May 8, 1850.

ANALYSIS OF MINERAL WATER OF A PUINT DU JOUR.—From Mr. Hunt's Analysis of the Water of the Mineral Spring at Point du Jour, near 1. Assomption, i infer that it will prove a valuable addition to those already discovered in Canada.

It appears to be well adapted to cases of secolular diseases of the wisin, gout, rheumatism, and dyspeptic complaints generally.

Mineral Water to be useful should be taken for some time, and when it steeps to lose its effect, that from another apring should be substituted and one not agreeing with an individual, another may act kindly and effectually. Weak and delicate persons should seek the advice of a physician with regard to like employment of these waters—It would be a great blessing to society if these productions from the laboratory of nature were to supersede the ville and heterogenous compounds, with which the world is cursed, under the name of "Patent Medicines."

Montreal, 11th March, 1850.

THE Undersigned, in retring from the above train thanks to the Nobility and Gentry, who have for the last very life critical thanks to the Nobility and Gentry, who have for the last very life critically patronized him thanks to the Nobility and Gentry, who have for the last very life critically patronized him thanks to the Nobility and Gentry, who have for the last very life critically patronized him thanks to the Nobility and Gentry, who have for the hards to the Nobility patronized him thanks to the Nobility and the hards to the Nobility patronized him thanks to the Nobility and Gentry, who have for the surfers of the state that they will confined the hards of his and train thanks to the Nobility and Gentry, who have for the state that the patronized him and trust that they will confined the last very life critically and trust thanks to the Nobility and the last very life critically patronized him and trust thanks to the Nobility patronized him thanks to the

Montreal, 11th March, 1850.

I certify that I have used fhe Point du Jour Spring Water in my practice, and have found it to act as a mild purgative and alterative. From the quantity of Iodine it contains, it will, I doubt not, be found useful in scretchous diseases and in squae form of syphilis, in addition to other remedies.
