire.

Eight bags of gunpowder have been found in a ditch in the village of Calusi, which the Czar visited on the 28th June.

Tunis.

The Pall Mall Gazette says the situation in Northern Africa is very serious.

Private telegrams say that the French commenced shelling Sfax on the 5th instant. The fire was returned from the town. No details are given as the telegrams wires are working badly.

Four columns of Turkish troops have encamped in Tripoli, close to the Tunisian frontier. The French complain that this encourages the insurgents.

Italy.

The Pope has issued an encyclical letter, dated June 29th, dealing with the recent attempts on the lives of Sovereigns, in which he declares that the precepts of Christ are eminently fitted to compromise both those who obey and those who command, to produce between the two sections of the community that unity of purpose which endures public tranquillity.

Turkey.

Five small Turkish ironclads have been sent to Tripoli to maintain order among the Arabs, and, if necessary, make an armed protest against the French invasion.

Four thousand Greek troops entered the Turkish village of Deri on the 5th instant. The fire was returned from the town. No details are given as the telegrams wires are working badly.

Eastern Affairs.

The Albanian insurrection continues in the mountain districts, and the Turkish Commander is unable to repress it.

The court unanimously confirmed the sentences of Mahat Pasha and the other persons implicated in the murder of Abdul Aziz.

United States.

Mrs. Pritchard, a devout Methodist, of Asbury Park, N. J., cut an artery in her arm with a pair of scissors, then laid in bed and held the wound over a pall till she died.

signing to kill him. A neighbor accompanied Minkler, and the murderer was thwarted. One of the wounded children, perhaps both, is now dead. King was captured, confessed, and was hung in the presence of two hundred people, white and colored. He died sullen and unrepentant.

Col. Ingersoll says he lent Guita the money with which the latter bought the pistol. The stranger who was with Guita when the latter purchased the pistol is being looked for. It is thought that this person is found, and he accounts for his movements, we may not know all the facts about this assassin.

John Orndorff, a medicine peddler, died at Buffalo on Wednesday, from the bite of a dog, of hydrophobia.

Mrs. Dunn, the mother of the lady whom Guita married, asserts that the brother of Guita's father died in an insane asylum.

At St. Mary's Academy, on Friday last, the clothing of two Sisters of Charity caught fire, and both were burned to death.

Canadian.

While some children were playing on a raft in Mr. Miles' pond at Coburne, on Wednesday, a daughter of Mr. David Reinagham, aged about ten years, accidentally fell in and was drowned.

At Kincardine, on Tuesday afternoon, a twelve-year-old son of D. Cameron, merchant, was accidentally drowned while bathing with his schoolmates. The body was recovered.

A man named Thomas Davis, a resident of Belleville, has been missing since the 2nd inst.

The strikers on the wharves at Montreal Friday night opened hostilities. They marched in procession down the Dominion Line of Steamers and fired on the police who were protecting the men working there. A magistrate was present and read the Riot Act and the police returned the fire, wounding three or four. Several of the rioters were arrested and locked up.

Brockville, July 11.—Friday afternoon, as the G. T. R. express east was leaving the station here Bishop Cleary attempted to get on while the train was in motion. He managed to catch hold of the handrail, but missed the train, and dragged a considerable distance in this manner, his feet touching the ground, his robe being entangled in the wheels. He was seized by some person on the platform and released from his perilous position unhurt.

ACADEMY OF THE CONGREGATION OF NOTRE DAME, OTTAWA.

There could be no better or more appropriate celebration of the "Commencement" than the distribution of prizes and the accompanying exercises. On Thursday the 23rd inst. the spacious hall of this Convent was filled by an audience comprising some of the most respectable and prominent people of Ottawa. The pupils were associated in the distribution of prizes and to receive the rewards to which, according to time honored academic custom, their successful application to study had entitled them.

The exercises on the occasion were of such a character as to entertain the audience, whilst, at the same time, they were fairly calculated to show the proficiency of the pupils. A brief glance at the Programme will suffice to convey an idea of these exercises. It opened with a juvenile opera, in which was introduced a Calypso exercise, which was executed with much grace and precision. Next followed the overture of "William Tell" on seven pianos, and then the fantasia "Cathleen Macavon" on two harps by the Misses O'Connor and Molony. And now was shown the successful teaching of M. Mansueti, a pupil of the Conservatory of Paris, and a graduate of the Academy of the Congregation of Notre Dame of Ottawa. The pupils of this accomplished lady rendered the Miserere from Il Trovatore in a thoroughly artistic manner.

The institution of Notre Dame enjoys the favor of both State and Church. It may be said that it is fostered alike by both. A silver medal, the gift of his Excellency the Governor General, and the Royal Highness the Princess Louise, awarded for strict observance of school rules and general proficiency, was won by Miss Dowling, of Almonte. A silver medal for knowledge of Christian doctrine and punctuality in religious exercises, fell to the lot of Miss Catherine, of Ottawa.

Miss Mabel, of Belleville, won the gold medal presented by the Rev. J. Walsh, Albany, N. Y., for proficiency in instrumental music. Eight more gold medals, along with Diplomas, were awarded to graduates, viz: Misses Costigan, St. Denis, Coleman, Hyatt, Dowling, Catalier, Stratton, and Leslie. We cannot conclude without remarking on the healthy

appearance and unexceptionable tenor of the pupils. This, indeed, has been observed as a gratifying feature at all Ottawa commencements, and it speaks volumes for the rising generation of Ottawa and of all Central Canada. If any citizens of Toronto should happen to notice this last remark, we would refer them for the corroboration of our statement to the Hon. the Minister of Education, who was at Ottawa the other day, and observed, as we have done. We must not forget to add, that one of the most interesting features of the distribution of prizes at the above named institution, was the playing by Miss Nora, Glench, on the violin. Though but a child of fourteen, she has already attained such a degree of excellence as to rival many of our celebrated artists. This child kept the audience completely enraptured during her exquisite performance of selections from Chopin, Beriot, and Beethoven, and a Carnival of Venice which is one of her own compositions. She played on one of Remenyi's violins which was presented to her by the artist himself.

LORETTO CONVENT, STRATFORD.

Semi-Annual Examination and Distribution of Prizes.

The closing exercises of Loretto convent, Stratford, took place on Wednesday afternoon. There were quite a number of the parents and friends of the pupils present, as well as His Lordship Bishop Walsh, who takes a deep interest in the welfare of the institution. Before the exercises commenced, the visitors had an opportunity of inspecting the neat parlors and of the young ladies in the spacious parlors, and were much pleased at the display of talent and good taste. The attendance of young ladies during the last session has been so large and applications for admission to the classes for the September term so numerous, that it has been found necessary to build a large addition to the present school. It is situated in the rear, and contains on the second story a large hall, in which the distribution of prizes took place. The school was very tastefully decorated with greenery and flowers, and a stage was erected at the lower end.

Among those present were His Lordship Bishop Walsh, and Very Rev. Mgr. Brydger, V.G., London; Rev. Dr. Kilroy, Rev. M. Moran, Windsor, and Rev. P. Brennan, St. Mary's.

The programme opened with a chorus "Tota pulchra es," in which a large number of young ladies took part. This was followed by an address to His Lordship Bishop Walsh, read by Miss Canby, who came an instrumental duet, "Il Coricorio," by Misses Watson, Blair, Hiltz and Canby; then a French dialogue by Misses Buckingham, Jarvis, Watson and Canby. THE R. C. BAZAAR.

IT LASTS FOUR DAYS—A BUSY PLACE—LIST OF SUCCESSFUL TICKET HOLDERS—A POPULAR YOUNG LADY.

The bazaar, under the auspices of the ladies of St. Peter's (R. C.) church, which began on Thursday of last week, closed on Monday evening. The ladies fought a good fight for four days against overwhelming odds, and although hourly they succeeded in beating back the assaults and depleting their ammunition, they were, nevertheless, forced to surrender on Monday, as their own powder and shot had run out. But they stood the siege well, and many an unfortunate wight was made to "bleed," before they hauled down their flag. The preparations made by the ladies to receive the "attack" were on an extensive scale, and consisted of elaborate fancy tables, a haughty eating tables, a post office, a "curiosity shop" and a polling booth on the upper flat. The fancy tables were superintended by Mrs. Dr. Cassidy, Mrs. A. McIntosh, Miss Doyle, Mrs. O'Loane, Mrs. James Doyle and Mrs. W. Shannon; the refreshment tables were carefully attended to by Mrs. John Connor, Mrs. Duffy, Mrs. Ferguson, Mrs. McGregor, Miss McManus, Miss McLennan, Miss O'Rourke, Miss Luby; the post office department was in charge of Miss Mary McGregor and Miss McDougall; the uninitiated were enticed into the "curiosity shop" in a manner most bland, by Miss Gussie McLennan; the "polling booth" was controlled by Misses Lizzie Hodge, Aggie Ross, Nellie Tranche, and Jennie Weston, and it is needless to say, a pretty good catch was the result; ice cream parlors were served on the upper flat by Mrs. D. Currie, and Misses Dalton, Robinson, and Fox; Charlie McManus was the general utility man in connection, and received blessings from the old and blunders from the young ladies whom he assisted.

A feature in the entertainment was an election contest for the position of the most popular young lady, which was ultimately won by Miss Cooke, after a most exciting contest. Over \$100 were raised, chiefly through the exertions of Mrs. O'Loane, who was electioneering agent for the opposition, and kept the friends of Miss Cooke well to their work. A handsome Chinese teapot, the gift of Dr. McGauran, of New York, was presented to the successful competitor. Miss Cooke also received a handsome photograph of the popular pastor of St. Peter's for her efforts in ticket selling.

During the continuation of the bazaar it was visited by the following Rev. gentlemen—Father Shea, Seaford; Father McGowan, Guelph; Father O'Connor, Wawanosh; Father Sheridan, Dublin; Very Rev. Dean Murphy, Dublin; Father Connolly, Biddulph, and enjoyed the perpetual presence of the pastor of St. Peter's, Rev. J. E. Waters.

On Monday the drawing of the prizes was proceeded with, the leading dealer in the city, comprising all articles from a fifty cent chair to the most elaborate parlor sets. Of the latter he had twenty-six magnificent sets on hand. If you want to fit up your house it grand style at a moderate outlay, we know of no other house in Canada which offers such extraordinary inducements. A walk through the establishment will be convincing proof that what we have stated is not overdrawn. The goods will be shown to all whether they wish to purchase or not.

This gentleman also devotes special attention to undertaking. Those who had business with him in this line speak in the highest terms of his gentlemanly qualities, and also give him credit for charging exceedingly moderate rates.

Saddles, Harness, Trunks, Valises.

Wm Scarrow, Dundas Street, East of Mechanic's Institute, is the leading dealer in this line in London. He is a practical man, knows his business thoroughly, and is always on hand to attend to his customers. As he manufactures on a large scale, farmers and others may depend on goods at first cost. He does not deal in that showy but inferior class of American goods that are sent over here to be slaughtered at any price. People who have bought these lines have found out to their cost that they are too dear at any price. For honorable dealing in first-class goods at low prices, Wm. Scarrow will hold his own with any house in Ontario.

"OTTO" SILENT GAS ENGINE

MANUFACTURED BY JOHN DOTY, ESPLANADE STREET, TORONTO. SAFETY! CONVENIENCE! ECONOMY!

No Boiler. No Coal. No Steam. No Pump. No Danger. No Ashes. No Granges. No Pipes. No Extra Insurance. No Unpleasant Heat. Almost Inaudible.

Started instantly with a match! Always ready to give out its full power at once. Expense less than any other gas engine.

When power is required at intervals it is the cheapest motor known. Over 3000 in use in England and the United States.

DESCRIPTION: This engine consists mainly of a jacketed cylinder, with piston, slide valve and governor having a cut-off mechanism to regulate the amount of fuel and the varying load on the engine. The pressure within for the production of the power is generated into the cylinder by the motion of a piston of therein to propel the piston. This pressure is due to the combustion of a mixture of gas, common coal gas and air, which is ignited by a flame carried from a burning gas jet outside into the cylinder by the motion of the slide. The principle of combustion in this Gas Engine is entirely new; a small part only of the charge is combustible, which, on ignition, serves to expand the remainder, thus avoiding shock, and effecting—when compared with other motors of this class—a vast economy. The "OTTO" GAS ENGINE is considered to possess the least number of working parts and the greatest simplicity of mechanism ever yet attained in a Gas Engine, or even in many Steam Engines. It runs with an extreme smoothness and regularity of speed hitherto unknown in Gas Engines.

Cost of Running as Compared with Steam, and amount of Gas required. The Gas Engine requiring no boiler, avoids all the expensive attendance or loss of time which the watering of water-level feed pumps and steam-pressure gauge demand in a Steam Engine. The gas flows in freely, and there is no handling of fuel of any kind, and no ashes, thereby, hardly any item of cost for attendance is to be considered—almost the total expense for running is the cost of the gas. The quantity required in the "OTTO" Engine, averages for five different sized engines, twenty-one and one-half cubic feet of gas per Ind. H.P., per hour, giving at the varying gas prices of from \$1.00 to \$2.00 per 1000 cubic feet, a cost of from 2 to 4 cents per hour. While running, however, the cut-off being in constant operation, the Gas consumption is limited in proportion to the load on engine. In practice, in many cases, only one-third or one-half of the above rate is consumed. The engine is started and stopped without waste of fuel and time. The Toronto Board of Fire Wardens having decided not to charge any additional insurance where these engines are used, on account of their introduction, the saving effected in this item alone is not an unimportant one.

One of these Engines is now in the Catholic Record office, and we shall be happy to show it to any one who desires to see it in operation.
