PROFESSOR JONES DEAD
Halifax, Oct. 26.—A dispatch from Wolfville announces the death at that place yesterday, of Dr. R. B. Jones, a former professor of classics at Acadia university.

THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day it is warm and bright and the next wet and cold. These sudden changes bring on colds, croup and colic, and unless babies' little stomachs are kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make babies thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ROBINSON & CLEAVER'S IRISH LINEN

World Renowned for Quality & Value

ESTABLISHED in 1870 at BELFAST—the centre of the Irish Linen Industry—they have a fully equipped factory for Damask and Linen Weaving at Banbridge, Co. Down; extensive making-up factories at Belfast; and for the finest work, hand-loomed in many cottage homes. The following are examples—

INTERESTING DAY AT CONVENTION OF SCHOOL TEACHERS

Dean Howe, of Alberta University, Speaks on Position of Agriculture in Alberta's Public School; the Independent Life

STATE INSURANCE

Question of Insurance and Pensions for the School Teachers Thoroughly Discussed; Witty Address by Dr. W. A. McIntyre

The second day's session of the Calgary and High River teachers' convention in the Central Collegiate Institute opened yesterday morning with a full attendance of the delegates.

Dean Howe of the University of Alberta, gave an address on the position of agriculture in the Alberta educational program. He pointed to the importance of retaining farm boys on the farm by making life on the farm attractive and laid stress on the value of teaching agriculture in the public schools. He expressed satisfaction at the Alberta method of agricultural instruction in the Alberta schools.

He pointed out that the independence that went hand in hand with the life of a successful farmer, and said that many men who had followed professional life would have been more successful on the farm.

He said there was lots of room for city boys to become successful farmers by hard work, and paid a tribute to the teachers of Alberta for the interest they had taken in the agricultural college, and hoped it would be continued in the future.

Dr. McIntyre's Address
"Leaves From a Teacher's Notebook," was the subject of the address of Dr. W. A. McIntyre, D.A., LL.B. His message to the convention was that the secret of success in all public schools was a sweet loving disposition on the part of the teacher, and that the school took its atmosphere from the teacher. Affection is a sure key to the hearts of most children, and love endures all things.

The aim of teachers, said he, should be more to train boys to become successful men than to pass examinations. J. S. Cameron, B.A., of the Central high school, reported for the committee of insurance and annuity, saying that the committee had interviewed the Hon. J. R. Boylston, M.P., on the subject of insurance, who had shown much interest and had asked for more details.

For the benefit of those teachers who were not present at the last annual meeting, Mr. Cameron said that in Ontario if a teacher is actively engaged in school work for 30 years, the allowance is \$120 to \$400, and for 40 years' service from \$150 to \$1,000 is the allowance.

In the Alberta plan, said Mr. Cameron, there is both insurance and annuity, and in the case of death the full amount of the policy goes to the teacher's heirs.

Every man and woman in the country, said the speaker, should carry some kind of life insurance, a policy would cost in the neighborhood of \$50 per year.

State Insurance
Mr. Cameron declared for the insuring of the wage earner by the state, and expressed the belief that after the war social insurance would become universal, and said the teachers should meet the situation without any further delay. He was not a party to the idea of asking the government to insure teachers against poverty and old age by giving an endowment of \$50,000 a year.

That all teachers should be insured before any conclusion was reached was the opinion of G. R. Dolan. He said the plan had worked out well in Ontario, but had failed in Hamilton where a number of teachers had refused being assessed on the grounds that they were already carrying as much insurance as they could pay for. Some of the delegates inquired what provision had been made for the teachers who carried life insurance. The question was left in the committee.

MILITIA OFFICERS EQUALLY LIABLE TO CONSCRIPTION

Must Report for Duty if Called in First Draft of Men; Final Disposition to Be Decided Upon Later

Ottawa, Oct. 26.—Officers of Canadian militia regiments must report for duty under the military service act, just in the same way that civilians are required to do. It is in the power of the state to say in what capacity they will be required to serve. This was the opinion expressed by a high official of the militia department today when asked whether a Canadian militia officer could be compelled to serve in the ranks under the military service act.

This official stated that though he was not aware as to whether this question from a legal point of view has ever been decided, it was found necessary to draft militia officers into the ranks, an order-in-council could be passed authorizing such action. Unqualified officers were, of course, in the same position as civilians. He expressed the opinion that the number of qualified officers in the Canadian militia, who came under class one of the military service act, is comparatively few.

T. A. P. FROST TO ADDRESS FORUM TOMORROW

Quartermaster Tappy Frost will address the Forum on Sunday afternoon. He takes as the subject of his discourse, "Why not win the war?" Thus he assumes the defensive attitude. Mr. Frost is well and widely known in Calgary, having made things lively in the city council for a term or two. He has an interesting style that entices the attention. His good comradeship, his sense of humor and originality of expression make him a popular speaker. Where Mr. Frost is there diffidence cannot dwell.

Tells How to Stop a Bad Cough

Servicing results from this home-made syrup. Easily prepared and costs little.

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness, or difficulty breathing, or if your child wakes up during the night with cough and you want quick help, just try this pleasant tasting home-made cough remedy. Any druggist can supply you with 25 ounces of Pinex (50 cents worth). Pour this into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup. Thus prepared, you have 16 ounces of really remarkable cough remedy—one that can be depended upon to give quick and lasting relief at all times.

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract and is noted for its speed in overcoming severe coughs, throat and chest colds. Its millions of enthusiastic users have made it famous the world over.

There are many worthless imitations of this noted mixture. To avoid disappointment, ask for "25 ounces of Pinex" with full directions and don't accept anything else. It is guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

BAKERS COLLECT EVIDENCE IN CASE AGAINST THE CITY

Solicitor for Bakers Serves City Solicitor With Five More Affidavits of Evidence to Be Used at Monday's Hearing

J. E. Varley, solicitor for the Calgary bakers, yesterday afternoon served City Solicitor Ford with five more affidavits of evidence which he intends to bring in when the petition to dissolve the injunction, obtained by the bakers is argued on Monday.

The most interesting of these affidavits affirms that Alderman Adeshed and Alderman McTaggart stated at a recent council meeting that they intended to be bound in the future by a resolution which was being passed, which said that the council had not threatened the bakers that they would sell bread at the market in competition with them, and did not intend to do so.

Alderman McTaggart, on being told of the affidavit, said that it was absolutely wrong, for he did not say that he would be bound by the resolution. What he did say was to the effect that while they had not made the threat attributed to them, and at present had no intention of selling bread in competition with the bakers, he was not willing to go so far as to say that circumstances might not arise in the future under which it would be wise for the city to sell bread.

Alderman Adeshed could not be located last night, but Alderman McTaggart was of the opinion that what Alderman Adeshed said was practically the same as his own statement.

Another argument to be advanced is that bread cannot be baked to a uniform weight of 24 ounces, therefore it is better to stamp the weight upon it. The case will come up for hearing in the supreme court on Monday.

PETITION FOR PENSIONS
Winnipeg, Oct. 26.—At a meeting today of teachers of three Manitoba insuperior schools a motion was passed to petition the provincial legislature to create pensions for teachers who had completed thirty years' service. The convention lasted two days. Principal of each school, was elected president of the association.

I Have Driven the Terror of Pain From Dentistry

FOR EIGHTEEN YEARS, ever since I started the practice of dentistry, I have waged bitter and unceasing warfare against pain in dental operations.

PAIN is the greatest drawback to dentistry. When a patient is writhing in agony, good, efficient dental work is next to impossible. And the fear of pain has kept untold thousands away from the dentist and the benefits of efficient dentistry.

HERE IS MY MESSAGE: Lay all your fears aside. Come to me without trembling or misgiving.

"I Will Not Hurt You"

THIS IS NO IDLE STATEMENT. Constant practical experience always with the one object of painlessness in view, enables me to make it with sincerity and assurance.

Dentistry, as I practice it, is a gentle art, humane and beneficial.

CALGARY EXHIBITION COMPANY IN GOOD FINANCIAL SHAPE

At Directors' Meeting Held Yesterday a Report Was Made Showing \$7,739.53 Surplus in the Treasury

At a meeting of the directors of the Calgary Industrial Exhibition, held yesterday afternoon, the following directors were present: E. J. Dewey, president; C. E. Brown, Fred Johnston, Thos. Laycock, E. D. Adams, A. McKillop, F. McBeth, Jas. W. David-

son, W. R. Reader, J. H. Mercer, I. G. Ruttle, Alex. Ross, M.P.P.; D. J. Young, and the manager.

The manager presented the financial statement for the year, showing that the receipts were \$91,682.29, and the expenditure \$83,942.86, leaving a balance of \$7,739.53, which was considered a most satisfactory year, and which places the Exhibition Company in a position to withstand a bad year as it is only three years since the directors had to personally sign notes to carry the exhibition over.

Mr. Thos. Laycock was appointed the official representative to the Western Canada Livestock union meeting to be held at Regina, on November 14 and 15.

It was decided that the annual general meeting would be held on November 20.

TASTES LIKE PORK
New York, Oct. 26.—Flaked whale steak was served in one of the leading hotels of this city today. It was said to resemble young pig in texture and taste, and many of the hotel guests who ate it said it was palatable.

Will Class One Provide The One Hundred Thousand Men?

It will be greatly to the advantage of Canada if the entire quota of 100,000 men to be raised under the Military Service Act can be secured from the first class; that is, from the men between the ages of 20 and 34 who were unmarried or widowers without children on July 6th, 1917.

This is almost self-evident for the following reasons:

It is admitted that, between the ages of 20 and 34, the average man is at the height of his physical strength and is most adaptable to the change of conditions from civilian life; the military Service of unmarried men and widowers without children would occasion less distress than that of most others, since they are largely without dependents. Also, it would entail less financial burden for Canada, through separation allowances, etc.

Authorities estimate that, after all proper examinations have been allowed, Canada should be able to produce from the first class 100,000 men fit for service, so the drain upon the man power of the country will not be severe.

Members of Class One will be well advised to present themselves for examination immediately to the Medical Board in their district. Upon examination as to their physical fitness, they will be placed in one of the following categories:

Category A—fit for service in overseas fighting units.
Category B—fit for service overseas in Army Medical Corps, Forestry Battalion, etc.
Category C—fit for service in Canada only.
Category E—fit for military service of any nature.

If not placed in category A, the applicant will know that he is not liable for immediate service, but will go to the Post Office and send in a claim for exemption with his Medical Certificate attached, when he will receive in due course a certificate of exemption until those in his medical category are summoned for service.

Where a man, who is placed in category A, feels that exemption should be allowed, an application form can be secured from the postmaster. This form, when filled in, will be forwarded by the postmaster to the registrar of the district, and the applicant will be informed by mail as to the time and place for the consideration of his application by the Exemption Board.

Issued By
The Military Service Council.
