

TRENTON

Trenton, April 1st.—Mr. P. J. O'Rourke returned last evening from a business trip to Toronto.

Mr. Peter Brett, of Frankford, has come to Trenton to reside. Mr. Brett lived in Frankford for 14 years.

Mr. Chas. Goodwin has sold his Belleville Road residence to Mr. Peter Brett.

Mr. Thos. J. Johnson, formerly in the carpet and dry goods business here, has moved to his hundred acre farm in Prince Edward county, just opposite the town. Mr. Johnson may consider the advisability of building a few summer cottages on the water front of his property, as he should be so, there is little doubt that he would quickly find tenants for them.

Graham and Co. have had placed in position in front of their store on Dundas street, a very handsome electric sign.

The fence surrounding the open air skating rink is being taken down today.

Toronto Saturday Night remarks, "The country crisis for food, products and money is a sharp one. It is no quoted Dr. Curran, in a recent political utterance, The Picton Times goes on to say: As a business proposition it is folly to place expensive structures at Picton, Trenton, Belleville and Napanee, within a radius of a few miles, unless we are to make a specialty of soldiering. The rate-payers of Picton have invested \$5000 in a drill shed. As an ornament to the town it is a fine thing, but it is extremely doubtful if the taxpayers of Picton would today vote \$5000 for the building, notwithstanding that its cost will probably run well up to \$100,000. (Ontario.)

A moving picture exhibition under the auspices of the Provincial Board of Health, will be given in the Town Hall on Monday evening, April 9th.

Of 800 immigrants who arrived in Toronto yesterday, none could be induced to accept farm work. We are getting a miserable looking lot of people from the Old Country, judging from personal observation at a number we saw disembarking at Toronto recently. It looks as if many undesirable were being dumped on Canada. Recently the Associated Boards of Trade brought to the attention of Dr. Bryce of the Immigration Department, the very fact that the Government was permitting an undesirable class of immigrants to land. Mr. Malcolm Redner is in Toronto today.

Messrs. Smith, Hazleton & Sager, have secured a heavy contract for work in connection with the construction of the C.N.R. and Paper Mills debentures.

Mr. Paul Bryce is building a second addition to the Grand Union Hotel.

St. George's Club has leased rooms in the Weaver Block, Dundas Street, and will take possession next week.

BABY'S OWN TABLETS

USED FOR YEARS

When a mother uses only one medicine as there are little ones in the home it certainly bears great testimony to the value of that particular remedy. Thousands of mothers use nothing else but Baby's Own Tablets. Concerning them, Mrs. M. LeBlanc, Memaraque West, N.B., writes: "I have used Baby's Own Tablets for my little ones for the past ten years and know of nothing to equal them during teething time or for colic, constipation and indigestion. All my neighbors who have used them think it is the best thing they have ever used by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont."

Expect Good Traffic East and Westbound.

Every effort is being made to develop the mineral and fishing industries in British Columbia. They will receive a large amount of freight traffic for the Grand Trunk Pacific on the eastward run. Prince Rupert is looking forward to being, in the future, the Pacific headquarters from which grain will be shipped through the Panama Canal to Europe. It is confidently predicted that a large percentage of the grain grown in western Canada will find its outlet on the Pacific coast. The Grand Trunk Pacific is pre-eminently a grain carrying line. With a grade through the mountains that can almost be classed a prairie grade, it surpasses both its rivals in the handling of this class of freight. The Grand Trunk Pacific also runs through one of the finest grain growing areas in the world. A few months ago a settler named Paul Gerlach whose homestead is in the Grand Trunk Pacific zone, captured the blue ribbon for high class wheat. The coal will supply eastern bound freight to augment the large amount of grain that is always likely to seek the coal route via the Great Lakes and the Atlantic to Europe.

Mr. William Bennett, Front Street, met with a serious ailment on Saturday afternoon. He was driving along Ann street, a horse belonging to Mr. Bennett was holding a tight rein. Unfortunately one of the traces broke by reason of the heavy road. It is thought that Mr. Bennett was pulled over the dash board and struck his head against the road. The right side of his head was badly swollen as a result. A physician was called. Mr. Bennett had a narrow escape. He is able to be out today, but is still forced to wear a bandage to prevent cold getting into his right eye.

Fashion authorities are still trying to locate the waist line in women. They'd better place a husky young man on the job—he and the girl will do the locating without delay or trouble.

BETTER THAN SPANKING.

Spanking does not cure children of bad habits. There is a constitutional cause for this trouble. Mrs. M. Cunningham, Box W. 37, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

GRAND TRUNK NOTES

Grand Trunk Pacific officials report that in spite of the rapid growth of population in the west it will not be long before the western provinces are supplying the east with a plentiful stock of eggs, poultry and milk at very much more moderate prices than at present obtained in the market. Calculations made this week show that approximately fifteen million dollars worth of eggs, poultry and milk were produced in the province of Alberta last year. From part of the milk was produced nearly six million dollars worth of cream, creamery butter, dairy butter and cheese. The exact figures are as follows: Eggs 14, 027,700 dozen, \$3,021,086; Poultry, 66, 964 birds, \$440,880; Milk 694,170,504 lbs., \$11,453,815.

The western provinces continued to import eggs from the United States, but with the growth of mixed farming this importation is decreasing very rapidly.

SUFFERED EVERYTHING

For Years, Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing us such letters as the following, which are heartfelt expressions of gratitude for restored health:

Glanford Station, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had ulcers and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I feel better now and I am able to do my work."

Henry Clark, Glanford Station, Ont.

Chesterville, Ont.—"I heard your medicines highly praised, and year ago I began taking them for falling of womb and ovarian trouble."

"My left side pained me all the time and just before my periods which were irregular and painful it would be worse. To sit down caused me pain and suffering and I would be so nervous sometimes that I could not bear to see any one or hear any one speak. Little specks would float before my eyes and I was always constipated."

"I cannot say too much for Lydia E. Pinkham's Vegetable Compound, and Liver Pills for there are no medicines like them. I have taken them and I recommend them to all women. You may publish this testimonial."

Mr. and Mrs. G. W. Woebe have moved to their new home in Prince Edward.
