A BUMPER WHEAT CROP.

Thousands of Men Required—This Year's Harvest Promises To Be the Largest in the History of Canada.

According to present indications the wheat crop of 1913 will be the greatest ever harvested in Manitoba, Saskatchewan or Alberta, thus requiring the farm laborers of the east to assist in harvesting the world's greatest bread basket.

The Governments of the respective provinces state that many thousands of men will be required for this year's harvest. These will have to be principally recruited from Ontario, and the Government of Canada depends on securing labor promptly. The Canadian Pacific, on which company will fall practically the entire task of transporting the men to the West, is already making special arrangements for this year. Excursions from points in Ontario to Manitoba, Saskatchewan and Alberta will be run and special trains operated, making the trip in about thirty-six hours and avoiding any change of cars or transfers. This will be a day shorter than any other route. Dates, rates and conditions will be announced in a few days. M. G. Murphy, district passenger agent Canadian Pacific Railway.
