### The Religious Newspaper.

The world is moved by the periodical preand the church must use this agency or lose the For weal or woe, the press control of politics, morals and, in the main, the religion he nations. From the smallest beginning power of the press has gradually increased bin present immeasurable consequence, and novel lesting of mankind seems to be controlled h the wonderful, ubiquitous periodical. Methodism owes to the press much of her success Mr. Wesley was a great tract and book write and distributor, and his followers in England America have been foremost among Christians the use of this power. So essential do we consider the spread of

relligence and the circulation of religious new papers, that we would not advise that any man hould be put into any position of influence in ae church unless he is a subscriber and read of a religious paper. Ignorant men may good men, may be sagacious, and even tale aturally, but there is absolutely no spology refusing to take a paper that would not excuse a man from holding any office in church. Men who cannot learn to read and not educate their children, are not fit for star ard bearers in any church, and it is far won where covetousness instead of ignorance is the cause of the scandal. We consider it disgree ful for any Christian family to be without Christian newspaper, and in our administof the affairs of the church we have for years strongly protested against the appoint
of stewards and leaders who were indiffer opposed to the Christian press.

The newspaper affects thousands who read it. It increases the stock of general be edge, and distributes ideas far beyond its mediate circulation. Any minister who neglecto spread intelligence in his charge forfeite laim to the respect of his people or the hor of a true minister. Saddest of all uncalled utterly disqualified pretenders to the mis are those men who refuse to obtain subfor our paper, because they fear that the will not pay them if they get money from the or other purposes. The old woman whole her goose to secure the golden egg, was s wise as these wretched cowards. The way to secure one's pay is to open the per minds to the great work before the church bring before them every living issue, and ontributions for every good work. The It backs up his preaching, and powerfully ilentiv pleads with his people for the cause ear the minister's heart. marvelously direct poor wandering mortils into the path of duty. Much has been said short the evils of the press, but instead of shiring about that let up bout that let us beat Satan with his own wes son. We must print books, tracts, papers, housand to one against Satan and all thingstanic. Every enlightened Christian knows

DR. RADWAY'S PILLS ARE COMPOSED OF VEGETABLE EXTRACTS PREPARED IN VACUO; Superior to all Purgative, Cathartic, or Alteres

two Medicines in general mad COATED WITH GUM, Wajch randers them very convenient, and well adapted for children, and persons who have a distitle to take medicine, and especially pills. Another great superiority of Radway's Pills over all other pills in general use, is the fact of their wonderful medicinal strength, being highly concentrated. One to six of these pills will not more thoroughly, and cleanes the allmentary canal, without preducing eramps, spaces, piles, tenesus, etc., then any other Pills or Purgative Medicine in use.

THE GREAT WANT SUPPLIED. It is a well known fact that Physicians

have long sought to discover a vegetable purgative as a substitute for Calomel and that would cleanse the Alimentary Canal of roughly as Lobelia will the stomach, without producing sickness at stomach, weakness, or irritation of the mucous membrane. In Dr. Radway's Pills, this very important and essential principle is secured. A dose of two to six (according to the condition of the system) of Dr. Radway's Pills will produce all the positive alterativa change-from a sluggish or torpid, to a healthy action of the Liver-as the physician hopes to obtain by a dose of Blue

Pills, or Calomel; and will as thoroughly cleanse the Stomach, and purge from the bowels the diseased and retained humors as the most approved emetic, or eathertic without occasioning inconvenience or sicknged to the patient.

Professor Reid. Jollage of Pharmacy. THE GREAT PURGATIVE. The eclebrated Prof. Rold, of New York, Lecturer on Chemistry in the College of Pharmacy, styles' Radway's Pills as "the Great Puryative," and the only Purgative Medicine safe to administer in cases of eatreme Debility, and in Eryspeins, Small-Pox, Typhoid Fever, Bilions Fover, their setion being soothing, healing, cleansing, purifying, instead of griping, irritating, debilitating, and nauceating "After examining these Fills," writes the Professor, "I find
