Build Up The Blood

You Cannot Have Health if the Blood is Weak and Watery

It is a hopeless task to try to restore your health while your blood is deficient in quantity or quality. The blood circulates through every part of the body and if it is weak and watery, the body cannot get the nourishment it needs. Dr. Williams' Pink Pills for Pale People will build up the blood and give you the health you need.

"Some years ago my health started to fail. The doctor said my blood was thin and watery, but the medicine I took did not do me any good. My joints and limbs would ache and swell, until it was almost impossible for me to get up and down and no one knows how much I suffered or how discouraged I was. Reading of Dr. Williams' Pink Pills one day I decided to try them. I got a couple of boxes, and by the time I had taken them I felt an improvement. I then got six boxes more and before I had taken them all I felt like a new woman in every way. I could do my housework without feeling tired, and in fact I was enjoying better health than I had done for years. You may be sure I will always strongly recommend Dr. Williams' Pink Pills to all other sufferers."

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$3.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Improvements At The Wireless

Captain Victor Heron, general staff officer, M. L. No. 7, was in Newcastle last week and inspected the guard of the wireless station. While there Captain Heron also superintended the installation of a miniature rifle gun range which has been introduced by the military authorities for the members of the guard. It has been frequently drawn to the attention of the military that the life of the soldier on guard duty at times is monotonous and it is to relieve this and arouse competition and enthusiasm among the members of the guard of the wireless that the miniature rifle was put in. Captain Heron says that the men are delighted with the prospect of their rifle range and are anxious to commence operations at once. Captain Heron further says that the guard here are in fine military condition and are an efficient body of men.

"John Morley's Recollections"

(By Rev. Wm. Harrison)

It is conceded that the most important book from the press of 1917 is "Lord Morley's Recollections," as embodied in his autobiography. The author, better known as John Morley, took the title of Viscount Morley of Blackburn to distinguish himself from the Earl of Morley of Saltram, near Plymouth, Devon.

It is now fourteen years since the life of Gladstone by this distinguished master in the realm of literature made its appearance, and it does not seem to have been in the public mind that another notable work was in preparation by the same fertile and graceful pen. Mr. Morley's life of Gladstone won universal satisfaction and admiration, and the general verdict was that it was "the best biography of a great man ever written."

When it is remembered that Viscount Morley reached his seventy-fifth year in December last, it is abundantly evident that his latest literary achievement still displays much of the fine intellectual vigor, high purpose and splendid determination which have characterized him for so many years.

The past three years have not been favorable for large literary undertakings. Men specially qualified for such endeavors in this direction have been so absorbed by the world-war that all other opportunities and demands were late made.

Viscount Morley's retirement from the British Cabinet at the commencement of the struggle secured for him a period of leisure in which the present work has been produced. The author's great abilities have been recognized in the most influential quarters for many years. As a virile, independent thinker and writer and a man of affairs, Mr. Morley has ranked in the highest class, and his invaluable services to his country as an adviser and administrator, have led him to the House of Lords as Viscount Morley. The two handsome volumes of "Recollections" cover a period of sixty years, and contain a vivid summary and portrayal of the men and events and forces which have made such notable contributions to the life and progress of the British nation during those memorable years.

In addition to his life of Gladstone, Mr. Morley has many other works of the first rank to his credit, viz: "The Founder of the 'Fortnightly Review', sometimes sarcastically called the 'Forklightening' because of its menace to certain theories then in wide circulation. He was editor of 'English Men of Letters', author of the lives of Burke, Walpole, Richard Cobden, Studies in Literature, &c., &c.

The incidents and movements of the past sixty years, which have played so vital a part in the life and advancement of the English people, are described in these two portly volumes by one who took a prominent part in them. Those who have marched in the foremost ranks in the political, educational, religious, literary, scientific, reformatory departments of the nation, are revealed to us in these pages, and constitute a record of once illuminating and of the deepest interest. In rapid succession, the leaders in those various movements pass before us with many fine touches of the characters and their inner lives, both of men and women who influenced large sections of the people in the days now under review. Two verdicts regarding the "Recollections," by competent authorities are stated as follows: "Morley has 'the glory of words' wherewith to adorn his substance in itself of surpassing interest."

"These two volumes tell a story which may well cheer the political pessimist, give us a better opinion of public life, the word progress is not a mere symbol for what is an illusion."

THE LUMBER BUSINESS

The drives are coming along slowly, on account of lack of sufficient rain. Burchill's drive arrived at the Boom Tuesday Ritchie's on the Little Southwest Miramichi is coming along fairly well, but their drive on the Catamaran Brook is not safe yet. Other firms are in much the same position as D & Ritchie. It is likely all or most of the lumber will come down safely, but the drives in some of the smaller brooks may be hung up, unless heavy rain come soon.
