

Heading off a Risk

Gas is liable to puff out of the front door of any furnace unprovided for gas escape.

"Sunshine" Furnace has Automatic Gas Damper directly connected with smoke-pipe. Gas pressure sways damper sufficiently for it to escape up chimney (see illustration), but heat doesn't escape.

What does "Sunshine" Gas Damper mean to "Sunshine" householder? Means protection to the furnace parts against evil effects of gas.

What does "Sunshine" Gas Damper mean to "Sunshine" coal account? It means, instead of owner with "ordinary furnace" fear having to keep check-draft indefinitely closed to "let off" gas—when there's two-thirds parts of heat-energy to one part of gas passing up chimney—draft can with all safety be opened, and coal saved for another day's duty.

LEFT ONLY EIGHT THOUSAND.

Will of Late Deputy Surveyor-General Flewelling Admitted to Probate.

FREDERICTON, Sunday.—The will of Deputy Surveyor-General Flewelling bearing date March 5th last, was probated yesterday afternoon. The entire property is left to the widow. The estate was sworn at \$8,000, of which \$5,000 is real estate and comprises residence; the personal property is made up of cash at Spring Hill steam launches, etc., and \$1,000 life insurance. All the property is unencumbered.

ANGLO-FRENCH ENTENTE POPULAR

State Ball at Buckingham.

LONDON, Wednesday.—At Buckingham Palace a great state ball was given in honor of President Fallières of France.

This was the culminating feature of a busy day of entertainment spent by King Edward's guest. Everywhere the French president has been greeted with the greatest enthusiasm, and early in the evening immense crowds gathered about the various royal residences to witness the processions to the palace and to cheer the president of France.

The scene within the walls of Buckingham was one of exceptional brilliance. The royal guests assembled in the throne room, and a fanfare of trumpets heralded their entrance into the ballroom, which was superbly decorated with flowers.

King Edward and Queen Alexandra, accompanied by M. Fallières and the royal entourage passed down the entire length of the ballroom between rows of bowing guests.

By the King's command the ladies' gowns were of soft shades of color, most of them being fashioned after the directorate and empire periods. All of the embassies were well represented and many high Indian officials were present. There was a great display of jewels and orders.

Visited the Exhibition
In the forenoon the president paid a round of ceremonial calls upon various members of the English reigning house.

In the afternoon, accompanied by King Edward and Queen Alexandra, he paid a state visit to the Franco-British exhibition in Shepherd's Bush. The King's carriage halted in front of the Canadian pavilion, and was greeted by Lord Strathcona. The King introduced Lord Strathcona to President Fallières, and expressed regret that the fine pavilion was incomplete, and he hoped to be able to visit it another time.

President Fallières is proving a highly popular visitor. Huge crowds gather wherever there is a possibility of seeing him pass, and the cheers with which he is greeted are exceptionally lusty.

'INDOMITABLE' TO SPEED.

LONDON, Thursday.—It is widely believed that the Indomitable will endeavor to make a record for the Atlantic lines when conveying the Prince of Wales to Canada. Specially picked stokers and artificers are being selected and it's now believed that the escort of battleships will precede in a few days. The Indomitable's trial speed is over 28 knots.

ANNUAL TRAINING.

Battery Orders by Major T. W. Lawlor, Commanding 12th Battery C.F.A.

PARADE
The officers, non-commissioned officers, gunners and drivers of the 12th Battery Canadian Field Artillery, will parade at the Armoury, Newcastle, N. B., on Monday, June 22nd, 1903, for the purpose of proceeding to Sussex, N. B., to perform 12 days annual training in camp.

SERVICE ROLLS.
As the service rolls must be completed one week previous to the date set for training, all concerned should notify the officer commanding, on or before June 15th inst., after which no applications can be entertained.

RECRUITING.
For the purpose of receiving applications from drivers and others wishing to furnish horses, an officer of the Battery will be at White's Hotel, Redbank, June 15th, at 10 o'clock, and on June 15th. On other dates apply at the office of the Renouf Bridge Lumber Co., Ltd., Renouf Bridge and Millerton, N. B.

CLOTHING
The clothing and accoutrements, which are at new this year, will be issued on and after June 1st. Come along and enjoy a holiday in camp.

T. W. LAWLOR, Major,
Commanding 12th Battery C.F.A.
Newcastle, N. B., June 1st, 1903. No. 35-3

True, remarked the aged sutor, I'm considerably older than you, but a man is as young as he feels, you know.

Oh, I don't mind that, replied the fair maid, what I want to know are you as rich as you look.

SAVE THE CHILDREN

Insure Them Good Health.

Ninety per cent. of children, under twelve years of age, are being poisoned and parents don't realize it. Irregular bowels are the chief cause. You parents know that your bowels should move every day. You know you must be as regular as clock-work, or the blood will become tainted.

Don't you realize that the children must be as orderly in getting rid of the waste matter of their system? Then, if you find that any of the little ones go two or three days without action of the bowels, don't run to castor oil, senna tea, calomel, cascara or harsh "liver pills." Those simply purge the child—strain the bowels.

"Fruit-a-lives" are the ideal medicines for children. They are fruit juices and tonics in the form of a pleasant tasting tablet. "Fruit-a-lives" stimulate the liver, causing more bile to flow. It is the bile, given up by the liver, which moves the bowels. "Fruit-a-lives" regulate the liver and bowels, and thus completely cure constipation. They sweeten the stomach, and are the finest tonic in the world to build up the system and make children plump and rosy. 50c a box—six for \$2.50. Sent on receipt of price if your dealer does not handle them. "Fruit-a-lives" Limited, Ottawa, Ont.

No, remarked the man who seemed to be talking to himself, It isn't right. What isn't right, queried the party who had overheard the remark.

The waiting of so much money on cake frostings at a wedding, considering the future unceasing appetites of the happy couple for plain bread, explained the noisy thinker.

Said He—"And you will keep your promise and elope with me to-night?"

Said She—"Yes."

Said He—"What do you suppose your parents will do about it?"

Said She—"Oh, they will keep quiet until we return, and then give us their blessing."

Said He—"I doubt it."

Said She—"Yes, they will. They promised to do so if I could induce you to elope with me and thus save the expense of a stylish wedding."

HISTORY OF TAPESTRY.

The Art Was Known to the Ancient Greeks and Egyptians.

Flemish artists are believed to have been the first to make tapestry for use as a covering for walls. The art itself is certainly very ancient, many of the hangings used in Egypt and Greece being considered true tapestry. Its subsequent history is obscure, but it evidently maintained a lingering existence in the east until the Saracens revived it and brought it to Europe.

Tapestry was used by the Saracens only as drapery or curtains for the courts of their houses. Embroidery appears to have served for this purpose in northern Europe until after the twelfth century, and much of the work of this period was really embroidery, such as the incorrectly named Bayeux tapestry. It was in the fourteenth century that tapestry began to be largely made in Flanders, where the weaving industry became very important. At that time twenty-seven streets were occupied by the weavers of Ghent. In 1382 there were 50,000 weavers in Louvain and more still at Ypres. Very few samples of fourteenth century tapestry remain, but those that have come down to the present day closely resemble contemporary wall painting. During the latter part of the fifteenth century the golden age of tapestry existed, especially in Bruges and Arras. The Flemish tapestries of that time are models of textile art. The color is rich, the decorative effect strong, the drawing and composition graceful, and the whole arrangement shows consummate skill in endeavoring to meet the exigencies of the loom and at the same time the aesthetic requirements of wall decoration.—Argonaut.

COOLNESS IN DANGER.

Experiences of an English Military Official in India.

When Lieutenant Henderson was captured by the natives of the Gold Coast hinterland they got into a wordy discussion as to how they would kill him. The victim listened awhile till he was weary of it. "Oh, well," he said, "I can't be bothered with your arguments! I'm very sleepy. Let me know when you have made up your minds." And off to sleep he went. The unexpected performance saved his life. His calm indifference persuaded Samory's men that they had to do with some one of immense importance. Unwilling to take on themselves the responsibility for his death, they sent him unharmed to Samory's court, in the Jimini country.

Once again Lieutenant Henderson saved himself by a like exhibition of courage. He found Samory on a throne, surrounded by 4,000 warriors, yet when motioned to do homage on his hands and knees he did nothing of the sort. He simply sat on the throne beside Samory, shaking that monarch warmly by the hand. Thanks to this, and to nothing else, he was accepted as the representative of a great sovereign instead of a captive doomed to death. He talked to Samory of the queen, and Samory talked to him. Thus a mission which might have ended, as so many African missions have ended, in a terrible silence and a suspicion of unspeakable horrors, did, in fact, end in a valuable basis of future relations between Great Britain and a Mohammedan power.—London Scraps.

The Shape of the Sky.

What is the apparent form of the vault of the sky? There is probably no one to whose eyes it seems a true hemisphere, with the zenith appearing as distant as the horizon. At sea or in a flat country the seeming greater distance of the horizon is best shown. Professor J. M. Pernter in discussing this subject reaches the conclusion that the form of the vault in vertical section is that of the segment of a circle the arc of which subtends at the center an angle of the order of forty degrees. If the reader will draw such a segment he may be surprised by the amount of flatness which is thus ascribed to the sky. From this optical illusion many curious effects arise, such as the seeming increased magnitude of the sun and moon when near the horizon and the apparently oval forms of halos and coronas seen at low altitudes.

A Financial Episode.

A Milwaukee business man stepped up to the teller's window in one of the city banks during a financial flurry, presented a check and asked for the money it represented. "I cannot give you the cash," said the teller, "but I can pay you in clearing house certificates."

"I would much prefer the currency," answered the man.

"The certificates are just as good," said the teller.

"Well," returned the merchant, "if that's the case I suppose I can go home to my baby and give it some money and say, 'Here, little one, this is just as good as milk!'"

Trimming.

Every day at a golf club in Scotland an elder in his church for a long time down words respecting a man he had made, and the minister said:

"Heard, I was one who much as merely embellishing my

Shaky Logic.

"I don't tell you to embrace your daughter."

"I want to embrace your daughter."

"I don't tell you to embrace your daughter."

This woman says that Lydia E. Pinkham's Vegetable Compound cured her after everything else had failed.

Mrs. W. Barrett, 602 Moreau St., Montreal, writes to Mrs. Pinkham: "For years I was a great sufferer from female weakness, and despite every remedy given me by doctors for this trouble, I grew worse instead of better. I was fast failing in health, and I was completely discouraged. "One day a friend advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and am thankful to say that it cured the female weakness, making me strong and well. "Every woman who suffers from female troubles should try Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

POLITICAL NOTES

(Contributed.)

A bit of political history came out in the House of Commons the other day which cannot fail to be interesting to those super-loyalists among the Conservatives who place party before country. Colonel Sam Hughes related it as follows:—When the rush to the Yukon was on Sir Charles Tupper went to Hon. Clifford Sifton, then Minister of the Interior, and urged upon him the desirability of constructing an all Canadian railway from Killarney, on the British Columbia coast to the Yukon. When the trip was subsequently introduced Hon. Geo. E. Foster and the Toronto World aroused such an agitation among the Conservatives against it that Sir Charles had been compelled to bow to the majority of his party in the House to vote against a project he had suggested. In the last Conservative caucus Sir Charles addressed in Ottawa, in his house on the border of the Rideau, he made a statement that the Conservative party had made two mistakes one very trivial, the other was that they did not loyally support the Liberal party in pushing an all-Canadian route to the Yukon. The Hon. G. P. Graham, Minister of Railways, replying to a question by Mr. Armstrong, said:—It is regretfully admitted that Seattle has grown rich at the expense of Canadian cities owing to the fact that our friends opposite killed the project to build a railway on all Canadian soil to the Yukon. So much for the action of the party of patriots (?) the heaven born, the far seeing statesmen (so called) of the Conservative party that they loyally killed a project which would have built up Canadian trade instead of turning it into American channels.

ARTILLERY ONLY

AT PETEAWAWA.

OTTAWA, Friday.—On account of the installation of a sewerage system at the militia grounds at Petawawa, which is now under way, there will be no troops assembled there this season other than a camp of artillery in the month of August. For this purpose detachments will be brought together from every battery in the Dominion from Halifax to Victoria, for practise purposes, this being the first time in the history of the Canadian militia that anything on this scale has been attempted, so far as artillery competition is concerned.

COLD STORAGE PLANT.

OTTAWA, Friday.—It is understood that in the Commons this afternoon the Opposition will introduce a motion demanding a parliamentary enquiry as to the circumstances of the grant of a cold storage bonus to the New Brunswick Cold Storage Company, with which it is charged, Sir Frederick Borden is connected.

"Life in Every Dose"

"I cannot speak too highly of Eucalypti, for it is the greatest medicine I ever used. I was just about 'all in' when I began the treatment, and in 3 months I was as well as ever. It is a great tonic for weak and run down people. There is new life in every dose."

SAS. STOLIKER.

Ridgetown, Ont., Dec. 19, 1902.

It is a sin not to tell your sick friends about this wonderful preservative.

Throat, lung and stomach troubles, and all run down conditions quickly cured by its use. At all druggists, 50c and \$1.00, or Dr. T. C. Evans, Ltd., Toronto.

WHERE CAN I GET A Good Waggon?

This question was addressed by a gentleman of the Upper Miramichi, to a native of Newcastle, and he replied, "look over the advertising columns of the Advocate and you will find F. H. Gough's advertisement. He sells the best." Made by the

McLaughlin Carriage Co.
