

FOUND AT LAST

The Cell of Meyer's Cave Said to Be Located.

Who Did It and How it Was Done—Silver Mines Being Hunted for the Hoof.

A Plevea correspondent writes the Ottawa Vindicator, that from time to time for fifty years past, when gathered around the camp fires at night one of the late lumbermen and hunters were wont of relating with the story of Meyer's cave, said to contain millions worth of silver. The cave was said to exist near Marble Lake, in rock-ribbed Barrie, but no wise ones seemed to know where it existed only in the imagination of the men who were never tired of speculating as to its whereabouts and the riches it contained. One old man named Van Tassel spent many years doing little else than hunting for the lost cave. Many plans did he make for the disposal of the millions which would be his if the moment he entered it. Pure silver would be found in it in abundance. He had seen Indians wearing ornaments beaten out of metal, said to hang from the ceiling like stalactites. So went the story. A few days ago a miner, employed in the mines being opened on John Perry's farm in the township of Harris, found a small opening in the ground rocks, almost choked up with debris and tangled berry bushes. He cleaned away the rubbish and entered a narrow passage which led him into a cave of considerable size, but at present of an unknown extent. He found it to contain a sheet of water situated 200 feet in. Pure silver would be found in it in abundance. Examination at once satisfied him that he had discovered the long lost cave, for quite visible on the walls he found carved the name C. Q. Meyers. Several mining tools were found and, most wonderful of all, he also found silver streaks, although not expected to go as wide as the old story of the cave described them. He broke off some samples of ore, and from these he has since beaten out several things, among other ornaments, with but little difficulty. The ore in sight is certainly very valuable, but whether the cave will pay out the wealth expected by Van Tassel has yet to be proved. The cave is situated 15 miles from Plevea and five miles from Cloyne. This discovery is worthy of more than usual amount of interest about Ottawa since it is through Ottawa men that the cave was discovered. The history of this wonderful place would fill volumes and furnish material for a work of fiction founded on fact that would put Allan Pinkerton's best detective story far in the shade. Meyers and a gang of counterfeiters alone knew of its whereabouts and their pledges of secrecy were as inviolate as the obligations of masonry. The government was able to apprehend and convict the counterfeiters which broke up the gang but the whereabouts of the place that yielded the metal in richest quantities was a profound secret. Old gray headed men in Hastings and Frontenac counties to-day remember Meyers and men of his gang but most of them have passed away, in fact all so far as they are known, have passed over. The last survivor died near Ottawa not many years ago. When he realized that he was on his dying bed he sent for a young man in town, Mr. W. G. Rutan for whom he had formed a liking and to him he committed the maps and plans by means of which the famed mine could be found. Mr. Rutan did not think seriously of his information until in the summer of 1889. At that time Mr. Geo. Merrill, Belleville, who has become known throughout Ontario as the Champion of the veterans of 1812 made an excursion in the northern regions prospecting. He had what was claimed to be a chart of the country about the cave which also gave measurements and points by which the spot could be found. On his return home he wrote to the Belleville Ontario giving an account of his trip and stating that he had located the cave. A letter from Ottawa was soon after received by the editor of the Ontario questioning the veracity of Mr. Merrill's statements. It was then that Mr. Rutan became alive to his interests. He took Mr. Thos. Salter into his confidence and together they went to Frontenac county prospecting. The result of the trip was to find indications of silver which led to the formation of the Peterborough Mining Company and the purchase of the mining right of 400 acres of land in Barrie township. Samples of the ore have yielded 95 per cent and there is abundance of it. Mr. Rutan made the discovery and states that the names of several of the parties who frequented the place years ago are now found on the walls. A rusty sledge a crow bar and chisel were also found. The cave is 300 feet long and is connected with other underground passages which show rich deposits of silver and black tin. Most of the stockholders of the company are Peterborough men, and it is to the enterprise of Messrs. Brooks, Taylor, Stevenson and Young that the work of discovery has been carried on.

YUCATAN'S DEADLY SPIDER

The Largest Ever Seen, and Greatly Feared by the Indians There.

A sailor on a coasting vessel which plies between Galveston and ports on the Gulf has some very interesting specimens which he secured while on the coast of Yucatan. Among them is a large jar filled with enormous spiders, which he says are looked upon with greatest fear by the Indians of the central portion of that country, and which are undoubtedly the largest ever seen. The body of the spider is fully five inches in diameter, and the legs are short and thick, being especially adapted to running and climbing. They are about two inches long, and are as big around as an ordinary lead-pencil. The animal is of a grayish-brown color, but is most peculiarly marked by deep red bands which cross its body, extending clear around diagonally from shoulder to hip, crossing each other at the middle of the back and the center of the belly. The head is so large that the details can readily be seen, and even the dead one has such a ferocious aspect that they caused a feeling of fear. The coloring is peculiarly adapted to the country, for the body is like the earth, while the red bands are like many of the creeping vines which abound among the rocks of the interior. The ferociousness of the insect and the marking on the back which induced the Indians to name it the "devil" soldier, and they say it is undoubtedly the worst foe to man in that whole country, making it almost impossible for any one to go into the interior for it abounds in such numbers that no place is free from it, and its bite is certain death. Only one instance is known to Indians where a man has been bitten and did not die, and this man was wildly insane ever afterward. The spider makes its home among the rocks, and when anything approaches it rushes boldly out and makes an attack so fiercely that it is almost impossible to escape it. It runs with great rapidity and clinging sticks and trees as easily as if it were on the ground.

FIGS AND THISTLES

God is not hard to please when we set about doing it in earnest.

We got acquainted with ourselves by knowing other people. The moment the soul fully trusts God it stops looking at self. Love is always rich, because it can always hope for something better. The cross is always a guideboard that points straight toward heaven. Refusing to confess and forsake known sins is as bad as recommending them. Love always looks on the bright side, and always finds a bright side to look on. The devil very often knocks a revival on the head with one of the Lord's hammer. The braver a soldier is the more important it is that he should learn to obey orders. The higher the standard of piety is raised the hotter will be the devil's fire against it. "Be of good courage, and He shall strengthen your heart all ye that hope in the Lord." Evil men understand not judgment; but they seek the Lord and understand all. Only three rich men are referred to as such in the New Testament, and two of them were lost. The man who knows that his house is built on the sand always trembles when he hears a thunder. No man makes much headway in following Christ who knows nothing about Him except by hearsay. Before we can know much of ourselves we have to become well acquainted with many other people. The right kind of religion is love with its coat of oil, doing its best to help somebody. Have you got it? The devil puts in a good deal of his time trying to keep God's children from finding out they are rich.—Ran's Horn.

CASH

Publishers of the "Eureka Journal" will

publishers of the "Eureka Journal" will publish the next largest list will be paid Three Hundred Dollars in cash. The person sending the third largest list will receive the American Supplement of the Encyclopedia Britannica, valued at One Hundred and Fifty Dollars. An extra cash daily prize of \$5, \$4, \$3, \$2, \$1, and \$0.50, will be paid each Monday, Tuesday, Wednesday, Thursday, Friday and Saturday respectively from Feb. 19, 1892, to the person sending the largest list received at the office of the "Eureka" on the day mentioned. Should two or more lists tie, the list bearing the earliest post mark will be awarded the prize. Sixteen days after close of contest will be allowed for complete returns. The daily prizes will be paid each day as won, and the grand prize will be paid Feb. 19, 1892. All prizes will be paid in full without further expense to the winner. Rules: (1) Names of persons and places are not counted. (2) Words from the English language only are counted. (3) No letter can be used in the construction of any one word more times than it occurs in the two words "Eureka Journal." (4) Entries must contain name of sender, with full Post Office address, and be accompanied by One Dollar in cash for a year's subscription to "Eureka Journal." All lists must be mailed not later than the 13th, Feb. 1892. (5) The contest will be judged by Webster and Worcester. Address: "Eureka Journal," 10 Victoria St. Toronto, Canada. N. B. Save this notice if you wish to enter the competition. Fashion makes fools of some sinners of others, and slaves of all.

Grip and Fine Vigorous Health

Grip, misery, woe, pain, etc. Anybody

Grip, misery, woe, pain, etc. Anybody can escape these pining chains for a trifling sum. I had such dreadful attacks, could not shake off my deadly languor. Got a supply of nature's marvelous medicine—Scott's Emulsion. Took large cupsful. My, my! the change seemed miraculous. Was soon filled with the grip of fine vigorous health, and am 57 years of age. T. Rivard, Joliet, Que. A Dundee man, who had been married by the Rev. George Gilliland, told me that the address at the ceremony began with the words, "Marriage is an ordinance of God, established in Eden, for cementing the fellowship of man, for contributing to the happiness of both sexes, and for securing the continuance of the species." Other sufferers from cold in the head and catarrh have been promptly cured, why not you? Capt. D. H. Lyon, manager and proprietor of the C. P. R. and R. W. & O. car ferry, Prescott, Ont., says: "I used Nasal Balm for a prolonged case of cold in the head. Two applications effected a complete cure in less than 24 hours. I would not take \$100 for my bottle of Nasal Balm if I could not replace it." Many scalded diseases are simply symptoms of Catarrh, such as head, eye, ear, nasal, throat, lung, "in of cold, and bronchitis," says: "I used Nasal Balm for a prolonged case of cold in the head. Two applications effected a complete cure in less than 24 hours. I would not take \$100 for my bottle of Nasal Balm if I could not replace it." Many scalded diseases are simply symptoms of Catarrh, such as head, eye, ear, nasal, throat, lung, "in of cold, and bronchitis," says: "I used Nasal Balm for a prolonged case of cold in the head. Two applications effected a complete cure in less than 24 hours. I would not take \$100 for my bottle of Nasal Balm if I could not replace it." Many scalded diseases are simply symptoms of Catarrh, such as head, eye, ear, nasal, throat, lung, "in of cold, and bronchitis," says: "I used Nasal Balm for a prolonged case of cold in the head. Two applications effected a complete cure in less than 24 hours. I would not take \$100 for my bottle of Nasal Balm if I could not replace it."
