Want of Confidence Motion Introduced in the House.

GROUNDS OF COMPLAINT

Long List of Abuses and Failures the Government is Charged With-Kellie Made a Few Kicks-Debate Adjourned Till Today.

[From our Special Correspondent.] VICTORIA, April 6.—The feature in the house today was the motion of want of confidence moved by Semlin in the budget debate. Before the budget debate was resumed the speaker ruled out of order a petition presented by Hume asking for a trail up Lemon creek in West Kootenay on the ground that it involved an expenditure of public money and it was not competent for private members to make such a motion. Smith continued the budget debate on the government side, urging further aid to the

Lillooet mining roads. Kennedy attacked the government generally in an hour's speech, saying the log scaling act as at present was unsatisfactory and saying the lumber rebate should be abolished.

Kellie took up the subject of the damage to Revelstoke by the Columbia river floods and the macessity of dyking to saye the townsite. He important city in the interior on account of its that Rossland and Trail should have a member.

Cotton favored the abolishment of the mortrage tax and wanted the introduction of the other Indian named Ouetabken mining resource, and asked for more representa-tion in the houses for the district. He claimed that Rossland and Trail should have a member.

event of war, demanded the serious attention of the government.

Cotinuing, Mr. Seton-Karr expressed the belief that the reserve of breadstuffs never exceeds the three weeks' supply and was frequently below a three weeks' supply and was frequently below a week's supply. I'rance, he pointed out, was self-supporting, and Russia and the United States were not only self-supporting but were States were not only self-supporting but were able to make large exports. The Dreibund, he continued, was practically self-supporting, and continued, was practically self-supporting, and continued was practically self-supporting, and continued was practically self-supporting, and ceeded in capturing Quetahken. The latter was detained a prisoner at the United States mardetally and he was a witness to a part of the murderous assault. He came to the city and notified Billy assault was practically self-supporting, and ceeded in capturing Quetahken. The latter was detained a prisoner at the United States mardetally and drew her principal supplies of wheat from Great Britain alone lived from hand to mouth and drew her principal supplies of wheat from Russia and the United States, which might possibly at some time be hostile to Great Britain.

He further remarked that should the harvest in America fail and Russia refuse to supply in America fail and Russia refuse to supply Great Britain, the latter's position would be most serious. The speaker called attention to the damage done to the commerce of the United States marbal's office until Puchen went bofore Justice hal's office until Puchen went that hal's office until Puchen went bofore Justice with murder. Quehtaken was then taken over with murder. Ouehtaken was then taken over out a warrant charging has been outen out of the county jail and locked up. ernment leader, Mr. A. J. Baltour, said that the peculiarity of the motion was that it had given a suitable text both to protectionists and free traders. The adoption of the proposal to establish state granaries, he claimed, would mean turning the chancellor of the exchequer into a gigantic corn dealer. As would mean turning the chancellor of the exchequer into a gigantic corn dealer. As to the commercial zollverein, Mr. Balfour continued, he looked with considerable longing for a closer union with British colonies, both in regard to commercial and military affairs, but he scarcely thought a zollverein was necessary and scarcely thought a zollverein was necessary and did not think there was danger of foreign countries refusing Great Britain food. The real thing upon which Great Britain was dependent, Mr. Baltour asserted, was her navy, for which the government accepted the responsibility. The discussion was then dropped.

STAND BY BRITAIN. Cape Government Says the Transvaal Is In the Wrong.

CAPE TOWN, April 6.-At today's session of the legislature the question of Great Britain's ultimatum to the Transvaal government against closing of the drifts was raised. Sir J. At its meeting today the board recommended the appointment of an additional member of the appointment of an additional member of the police force to act as detective. The council fearned this innocent-looking request was nothing more than a scheme to appoint ex-Chief Peter Mertz to this position, when Mayor Belt would declare an emergency and put Mertz in charge of the police department.

Instead of adopting the recommendation the council passed a resolution empowering Chief Hawthorne to appoint from the police force as many detectives as he thought were required and supply the vacancies thus created on the force by appointing new men; in other words, giving him the control of the department under him. The council also ordered the board of police to rescind the order issued by it recently prohibiting the officers from entering saloons. The action of the council meets with the general commendation of citizens.

WILLOUGHBY WAS FIRM. South African Committee Could Get No Answer From Him.

LONDON, April 6.—The parliamentary committee, inquiring into the Transvaal raid was again in session today. A private discussion resulted in the reading of the confidential correspondence between Sir John Willoughby, the military leader of the raid and Sir Redvers Buller, the adjutant-general of the forces, the former having declared that he acted under orders, as Matabele adminstrator, in the bona fide belief that he had imperial authority to do so. Sir William Harcourt cross-examined Sir John Willoughby with the view of eliciting his reasons for believing he had imperial authority for the raid. The witness, however, declined to say anything beyond admitting he had private talks with Dr. Jamieson on the subject, the substance of which he refused to divulge. This caused Sir William Harcourt to exclaim. "Then I must please the room and settle this question once and clear the room and settle this question once and

THE COMPANY'S "SAFETY" PLAN

1. Preference Shares get 10 cents a share dividends each year before the common shares participate. Only preference shares are offered to investors who come in on the ground floor, as if company were stocked for \$400,000 only; hence a preference share at 12½ cents is equivalent to 2½ shares at 5 cents each in an ordinary million-dollar company, or to five shares at 2½ cents each in a twomillion-dollar company.

Five-eighths-250,000-of the preference shares have been set aside for development purposes. These shares are marked in Red Ink-"Treasury Shares, sold for development purposes only." Thirty-five thousand of these have been appropriated for work heretofore done. The net proceeds of those hereafter sold will be used for development purposes only. Any officer misapplying these funds would be criminally liable.

ALL Other Shares are held by the Hon. T. Mayne Daly as Trustee until the Company's mine is on a self-sustaining basis.

4. No Salaries to any officer or director until the mine is self-sustaining.

5. No Indebtedness incurred without cash first on hand to meet it. Financial Statement and Report on work done every three months sent.
