Florizel Arrives.

The Red Cross Liner, Florizel, Capt. C. Smith, 5 days from New York via Halifax, arrived at 3:30 yesterday afternoon. Leaving New York on Saturday afternoon, last a fine run was made to Halifax. At the latter place the ship was delayed a few hours owing to the immense quantity of freight offering and did not get away for St. John's until 4:30 on Tuesday. The passage, from the Nova Scotian port took 47 hours during which head winds were met. Yesterday forenoon numerous icebergs were passed between Cape Race and Cape Spear. The ship brought a full freight and the following passengers:—

R. Morley, M. L. Parrell, Rev. E. Galway, Miss W. Rotwill, Mrs. J. Kreeger, Master Kreeger, Miss Alice Rielly, Miss A. Rielly, Donald Bryan and wife, Miss Florence Bryan, Miss Jean Andrews, G. L. Garneau, Mrs. R. A. Squires, Miss E. Squires, Masters Squires (2), Miss Hannah Parrott, Miss C. Westcott, Miss M. Cooney, W. A. Westcott, Mrs. J. P. Williams and children, Mrs. C. M. Shannahan and child, W. Rennie, T. Rennie, Mrs. S. Power, Miss J. Pender, J. S. Cormack, Capt. W. Twelair, J. W. Dean, H. S. Jeans, Miss Maud Andrews, C. L. Jeans, L. M. Trosk, Mrs. W. L. Parsons, Master T. Drake, Master W. Stevenson, Master J. Morris, Master Mallard, Miss May Clark, Miss Maria Lewis, Miss Margaret Clarke, D. J. Baldwin, A. Burtel, C. B. Kieley, A. Moulton, D. Baird, wife and child, 12 round trippers, and 12 second class.

Man Knocked Overboard.

Yesterday afternoon, while the S. S. Florizel was docking and a crowd of people were collected on Harvey's wharf a young man named Harry Thorne, who was nearest the edge of the pier, was accidentally knocked overboard. Fortunately he was able to swim and reached the shore safely. Except for a ducking Thorne was all right.

Time and again people have been cautioned by the officials at Harvey's about crowding on the pier when steamers are berthing, and they do so at their own risk. It also causes inconvenience to landing passengers.

Have You a Bad Sore?

If so, remember these facts—Zam-Buk is by far the most widely used balm in Canada! Why has it become so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal your sore?

Remember that Zam-Buk is altogether different to the ordinary ointments. Most of these consist of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely herbal.

Remember that Zam-Buk is at the same time healing, soothing, and antiseptic. Kills poison instantly, and all harmful germs. It is suitable alike for recent injuries and diseases, and for chronic sores, ulcers, etc. Test how different and superior Zam-Buk really is. All druggists and stores at 50c. box. Use also Zam-Buk Soap. Relieves sunburn and prevents freckles. Best for baby's bath. 25c. tablet.

COMPASSES ADJUSTED.—Messrs. Joseph Roper and F. J. Doyle yesterday adjusted the compasses of the steamers Fiona and Sagona after they had swung into the stream. Mr. Roper has been busy all the past month at such work on various ships and will have his hands full until July.

TOURISTS FISHING.—Wednesday quite a number of tourists went by rail and auto to the suburban ponds and streams and enjoyed in many instances excellent trout fishing. Most of them had cameras with them and took interesting photos of our inland scenery.

LOST HIS CLOTHES.—The man who was seen on the Topsail Road, Wednesday night, and who was believed to be crazy was coming from a trout excursion and had taken a drop too much; being heated up walking he threw off his coat and vest and lost them.

Raised Bats to Kill Mosquitos.

Near San Antonio, Tex., a unique scheme is being tried for getting rid of mosquitos and incidentally the malaria that they carry, and at the same time making the process pay for itself. It is well known that bats are great enemies of mosquitos, and so the idea is to encourage the bats. For this purpose roosting houses for them have been built. These houses have sides made of slats, with spaces between, so the bats can easily go in and out, while the inside will be kept nearly dark. Numerous roosts are provided and there are sleeping accommodations for 2,000,000 bats in each house—though the guests do not number quite that many yet. The bats sleep on the roosts all day and at night they fly out and feed on the mosquitos. At least, that is what they are expected to do. Bats are the great natural enemy of bats, and so the posts on which the bat houses are built are protected by metal shields to keep the rats from gaining an entrance. It is believed that with a good safe place to stay in the bats will rapidly increase in numbers. The money end of the scheme is in the guano which it is believed will accumulate in the rookeries in marketable quantities.—The Pathfinder.

Scotland Yard Chambers of Horrors.

Into one room in Scotland Yard, which is only unlocked on certain afternoons, no stranger may go without special permission. It is the Chamber of Horrors. Here one may see Devereux's trunk and Crippen's spade, the false arm of Charles Peace, and his burgling tools and collapsible ladder.

Here also is the lantern that was so important a clue in the Muswell Hill murder, and the rope that hanged Fowler. There are knives and fire arms, ancient and modern, and each with its own grim story. There are bogus bank-notes, cases full of false coins and coining plant, and the latest things in scientific safe-boring appliances.

Louise Masset's box and Brinkley's stout bottle recall callous murders that once thrilled the public.

Two glass cases are full of bombs—one diabolically disguised as a cigar. This was handed to an engine-driver. With it was a real cigar much lighter.

Fortunately the man discerned the difference in weight, and the providential piece of observation saved his life and the train.

BLIND PUPILS RETURN.—Five boys, who had been attending the school for the blind, deaf and dumb at Halifax, came here by the Florizel yesterday. They have received their summer vacation and will go back to the institution in the latter part of August.

Football.

C. E. L. WIN.

Last evening's football match between the C. E. L. and Casuals resulted in a win for the former by three goals to one. The attendance was below the average although the weather was all that could be desired for football. The game was slow, there was a change in the line up of both teams, Dicks replacing Mitchell in goal for the Casuals, and F. Harris acting as goal-tender for the Institute boys in place of Haytor, who could not play owing to the illness of his father. In the first half the Casuals scored one goal but when ends were reversed the C. E. L. played all round their opponents and notched up three goals. Mr. J. Meehan acted as referee.

Men Returned.

Messrs. Kennedy and Dooley, who were reported missing yesterday, returned to the city in the afternoon. They were all used up, their feet were swollen and sore from constant walking, and they were in a bad way generally. The country about Cochrane Pond is a regular maze of woods and gullies and it is easy for one to lose his way there. The men after leaving this pond fished Thomas' Pond, and then went to Northern Pond. On the return they lost their way, were walking through woods and over barrens all Wednesday night, and broke out near Bay Bulls yesterday morning, when they halted and rested, later tramping into the city.

Personal.

Revs H. G. Godfrey, of Burin, and G. A. Steele, of Flat Islands, P. B., arrived in the city by last night's train.

Mr. Cosgrove, Superintending Engineer of the Red Cross Line at New York, came by the Florizel yesterday accompanied by his wife.

Rev. E. Galway, of Wheeling, W. V., was a passenger by the Florizel. He will spend the summer here and will be the guest of Denis and Michael Galway.

His Lordship Bishop Power went out on last evening's express to St. George's after enjoying a week's holiday here with his parents.

Train Notes.

The Bruce express which left here at 6 p.m. yesterday took out His Lordship Bishop Power, W. J. Wall, Miss Crane, Miss Royle, Miss Seymour, W. F. Spencer, Miss Murphy and about 50 others.

The shore train arrived at 9:35 last night bringing W. Clouston, J. Blackwood, T. Rolis, George Lee, W. Dove, W. McNelly and about 100 other mostly troutmen, and all with well-filled baskets.

Tourist Traffic.

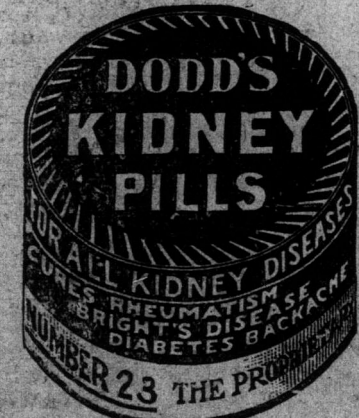

Twelve round-trippers came by the S. S. Florizel, some of whom will spend a few weeks in the city.

The S. S. Stephano which has been undergoing extensive renovation at New York, resumes the service to-morrow and by her will be coming an exceptionally large number of tourists, already over 150 people have booked passages at New York.

IN BAD STATE.—Ernest Guzzwell, who was hurt in a runaway accident on New Gower Street Wednesday evening, and who suffered from concussion of the brain, after being taken home became unconscious, remained so all Wednesday night and did not revive until yesterday morning. He has been very ill since and it will be weeks before he can be about again.

A WORD TO THE WISE.—We have no time to write long winded "ads," but we just want to say that our tailoring business, in points of cutting, fitting and workmanship, has no superior in Newfoundland, and we can back up this assertion by the garments produced from our shop compared with any other. **SPURRELL BROS.**, 365 Water Street, next door to Parker & Monroe's. July 10, 1912.

MORE FOOTBALL.—To-morrow afternoon the N. S. S. Co. football team and that of the D. I. S. will meet in the second League contest. Each Saturday evening the teams will play until the series of six matches have been finished. The teams are very evenly matched and so interested are the islanders that in Wednesday's game fully 2,500 people were present.

GONE ON ROUND TRIP.—Master Gerald Power, son of Supervisor M. Power of Bajrd's, left by the Gaspe yesterday for Brazil and will make the round trip.

BIG ORE CARGO.—The S. S. Themis left Bell Island for Philadelphia yesterday taking a cargo of 12,500 tons ore, one of the largest ever shipped from the Island.

HOME'S REPORT.—The s.s. Home arrived at Bay of Islands at 2:04 a.m. to-day. Capt. Harbin reports getting as far north as St. Modiste. From that point heavy loose ice extended down the Straits and the ship could not penetrate it.

BAIT SKIFF LOADED.—Passengers by last night's train say that caplin were very plentiful at Hoyl-rood yesterday and that the Petty H. bait skiff New Home secured a full load of the fish and should arrive home to-day, when it is hoped that on this bait good fishing will result.

SAGONA SAILS.—The s.s. Sagona sailed for Labrador yesterday at 4:30 p.m. Her officers are W. H. Parsons, captain; S. Marshall, chief officer; W. Barnes, second officer; J. Forbes, chief engineer; J. Martin, second engineer; W. Giles, chief steward, A. Kean, doctor; Mr. Serriek, purser.

MISS ADELA VERNE.—There is certainly a great treat in store for music lovers on next Sunday afternoon in the Casino. Miss Adela Verne, the incomparable pianist, assisted by Miss d'Alberty, soprano; Miss Johnson, violinist, and Mr. Chas. Hutton, accompanist, will give a grand sacred concert.

Miss Adela Verne, assisted by Miss d'Alberty, Soprano, and Miss Johnson, Viola, will give a grand Sacred Concert in the Casino Theatre on Sunday afternoon next, commencing at 3 o'clock. Popular prices. Numbered Reserved seats (Plan at Hutton's), 50 and 40 cents; Gallery, 30c.; Pit, 20c. June 20, 11

The Nickel.

To-day the Nickel offers one of those typically representative programmes, which has made it the peer of the city theatres. Any one who can offer two such talented performers as Miss Alice MacKenzie and Mr. John Kelly on the same bill as high class music and motion pictures for a low rate of admission is endeavouring to give the public something really worth while, and our people are not slow to appreciate this. For the attendances this week have been almost spectacular in their magnitude. Among the films in to-day's show we notice one called "On a tramp steamer," a most thrilling piece of realism. The stirring fight in the stockhold, the wreck and the soul-absorbing swim of the survivors for their lives are scenes that can better be imagined than described; hence it is that we believe this pictorial subject will prove a positive sensation to-night.

CONCERNING BREAD

And of Special Interest to the Millions Who Eat It.

The housewife together with every lover of good, pure bread, will welcome the announcement that: It is possible to obtain Flour from which can be made Bread possessing all the wholesome nutritive and digestive properties contained in the Best and Purest Spring Wheat. Bread made from "ARUNDELL" flour in addition to these merits has that distinctly sweet and wheatey taste obtainable only from the best spring wheat.

"ARUNDELL" goes largely into competition in London and throughout the U. K. with these flours milled by special process and which have become so deservedly popular by reason of their retaining all the best properties of the pure spring wheat none of the merits of which are sacrificed to obtain the maximum of whiteness.

Try a barrel of "ARUNDELL" and be convinced of all that is claimed for it; also that by reason of its strength and absorbent qualities it is the most economical flour for family use.—May 27, 1912.

RESUMES OPERATIONS.—The whaler Hawk, which is getting a supply of coal and receiving slight repairs, sails this afternoon for Cape Broyle.

A Little Talk About BUTTER.

In buying BUTTER there are just two things which have weight with the consumer—**PRICE and QUALITY.** Poor butter is expensive at any price. For a good article everybody is willing to pay a fair price. Our prices are not simply reasonable, they are extremely low. Our qualities are not merely fair, they are absolutely the **BEST.**
