The following table shows at a glance in circulation regarding his ill health and impoverished condition. The greater the period already indicated:

These figures do not include such dependencies as Cyprus, Egypt and the Soudan, although these are governed from London. If their area be added the Mr. Cowan and Mr. Wood wanted total reaches 13,266,402 square miles. which is one-third greater than the

The chief increase perhaps, needless to add, has been in Africa, and how great the expansion the next table shows: 1884 213,000 square miles The added territory consisted chiefly

growing, although at a slower pace. Swayne's Ointment stops the itching Upper Burmah, North Borneo, Brunei, Sarawak, and a few small states on the northwestern frontier having been added. In 1884 our Indian possessions Swayne & Son, Philadelphia. Lyman amounted to 1,574,450 square miles. In 1896 this figure had been raised to 1,-

920,620. It should, however, be remembered that out of the 1,800,000 square miles in India proper, 734,000 are held by native princes, who pay tribute to the are therefore feudatory rather than our absolute possessions.
Australasia has made but one im-

tables are: 18843,084,568 square miles

A still more trifling increase has occurred in America, where we have gained a mere 14.224 square miles. On turning to the people, who are, of course, to be the dominant factor of this extensive empire, we find that for the last twenty years in England the population has increased at the rate of 1½ per cent per annum, despite wide spread pauperism, denoting high mortality, and continuous emigration. At this rate the population of the ol ountry will increase tenfold in about 54 years Putting the present popula ion of England at 30,000,000, the Frank B. Clarke, agent, next Advertiser office population in 2.050 will be 300,000,000. In ther words, England alone, without the sister kingdoms and her colonies will be able to put twenty-eight persons in every square mile of her ter-

ritory, allowing that it remains sta-tionary in the meantime. By similar computation, the British Empire will be blessed with 40,000,000 Scotsmen and 45,000,000 Irishmen, so that in every square mile of territory the twenty-eight Englishmen could be supported by 31/3 Scotsmen and 33/4

ishmen. The next table gives the population of the whole of our Indian possessions, showing an increase in ten years of thirty million souls.

Population. 1884 253,891,821 1894 287,223,431 Other conditions have prevailed in Australia, and while the European emigrant has increased, the native has gradually disappeared. The figures are spite of bad trade and commercial panics.

1884 2,982,502 1896 4,621,300 In British North America, the increase has been somewhat greater. Population. 1896 6,812,080 In Africa the only increase of the

population that can be reliably con puted is in Cape Colany proper, and there the figures are startling enough In 1884 the colony had 720,984 settlers; the Egyptians and the natives of Cen maintained a straightforward and up- McAllister, Michael Stevens and Wm. day, over 4,500,000 people acknowledge the British flag in Africa. Summing up these statistics, the total population of the empire amounts to no less than 392,000,000 the increase during twelve
