

CAPT. PILLSBURY TO SUCCEED BROWNSON

President Makes Him Chief of the Bureau of Navigation

WASHINGTON, Jan. 9.—After a conference with President Roosevelt today Secretary of the Navy, Mr. Brownson, announced that Captain J. E. Pillsbury had been selected as chief of the navigation bureau of the navy department.

CAPT. PILLSBURY. The selection of Captain John E. Pillsbury to be chief of the bureau of navigation is, at the same time, a temporary one, unless the president should decide to again have recourse to the expedient of commissioning a retired officer as chief of the bureau.

FORAKER FOLLOWING MAKES FIRST STROKE AT CLEVELAND, OHIO

CLEVELAND, Ohio, Jan. 11.—The first stroke by the Foraker following here was made today when, in a mass meeting a committee was selected to employ the "regular" Republican county executive committee.

The question of legality of the committee selected as against the "regular" committee, said by the Forakerites to be a Taft organization, will now be submitted to the county board of elections. The claims of the so-called Roosevelt committee, a third element of the local situation, also rests with the same board. It will be the duty of the board to determine which committee is lawful and has authority to set for the party in this county. To place the issue squarely before the board each committee has issued a call for a convention on the same date, February 11.

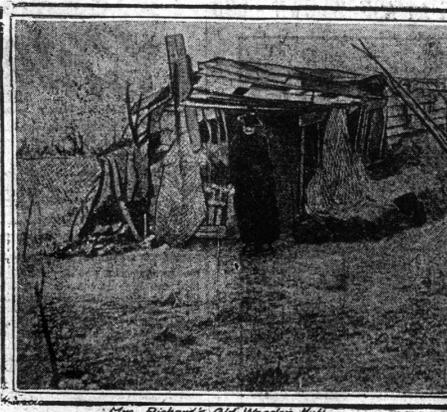

DR. WILLIAMS' PINK PILLS CURE ANAEMIA

Pale Faces, Dizzy Spells, Palpitations, Headache and Shortness of Breath Are Symptoms of Anaemia

Watery blood is an open invitation to disease to take possession of your system. Watery blood is responsible for nearly all the headaches and backaches and aches and pains that afflict mankind. Watery blood is responsible for the dull eyes, sallow cheeks and the listless dragged out feeling that is found in so many growing girls. Good blood means good health, and good blood actually comes through the use of Dr. Williams' Pink Pills. Weak, ailing, despondent women who use this medicine are made active and strong; listless pale-faced girls are given new health, rosy cheeks, bright eyes and a new sense of happiness and security. Mrs. E. S. Nightingale, Chesley, Ont., says: "My daughter was ill for a long time with anaemia and would often be confined to bed for three or four days at a time, and we feared she was going into a decline. A lady friend advised the use of Dr. Williams' Pink Pills, and I got a half dozen boxes. By the time these were used there was a marked improvement, and I got a further supply for her. The change these pills have wrought in her condition is so great that you would not think that she was the same girl who will always have a kindly feeling for Dr. Williams' Pink Pills."

MORE VICTIMS OF LEVEL CROSSING

TORONTO, Jan. 12.—Their democrat train struck a train running forty miles an hour, and Samuel Crouch, David Toie and Crouch's twenty-five-year-old daughter were hurled about a hundred feet. The young woman's neck was broken. Crouch was scalded and killed, and Toie is likely to die. The men were old and respected farmers from near Blenheim, Ont., and the accident occurred at Cedar Springs Saturday night, at the crossing of the Pere Marquette railway.

OLD WOMAN STICKS TO WOODEN HUT SHE BUILT HERSELF

LONDON, Jan. 10.—An old woman named Mrs. Richards, a great-grand-niece of the celebrated painter, Sir Joshua Reynolds, is giving the local authorities of Grays, Essex, a good deal of trouble. Three years ago, Mrs. Richards, who is 70 years old, but as hale and hearty as a woman of twenty years younger, built a hut in a vacant lot near the town. With the material at her disposal—the hut is constructed of wood—Mrs. Richards did not succeed in erecting an imposing edifice, though it is in a measure comfortable, and quite up to her needs which are exceedingly few.

SEABOARD EX-CHIEF, BLAMING RYAN, WILL AID REORGANIZATION

Judge Skelton Williams, Who Was Squeezed Out, Declares for Unity

PHILADELPHIA, Jan. 10.—Appointment of receivers for the Seaboard Air Line Railroad system appears to have brought together the conflicting interests in the ownership and management. John Skelton Williams of Richmond, by whose genius the system was built up, but who was forced out of control four years ago by Thomas F. Ryan of New York, telegraphs to The North American an interesting statement. He says he is ready to "put personal grievances aside" and work with the Ryan interests for reorganization. He also points out that he long ago predicted that the methods used by those who ousted him would bring disaster.

MUTILATED BODY OF POLE FOUND

And Three Brothers are Arrested by the Police at Peabody, Mass.

PEABODY, Mass., Jan. 11.—Following the discovery today of the mutilated body of Ludwyck Kubals, Russian Pole, the police tonight took into custody three brothers, John, Joseph and Karl Gerry, all Poles, and Laura Lemandobski, who is described as a German Pole. Although none of the four were detained could speak English with any degree of fluency, the police said the information they had been able to gain through interpreters justified them in holding the quartette on suspicion. The body of Kubals was discovered in an open field at the rear of the Blaney farm, near Washington street, by two small boys who were on their way across the field to a skating pond. The medical examiner who was called found that the man had been killed by blows on the head, and that afterward the body had been mutilated atrociously. There were many gashes about the abdomen. The body was frozen and its general condition indicated to the medical examiner that he was then dead at least two days.

J. & T. JARDINE, LTD., SELL LUMBER INTERESTS IN KENT COUNTY

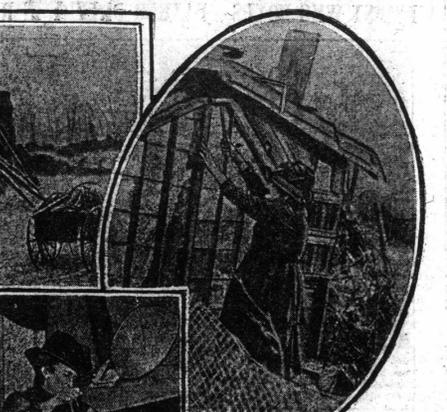

REXTON, N. B., Jan. 11.—J. & T. Jardine have sold their saw mill and all their lumber in this county to A. J. Curran of West Branch and Arthur Curran of Bathurst. The mill has a double acting band saw and equipped with all the latest improvements which make it one of the finest mills in the county.

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 72, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures bed-wetting in people troubled with urine difficulties by day or night.

INFATUATED WOMAN SHOT MAN IN A CROWDED COURTROOM

WAUKEGAN, Ill., Jan. 11.—Mrs. Madeleine Crowe fired two shots at Arthur Nichols in a crowded courtroom today wounding him seriously and causing the judge and spectators to take refuge in flight. Mrs. Crowe was arrested. The shooting followed Nichols' discharge by Police Judge Weiss after he had been arraigned on complaint of

THE AUTHORITIES HAVE, THEREFORE, TAKEN STEPS SEVERAL TIMES TO EVICT HER, BUT WITHOUT SUCCESS, OWING TO LEGAL TECHNICALITIES.

The authorities have, therefore, taken steps several times to evict her, but without success, owing to legal technicalities. They have even offered to provide the woman with a more neat and comfortable house, but she strenuously objects to leave the humble hut constructed by her own hands in the face of difficulties that would have overwhelmed a person of less resolute character. Meanwhile the sympathy of the general public is with Mrs. Richards, and the efforts of authorities to evict her are regarded as unnecessary persecution.

C.M.A. DEMAND A DUTY ON PULPWOOD

Government Will Appoint Commission to Look Into Whole Forestry Matter

OTTAWA, Jan. 12.—Hon. J. D. Roland, president of the Canadian Manufacturers' Association, saw Sir Wilfrid and other members of the government on Saturday and laid before them the demand of the Canadian manufacturers for an export duty on pulp wood, and also that the government take measures for the preservation of forests and water powers in Canada. It is understood that the manufacturers' association intends to make an active campaign looking towards the preservation of the forests, upon which the continuance of water supply for power chiefly depends. The government will probably not be able at the present session to introduce legislation on this matter, but will appoint a commission to look into the whole case of forest preservation and the security of the forests, upon which the water supply so proper legislation can be enacted later.

JACK LONDON AND HIS "SNARK" OVERDUE

Has Not Reached Marquesas Islands Yet—Wife on Board

SAN FRANCISCO, Jan. 9.—Friends of Jack London, the author, are beginning to feel alarmed over his failure to arrive at the Marquesas Islands, which he was expected to reach early in December. London left Hilo, Hawaii, October 7 last in his boat, the "Snark," for Marquesas, and is about a month overdue. It is supposed that the "Snark" which is equipped with a gasoline engine, is drifting about as the result of injury to her machinery. Mrs. London, two friends and a small crew are on the vessel. The steamer Mariposa is due here January 25 from La Hilo, Tahiti, and it is hoped that she will bring news of the party.

MME. DU GAST, WHO DECLINED SULTAN'S OFFER

The sultan of Morocco has offered Mrs. du Gast, the famous French explorer, the position of supervisor of the royal harem. This offer Mme. du Gast very respectfully declined. Mme. du Gast, one of the most remarkable Frenchwomen of the century, has just returned from a trip to the wilds of Morocco, where she was the guest of the pretender to the Moorish throne, and paid a visit to the notorious brigand Vallente. She has also driven a racing motor car from Paris to Vienna, and she nearly lost her life in the famous Mediterranean motor boat race. She is young, handsome and wealthy, but spurns social life for the delights of sport, travel and danger.

A Yard of flannel is still a yard after washed with Surprise Soap. Its pure hard Soap—that's why. Don't forget the name—Surprise.

JAPS AGREE TO LIMIT PASSPORTS

Govt. Pleased With Lemieux's Report Matter Will Come Up in the House in a Few Days

OTTAWA, Jan. 12.—The government Saturday discussed the Japanese immigration situation with Hon. R. Lemieux, who has just returned from Tokyo, where he has been conducting negotiations. This suggestion is not agreeable to western members, who believe that such an agreement might be made an excuse for a large number of Japanese who would come as agriculturists, but who might enter into any sort of occupation afterwards.

I. C. R. BRAKEMAN FELL TO DEATH

Between Cars of Moving Train Mates Did Not Miss Him and He Bled to Death

MONCTON, N. B., Jan. 12.—While walking over the cars on Conductor Delaney's east-bound special near Red Pine early this morning, Brakeman, Mark Gallant, aged about twenty-five years, fell to his death. As the train was passing Red Pine Gallant was going over the cars on his way to the engine and it is supposed missed his footing, falling between a box and a coal car, about eight cars passing over him. The train men did not miss their comrade until the train reached Newgate and only received tidings of his death when the train arrived at Coal Branch. Delaney's special freight passed Red Pine about five o'clock this morning, and about half-past seven trainmen found Gallant dying near the water tank at Red Pine. Life was not yet extinct, but the unfortunate's trunk only lived a few minutes after being picked up. One leg was severed, but other bruises on the body were of slight character, showing that death was due to shock and loss of blood. Mr. Gallant been found immediately after the mishap, it is possible his life might have been saved. He was so far gone when found that he was unable to give an account of the accident. The train was moving slowly at the time it passed Red Pine, but as the cars were covered with light snow, it is thought Gallant slipped or made a misstep in the dark. After the body was examined by Coroner Meahan of Bathurst, it was sent to deceased's home at Coal Branch for burial. Deceased was a son of I. C. R. Section Foreman Gallant of Coal Branch.

G. T. P. WILL BUILD BRANCH TO MONTREAL

MONTREAL, Jan. 12.—Frank Morse, general manager and vice-president of the Grand Trunk Pacific, made the official announcement today that a branch line of the Grand Trunk Pacific to Montreal would be constructed. Mr. Morse stated that while the point of departure from the main line had not been settled a branch line would be completed into Montreal by the time the main line was an accomplished fact. No change is to be made in the route to be followed through the coast range and the line east of Prince Rupert, tenders for the construction of which will be called for at once, will be constructed via Hazelton.

The No. 1 Sower's Seed. Good sowing makes the most of the rain. FERRY'S SEEDS. Have made our best Ferry's Seed. It is the best seed in the world. Ferry's Seed. It is the best seed in the world. Ferry's Seed. It is the best seed in the world.
