Healthy Exercise

The most healthy exercise one can get is that of going to the bank often to deposit savings. It is helpful to the mind as well as to the body, as it makes the prospects of the future brighter.

This bank encourages deposits as small as \$1, and pays 3 per cent semi-annually. Open an account with us

In the month of October last, a commission was appointed to report upon a scheme for the management and government of the University of Toronto in the room and stead of the one under which the said university is now governed, and for other purposes. The report of the commission is expected shortly.

You will be glad to learn that the revenues of the Province are largely in excess of the estimates and more than sufficient to meet the provincial expenditure during the year.

The public accounts will be laid before you for your consideration at the earliest moment, and the estimates for the coming year will also be submitted for your approval at an early date.
