

Barn Cleaning Made Almost Automatic — Read The Proof Here Now

You can lower the BT Manure Carrier right down to the gutter and easily pitch half-a-ton of manure into the big wide-mouthed bucket—an easy shove sends this big load away out from the barn, and you can dump it on the pile in a minute.

Isn't it easy? There's no hard work on your part at all—it's a snap even for your boy; get him a BT Manure Carrier and he'll be glad to do all the stable work. He'll like to do it where strong men hated it before. And the best of it is, your manure carrier makes a far cleaner job. There you have a big wide-mouthed bucket lowered close to the floor behind the stalls. It's easy to fill it with the liquid as well as the solid manure—the galvanized water-tight tub keeps all this until you reach the pile rods away from the barn; there's no dripping or slopping along the passage at all.

If you could read the hundreds of letters we receive in praise of the BT Manure Carrier you would agree with us that it makes your barn cleaning automatic—and you'd be glad to write for our Catalogue and read all the facts about the BT Carrier.

THE BT MANURE CARRIER

The BT Carrier means so much to you that you cannot afford to ignore the facts. Think! In one big load it cleans your stable—the whole thing is done in a minute—only one trip out into the yard. That's worth something when it's bitter, icy cold! And then you get the manure a good distance from the barn, where it won't rot the sides of your barn, or injure the health of your stock by giving off ammonia fumes.

Write for our Catalog—we want you to read of the value and superiority of the BT Carrier. Know why it is the choice of the best farmers and dairymen all over Canada. Know why it is used exclusively on the big government farms. Read about the BT handwheel windlass, the friction brake, the latch, and latch trip, the track and hangers. Investigate all the superior features of the BT that make it years ahead of other styles.

Mail Coupon Now For Catalogue

This is the best time of the year to instal your Manure Carrier—right now while your work is slack.
