NOAH'S ARK. "Noah's Ark" proved a great attrace tion this morning. It is thrilling and amusing. Wild animals from the ferocious lion to the comical chimpanzee, are exhibited in performances that must have taken wonderful nerve and patience to make possible. No visitor to the Fair should fail to see this instructive and entertaining feature of the great exhibition. The "Ark" is located south of the dairy hall, and at once arrests the attention by its assive gilded front. A distinctive feature of the attraction is its refined character. There is nothing in the perormance to offend but much to interest all. Among the animals is the largest lion in captivity, but all the animals are in strong cages like circus cages, and there is no danger even if they were not under such perfect conol of the trainers, a man and lady,
