

THE TRACK.

A Full Programme of To-morrow's Races.

The Horses which will Compete and something About Them.

There is a prospect of an excellent afternoon's sport at the Park to-morrow. The entries closed last night and number 19 horses in all. The Prince Edward Island horses, Island Chief and Dean Swift, arrived here on Sunday morning in charge of P. S. Brown. They are both handsome looking horses. Island Chief is a coal black stallion and weighs 1225 lbs. Dean Swift a brown stallion, is the sire of Chief, and is entered in the 2.40 class. The Sussex mare Helene in charge of Mr. Bohn, and Tom Morris in possession of C. W. Ward, St. John, also came up in the evening boat. Most of the Woodstock horses came down by train to Gibson yesterday. Sandy Morris and Lady Bashaw from Truro, in care of A. L. Slipp, came up by steamer last night.

The Free For All.
Trot ought to be a free race. The four horses are all known to be good ones and have records below 40. Island Chief has a record of 2:38; Sandy Morris one of 2:34; Pomp beat Sandy when Sandy got this record, but was ruled out. He is said to be able to show a 20 gait for a half mile. Helene has a record of 2:37 and it is said that she trotted a half mile this morning in 1:14. Horsemen expect this to be a most exciting trot, one of the best, if not the best ever seen in Fredericton. The track is in good shape and there will be some breaking of records done.

The Class Trots.
will be square as it is well known that every horse is entered in his proper class. The management are bound to have things square and their efforts in this direction ought to meet with the strongest mark of public approval, good generous attendance. In the 3 minute class it will be observed that Little Nell, William Segee's beautiful mare, and Frank Brown's well known Kitty take part. Donald, John M. Wiley's Morris Stallion, will also compete for honors. He has done some promising work both in this Province and in Nova Scotia. The other entries in this class are not yet known to fame. In the 2.40 class, we have Lady Bashaw, with a record close to 40, General, who was matched against Sarah G. when the latter died, and if he is anything like as speedy a one as the mare was he will be chosen the subject for the trials. What not was once owned by Mr. Myhrall and was a pacer; but he has taken a notion to trot and is said to be speedy. The other horses in this class have all more or less repute. Dean Swift's fame rests upon the fact that he is the sire of some good ones, among them being the Island Chief.

The Future of the Track.
will depend very much upon the success attending this meeting. If the public patronage is liberal and the pay the thing for the future, 25 cents, the management will feel encouraged to go on and further improve the premises so that a good meeting may be held every year. This meeting is not intended to make money for anybody, but only to afford a good day's sport.

Mr. Tippet, and was witnessed by a large number of guests and others. Mr. Wm. A. McInnis acted as best man, and the bride was attended by her sister, Miss F. Tibbits. The bridal presents were elegant and quite numerous. After the ceremonies at the church were over the bridal party took breakfast at the residence of the bride's father, and after which Mr. A. University Library.
Mr. F. St. J. Bliss, B. A., '83 and A. W. Stratton, B. A., '79, have during the mid-summer vacation prepared a catalogue of the contents of the University Library, alphabetically arranged. This is a work that has long been needed, and students and others who visit the library hereafter will find these gentlemen alone to thank for the valuable assistance it will render.

John Murray always has a good show, and gives a pleasing performance—City Hall, to-night.

THE L. S. C.

General Middleton's Inspection.

Major General Middleton, commanding the Canadian militia, arrived last evening, and the general inspection of the corps took place this morning. After the Commandant's review on the barracks grounds in which Lt. Lient. Col. Maunsell, Col. Baird, Major Gordon and others took part, the troops marched to the flats below the city accompanied by the General. The general inspection was witnessed by a large number of the citizens, the corps being put through a very successful drill by Col. Maunsell D. A. G., Major Gordon and Lieut. Young. After the corps had returned to barracks and prior to "breaking off" the General briefly addressed the troops in which he expressed himself highly pleased with the field exercise he had just witnessed and the general appearance and dress of the soldiers. He spoke in very highly complimentary terms of their skill in target practice and judging distance. At the close of his speech the General presented the prizes to the successful competitors in target practice and judging distance while at Camp Fern Hill. The Commandant's prize, a handsome silver watch, was presented to Pte. J. C. Burns, who made 101 points being the highest aggregate score made in the individual practice. A silver medal and badge was also presented to Pte. Burns for being the best shot in the company. Act. Sergt. O'Shaughnessy who made 97 points, the next highest score, was presented with each prize, as was also Lieut. Corp. Google who made 82 points and Pte. Kinney with a score of 90. Other members of the score also received cash prizes.

The General will be entertained at dinner this evening by the officers of the Corps in their mess room.

He leaves for Woodstock to-morrow morning accompanied by Col. Maunsell, D. A. G., and will inspect the Woodstock Field Battery which is now in camp at that place.

Presentation to the University.

At the opening of the University it was announced that the class '83 had offered a prize of books to the department of English Literature to be competed for during the present Academic year. This prize is to be awarded to the student in the Freshman Class who exhibits the greatest proficiency in the English Language and Literature Course of that year, and is, at the request of the class, to be presented to the successful competitor by Dr. Harrison at the next Encenia. The conditions of the prize require that competitors should write an essay during each of the terms of the Academic year. A committee of the class has been appointed to choose the subjects for the essays and to examine and mark them according to their relative value. The prize consists of Ward's English Poets in four volumes, the Riverside Edition of Nathaniel Hawthorne's works in twelve volumes.

Fredericton Market.

The farmers are busy in the harvest field, consequently the market is not very well supplied. Prices have undergone very little change since last week. Potatoes, 90 cts per barrel; beef, 6 to 8 cts per lb; mutton, 6 to 7 cts; lamb, 7 to 8 cts; butter, (packed), 17 to 18 cts; eggs, 19 to 20 cts; chickens, 35 and 40 cts per pair; squash and pumpkins sold from 8 to 10 cts; sweet corn, (scarce) 12 to 14 cts per dozen; cranberries, 7 to 8 cts per quart; carrots, 40 to 50 cts per bushel; turnips, 40 to 50 cts per bushel; beets, 50 to 60 cts per bushel; eggs, 16 to 18 cts; cabbage, 5 to 6 cts per head; some newly-threshed straw is in the market and sells very rapidly bringing from \$5 to \$6. The proper way to market straw readily is to have it bound in sheaves or bundles. Hay brings \$8 and \$10 per ton. Apples are about 38 to 40 cts per bushel. Oats sell from \$1 to \$2 per barrel. Plums, \$2.50 to \$3.50 per bushel.

Skipped Out.

The two Frenchmen who came to this city a week or so ago for the purpose of teaching French, left suddenly the latter part of last week, with their scanty bill unpaid, and a lot of borrowed and advanced money in their pockets. They hailed from Bordeaux, France, and gave their names as L. K. Robitaille and Charles D. Polioit. They had secured quite a large list of students, including representatives from the highest families in town, and had given two or three lessons to each student. Their terms were not strictly in advance, but it is understood several of their class advanced their money, as they claimed to be in needy circumstances. Others who were fortunate enough to make their acquaintances now lament the loss of a dollar or so.

No. 1. Fire Company.

The building which belongs to No. 1 Fire Company is in a very disgraceful state at present, and should at once be repaired. The doorway is in a rotten condition, and the floors have holes in them large enough to let the largest firemen among them through. The building also requires plastering and many other repairs. It should be seen to at once.

St. John Market.

The quotations of last week prevail this week. Beef, 3 to 4 cts; mutton, 5 to 7 cts; lamb, 7 to 9 cts; pork, 9 to 10 cts; butter, 18 to 20 cts; (packed) and 22 to 24 cts in rolls; eggs, 20 cts per dozen; chickens, 60 to 65 cts per pair; hay, \$11 to \$12; apples, \$1 to \$2 per barrel. Oats are plentiful and bring 38 to 40 cts a bushel.

The New Town.

A beginning has been made at the erection of houses in the new town, which Mr. Gibson is going to build on the hill behind the Cotton Mill. The houses to be erected this fall will be of brick.

Mr. Stanger now Stock.

The advertisement of Mr. Thos. Stanger, merchant tailor, was received too late for this issue. He has received a fine stock of fall and winter clothing.

Moncton Driving Park.

The fall meeting on the Moncton Driving Park will take place October 15th and 16th. The first day, the races 2.38 class. Gentlemen's driving race and the county running race will be held. A purse of \$150 is given for the first race and \$50 for each of the others. On the second day there will be two free for all races for purse of \$175 each.

The Infantry school team will play the City Amateurs to-morrow morning, on the drill grounds in rear of the post office. A good game may be expected.

Pedestrianism.

CHIT-CHAT.

Notes from a Man about the Town.

Some Things that Some People Talk About on the Streets.

I was told rather a good story last night about the Collector of miscellaneous licenses. A certain drummer for a Montreal medical house came to the city the other day, and proceeded to call upon the doctors. He went first to Dr. Patterson. As he came out—but I will let him tell the story in his own words: "As I came out of the door, I looked up and down the street, when a gentlemanly looking fellow approached me and asked me if I was looking for Dr. Atherton's. The question surprised me, but as I wanted to see Atherton, and thought the man was anxious to do me a kindness, I answered him in the affirmative. 'Well,' said he, 'I am going in this direction, for I'm the new you.' We walked along a little way when a new friend remarked that there was a license for doing business in Fredericton. I laughed and said it did not make much difference to me; 'But it does to me,' said my new acquaintance, 'for I'm the new you.' I collected them. I counted I was taken aback, but I paid up without any more words, and concluded that I was rightly served for being so ridiculously fresh."

"She shall have music wherever she goes." So the nursery rhyme is, and so shall it be, but the cause will not be "bells on her toes," but bells on her garters—tiny silver things that jingle when she walks with a soft muffled sound, which seems to come from every place at once and no where in particular. This is the very latest feminine fancy. What do I think of it? I don't think anything about it. What business have I to think about such things?

I wonder when some one will devise a way of making a decent street in Fredericton. At present conversation in a carriage is carried on at the risk of biting off one's tongue. If you want to see a pretty house drive over to Marysville and look at the one Mr. Gibson is building for the Superintendent of his cotton factory; and, by the way, Marysville can boast of the finest row of dwellings in the Province.

Andover Masquerade Ball.

The Masquerade Ball of Tuesday evening last was a great success, and exceeded the expectations of the Committee in charge, though the rain fell in torrents all day. A large crowd assembled, and dancing was kept up until the "free time" hours. At twelve o'clock supper was spread for the guests, fifty couples partaking. The music was of a first-class order and was furnished by the Messrs. Gibbs Bros. and Wade. Teachers' Salaries.

Sir,—There appears to be so much grumbling now-a-days on the part of the teachers, as to their salaries, especially the Grammar School Teachers, that I would like to ask the latter class how they would like to go back to the salaries the Government School Teachers received in this Province forty years ago, when a first-class grammar school teacher only received £20 a year, including the Government grant. Such was the case in those days. One of our best teachers, John Tweedie, the father of Mrs. Michael Colter, with others, self included, spent many of the best years of our lives on such salary and without such holidays as teachers now claim, having only a half day holiday on a Saturday, without the now foolish long midsummer vacation when children would be better at school than perambulating the streets, forgetting much they had been taught. In reference to the heat in summer which the teachers so much complain of, how is it the schools in the West Indies and Africa are kept in operation all the year round, where the heat is far more oppressive than in this country, without such holidays as are claimed for here. Now to end this controversy I would suggest that teachers be paid exactly the same as mechanics—when they work pay them, when idle, no pay—and this is the very reason the grumbling teachers, as I consider they are all over paid for services performed. Take one case only for example—One of our city teachers formerly, if I am correct, received \$400 a year and what is his salary at the present day, working only 3 hours a day and a Saturday holiday? Shall I say it is nearly double that amount? Where is there a due chance in the city, that can earn a sum at hard labor and working 10 hours a day. The fact is teachers are too well paid, and many of them would be glad to work for a less sum rather than lose their position.
