

HORSES RAN AWAY WITH THE CAMP OUTFIT

Mr. Ross of Oak Hills Suffers Injuries When Wagon Strikes Pole.

A serious runaway occurred at 7 o'clock this morning on Alexander St. when a team of horses ran away and as a result a Mr. Ross who is engaged with Mr. Dettor of the Oak Hills district was injured and now rests in the hospital.

Mr. Ross had put a load of camp furniture on the wagon for Mr. Hitchcock for the family is going camping in the Oak Hills. When the wagon got to the street, one of the horses started the other to run away. Unfortunately the wagon struck an electric light pole and the driver Mr. Ross and the load were thrown off.

Mr. Ross being beneath the horses meanwhile ran down Alexander St. separated. One was caught on John street near Victoria Ave. and the other on Rear street.

Mr. Ross was picked up out of his dangerous position. He was at first unconscious but shortly afterwards came to. He had been injured on the head and arm.

A physician found that Mr. Ross' injuries were not as serious as at first thought. His arm was not broken but had to be bandaged, and his face bound up. He was taken to the hospital where his stay will be short, the doctor expects.

A TRAGEDY AT ODESSA

A shocking shooting tragedy occurred at the home of Mrs. Overton Babcock, Odessa, on Tuesday evening of last week, which ended in the suicide of Wellington Babcock, who lived a few miles north of Wilton. It seems that Mr. Babcock had been separated from his wife for almost a year and he went to the house in which she was stopping to get her to come back with him to her own home. It seems that she refused, whereupon he pulled a revolver from his pocket and began shooting at random. About nine shots were fired, in all directions, and at times threatened the lives of the other occupants of the home, who happened to be there when the shooting affray commenced. His wife had a very narrow escape, the bullets only missing the mark by a close margin.

Finally the parties were all driven out and upon returning later, after the shooting had ceased, thinking the frenzied man had exhausted all his shots, and there was no further danger, they were horrified to see Babcock lying beside the stove with a bullet wound in his temple.

Dr. Mayhew was immediately summoned but he had become extinct. An investigation was held, which revealed that the deceased had come to his death by his own hand.

The funeral of the deceased Wellington Babcock, was held on Wednesday afternoon at last week. There were left a wife and two children, a boy and a girl—Whig.

Corns cause much suffering, but Holloway's Corn Cure offers a speedy, sure, and satisfactory relief.

CUPID'S COURT.

BIRCH-RUTTAN

A very pretty wedding was celebrated at ten-thirty this morning in Christ Church by the Rev. R. C. Blagrove, rector. The bride was Miss Minnie Antoinette Ruttan, eldest daughter of Mr. and Mrs. William Ruttan, Jones street, and a popular young lady, and the groom Mr. Francis Jeffrey Birch, electrical engineer of Fort William.

The church was very prettily decorated with marguerites, peonies and lilies. The sacred edifice was filled with friends of the bride when the ceremony began. Mrs. (Cok) Campbell presided at the organ and rendered the wedding march.

The bride was gowned in white chiffon trimmed with lace and wore a black lace hat with ostriches and carried white roses. Her sister, Miss Pearl Ruttan, was bridesmaid and wore a pink gown covered with lace and hat to match and carried white roses.

The groom was ably supported by Mr. Harvey Milne of Kingston.

After the Rev. R. C. Blagrove had pronounced the magic words which united the young couple, E. Osborn, the bride's father, repaired to the home of the bride's parents, Jones street, where a large number of guests had gathered. A very delicious and tempting luncheon was set before the bride and groom and their friends and festivities were extended for a happy wedded life.

The bride's popularity was attested by numerous beautiful and costly gifts.

Mr. and Mrs. Birch left on the International Limited this afternoon for Sarnia, from where they will travel by steamship to Fort William, where they will reside.

HOW TO OBTAIN GOOD DIGESTION

The Stomach Must be Toned and Strengthened Through the Blood.

The victim of indigestion who wants to eat a good meal but who knows that suffering will follow. Hides but poor consolation in picking and choosing a diet. As a matter of fact you cannot get relief by cutting down your food to a starvation basis. The stomach must be strengthened until you can eat good nourishing food. The only way to strengthen the stomach is to enrich the blood, tone up the nerves and give strength to the stomach that will enable it to digest any kind of food through a fair use of Dr. Williams' Pink Pills.

The one mission of these pills is to make rich, red blood that reaches every organ and every nerve in the body bringing renewed health and activity. The following case illustrates the value of Dr. Williams' Pink Pills in curing indigestion. Mrs. T. Reid, Orangeville, Ont., says: "I have much pleasure testifying to the reliability of Dr. Williams' Pink Pills. For several years I have been suffering from indigestion. Several doctors prescribed for me but their medicines did not help me. After every meal I would suffer great pain and would often be attacked with nausea. I grew weak and had almost lost all hope of recovery. At this juncture I decided to try Dr. Williams' Pink Pills which were recommended to me. In these pills I at last found the right medicine and I am once more in good health. I have much pleasure in sending you my testimonial in the hope that it will encourage some suffering persons to try this sure remedy."

Dr. Williams' Pink Pills are sold by all medicine dealers or will be sent by mail at 50 cents a box or six boxes for \$2.75 by Dr. Williams' Medicine Co., Brockville, Ont.

Father Kelly Moved.

Rev. Father Kelly, parish priest at Norwood and Havelock, has received notice from the Bishop that he has been transferred to the Parry-Sound parish, leaving here about July 15th. Rev. Father Galvin of Peterborough has been appointed to take charge of this parish in succession of Father Kelly. The news of the change will be a great disappointment to the many friends of Father Kelly in Havelock and Norwood, where he has endeared himself to many classes, but all extend congratulations on his appointment to such a large parish and assure him that their good wishes will be with him in his new home.

APPEALS TO POWERS.

U. S. Minister at Athens Busy in Albanian Trouble.

ATHENS, June 27.—George F. Williams, American Minister to Greece, yesterday sent to the newspapers a report of his investigations in Albania, which he visited recently by the authority of the Washington Government. In his report, Mr. Williams adds that he saw the Epirote insurgent leader, Zographe, and placed himself at the disposal of the international commission of control, which, however, gave him no reply. Mr. Williams says he considers the conditions in Albania anarchical, and declares the present regime impracticable owing to anti-nistic rivalry. He appeals to the Powers to create a neutral state with an essentially local government.

Situation at Durazzo Grave.

LONDON, June 27.—There are conflicting reports concerning the situation at Durazzo. A belated despatch from that city says that insurgent leaders have arrived there to negotiate terms. Other despatches present the situation as extremely grave. The Prince of Weld, who occupies the throne of Albania, has, it is said, appealed to the Powers to send international troops to restore order in Albania.

Austrian Volunteers.

VIENNA, June 27.—A volunteer force of retired officers and men is being formed here to go to Durazzo to protect the Prince of Weld. Already 1,600 men have been enrolled for this purpose.

PUTS UP POSTAGE.

Hon. Mr. Peletier Announces Increase on Papers.

OTTAWA, June 27.—The Postoffice Department announced yesterday that, to meet the cost of carrying the subsidy to railways for carrying the postage on newspapers and periodicals will be increased. The present charge is one-quarter of a cent per pound. It is proposed in the future to charge one cent per copy for papers delivered by letter carriers. Where there is no letter carrier system the charge will be one-quarter of a cent per copy.

In the recent session of Parliament, the Postmaster-General, while not admitting that he did not already have the right to fix the power, sought by letter carriers. After prolonged discussion the bill was so amended in the Senate as to be unacceptable to the Department.

According to the postal authorities there is now no law to do but to enforce the law as it stands under section 71 of the act.

A circular to the publishers issued by the Department points out that the law as it stands requires one-quarter cent for each pound weight, or fraction of a pound, and as "the law does not establish a bulk rate of postage, this question of one-quarter cent for each copy must now be met.

JUST DRIFT, SAYS CARSON.

Ulster Leader Criticizes Policy of Government.

LONDON, June 27.—(C. A. P. Cable.)—Sir Edward Carson has issued the following statement regarding the Home Rule amending bill: "It is the old offer, which is described as hypocritical sham, and which was only allowed and agreed to because we knew we could not possibly accept it. Moreover, the bill demonstrates during all these months that no progress has been made by the Government in framing details for the separate Government of Ulster. It is somewhat ludicrous to provide that the Ulster is to accept any administration that the Lord Lieutenant, who will be subject to the advice of Dublin Ministers, desires to set up. The whole thing shows in every line an examination of the damaged bow of the Stordard's crew will be witnesses.

Consul to Make Inquiry.

MONTREAL, June 27.—It is stated that an inquiry into the collision by which the Norwegian collier Stordard sank the C. P. R. liner, Empress of Ireland on May 29, will begin in Montreal to-day by the Norwegian consul in this city, W. N. Johannesen, with a view to obtaining an account of the accident to be submitted to the Government of Norway. It is not proposed to place the blame but merely to get the information. Only the Stordard's crew will be witnesses.

Greek Naval Reserve to Mobilize.

ATHENS, Greece, June 27.—Seven classes of the Greek naval reserve were called to the colors, the official explanation of the mobilization being "the increase of the fleet and the naval manoeuvres to begin next week."

The real reason of the step taken by the Ministry of Marine, however, is understood to be the determination of the Greek Government to be prepared for all eventualities, although there is an apparent slackening of the tension between Turkey and Greece.

HIGHGATE, Ont., June 27.—Fire which started about midnight in the village of Duart, three miles east of here, destroyed the old hostelry known as the Kochler House, Ganges' general store, a vacant store, several barns, and other smaller frame buildings. A bucket brigade was the only means of fighting the fire, which consumed everything within reach.

COLLIER AT FAULT?

C.P.R. Counsel Declares That Her Error Caused Disaster.

NAMES SAXE AS CULPRIT

Butler Aspinall Delivers Three-Hour Summary of Evidence and Experts' Testimony at Hard Porting of Stordard's Helm Brought About Collision.

—None of Crew of Empress Derelict, He Claims.

QUEBEC, June 27.—Because her wheel was first put to port and then, without the authority of the officer in charge, put hard astern when she had steered away, Butler Aspinall, K.C., in the course of his address to the Empress of Ireland Wreck Commission yesterday afternoon, contended that the Stordard was responsible for the disaster on May 29, in which 1,014 people lost their lives. Mr. Aspinall asked the commission to find that the crew of the Stordard were inaccurate when they claimed the collier did not answer her helm and reasoned that the change in the course of the vessel on the port helm took her into the side of the stationary liner at right angles and at sufficient speed to cause the wound from which the Empress capsized. If no such change had taken place, he said, the two ships would have passed safely.

Mr. Aspinall further declared that to find that the Empress starboarded her helm, as assumed by the Stordard legal battery, would be to charge perjury to Captain Kendall, who claimed no alteration took place in the heading of his ship, and that she was stopped like a log in the water, as indicated by the signals heard on the collier.

In his address, which occupied three hours, only while scoffing at the idea of Captain Kendall telling a deliberate lie when he only recently faced death, did Mr. Aspinall become at all dramatic. For the rest he was calmly and coolly argumental, relying on the testimony of such an extended report of the court-room by touches of humorous or cutting sarcasm. The crowd broke into a laugh when he described the unanimity with which they had ascertained that the vessel's heading was not altered by the porting or the hard astorting of the helm as "a remarkable affection for the compass under most unusual circumstances."

The first definite suggestion of personal responsibility for the disaster during the hearing of the commission was made by Mr. Aspinall when he held that Third Officer Saxe, who had taken the collier's wheel from the helmsman and put it hard astern, was "the culprit in the case." Saxe's argument that his action did not affect the ship, he said, "was an attempt to clear himself with his Norwegian clientele."

Mr. Aspinall said that no passengers had come forward to suggest that any of the officers or crew of the Empress had been derelict in their duties, while many had praised them for what they had done. There was no suggestion either that the officers and crew of the Stordard had failed to render all the assistance within their power. He was not arguing that there was not confusion after the collision, but he claimed there was no panic. The evidence showed how men of the Empress had stuck to their posts.

Chief Justice McLeod, who has been acting on the commission with Lord Mersey and Sir Adolphe Routher, will leave with the Canadian and British assessors on Sunday for Montreal, and will on Monday make an examination of the damaged bow of the Stordard.
