**Not Impossible!**

Because the average investment pays about 6 to 8 per cent. per year, that is no criterion that from 25 to 30 per cent. cannot be earned. We can give you the histories hand-pat of dozens of companies which earn from 40 to 600 per cent. annually. This affects every investor, and is serious business and not a joke. In asking for the details you lose nothing but 10 minutes of your time. How much are YOU interested?
