LIVE HOGS WERE FEATURE OF MARKET

Sold at From \$13 to \$13 50 Per Ton-Straw Was Easier-Other Quotations.

There was a comparatively small maret this morning, many of the farmers evidently being of the opinion that this was a holiday. As a result even the hay supply which has been a staple for the past few weeks was somewhat at a

Live hogs were the feature of the market this morning, the record price of \$9.75 being offered. Even at this price, however, the supply was not very large, and nowhere near the amount that was Hay Prices Drop.

Hay showed quite a decided tendency to drop in price, the majority selling at \$13.00 to \$13.50, the latter being the pre-railing price; \$13.75 was the highest figure

offered.
Straw, too, was somewhat easier, some first-chass quality selling as low as \$7.50. Oats remain at about the same figure, the prevailing price being \$1.30.

BISHOP ADVOCATES A "MODEL" SALOON

Ecclesiastical World Shocked by Churchman Who Is Not a Teetotaler.

London, March 28. - Like the late Bishop Potter, of New York, some Sabbath school. The Y. M. C. A. Glee years before his death, Bishop Gore of Birmingham has shocked the ecclesiastical world by advocating the introduction into England of the model saloon, instead of trying the impossible by forcing the English

people to become teetotallers. In a sermon the other day Bishop Gore spoke with admiration of the saloons as he had found them in Spain, and said that, in h's opinion, England could do nothing better than introduce the same kind in public taverns.

He said he had recently visited Barcelona, and the thing which struck him as specially delightful was the public houses.

He sat for a long time on several occasions in an immense room, in which he supposed there were about 1,200 people, drawn from all classes. A good many of them were mechanics, who very often wore their blouses. They were there with their wives and families, and were drinking all sorts of things. He asked himself every time he went to the house: Is not this sort of place of public resort and public refreshment and public

amusement entirely desirable? Dr. Gore went on to say that he had been a visitor at this public house on Sundays and on week days, and he had not seen nor heard nor looked on any thing that was not entirely desirable What was there in the nature of things why we could not have exactly this kind of place of public amusement and recreation, this kind of public house, with regard to which no one would feel the slightest desire for any legislation to restrict the liberty of women or children or anybody else to go

At present he was persuaded, he plete, but it is expected they will be said, that the proportion of people who really set themselves to obtain actual knowledge of the things which threaten the social welfare at the foundation was too few. He wanted all citizens to consider it to be their duty to give some real amount of their time to studying the great and fundamental dangers to our social life and to rem edying them.
