A Boon to Humanity

Read the Following Letter Re SANOL From Professor Auguste Dereum.

Altona, Man., July 7, 1913.

To The Sanol Manufacturing Co., Ltd., 975 Main Street, Winnipeg, Man.

Dear Sirs:—

These few lines are to add to my testimony in regard to the benefits derived from your SANOL. Although still ailing from lumbago, through the lack of proper care of myself, I find SANOL a panacea not to equal it for instant relief from excesses of urine acid in the blood. The trouble with many of our people, we do not give the treatment long enough a trial to make a cure, and sometimes people quite taking the medicine when they should continue taking it until all the symptoms of pains in the joints or rheumatic pains have left them.

I have recommended SANOL to an old friend of mine who is about 70 years old, and who was troubled with his inability to pass water without experiencing excruciating pains. After having taken two bottles of SANOL he got relief; he then ordered a half dozen bottles from your company, and I told him if he would continue he would get better altogether, which, to my delight, he does.

I have certainly no battery to make, but it is my duty to report it to the skeptic public that do not believe in a scientific, epoch-making panacea for kidney trouble, SANOL and help suffering humanity.

SANOL, positive cure for gall stones, kidney and bladder troubles, gravel, rheumatic pains and ailments of uric acid origin. Price, \$1.50.

SANOL'S ANTIDIABETES, only positive cure for Diabetes. Price, \$2.

Acid Stomachs Are Dangerous

Common Sense Advice by a Distinguished Specialist.

"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus interfering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of indigestion, trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisulphate of magnesia, a single anti-acid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause greatest distress may be eaten with impunity if the meal is followed with a little bisulphate of magnesia, which can be obtained from any druggist, and should always be kept handy.

All Sorts of Watch Prices

If a person only wants to spend a dollar, why, a watch can be bought for that amount. BUT paying what might be called a "decent price" is truer economy. When you pay up around \$12, or \$15 or \$18, you are getting for your money a lifetime of real watch service.

Have just now something extra good to show you people with watch thoughts. When shall we discuss the question with you?

AROUND THE CITY HALL

What We're Going To Have.

London is going to have a new city hall—some time. When that elusive something is a question that even Mayor C. M. R. Graham cannot answer, and therefore it must be rather indefinite. However, be that as it may, the fact remains that there will be a new city hall. Before its construction is started there will be suggestions offered by the score for special features that it is to embody. The first suggestion is one offered by the newspaper men of London and that is that the press room be provided. Under existing conditions the representatives of the press have no accommodation at the city hall. London is the only city of its size in the country where no press room is provided. For the reporters assigned to the city hall run and suggestion No. 1 is that one be incorporated in the new hall that is to be built.

Inspector Sanders to Go. In all probability Inspector Joseph Sanders, of the Associated Charities, will be the representative of the London organization at the Canadian day of the Associated Charities that will be held in Winnipeg shortly. The local society is stronger than ever, and the inspector will be sent to secure new ideas along the lines of work carried out in other cities.

Complaint Made of Vicious Dog

Park Avenue Pup Attacks Lady and May Be Discharged.

Complaint has been made to the police regarding a brindled bulldog which insists upon making his home at a Park avenue boarding-house. He has annoyed residents of the avenue for a week or more, and has on several occasions attacked children playing on the street. Sunday morning he attacked and bit a young lady living next door. The dog is living under a repressive of justice because of the action of the police, who say the animal is a valuable one, it is feared an action for damages might be brought by his owner should the latter turn up and find the dog has been disposed of. The canine closely resembles Buster Brown's old playmate, Tige, but if Buster does not come along at once Tige will have to choose between a new home and the lethal chamber.

Fire in Hat Factory Quickly Spread to House and Flats.

[Special to The Advertiser.] Toronto, Aug. 2.—Fire, which broke out shortly after 2 o'clock this afternoon, caused a loss estimated at \$150,000.

The firemen were handicapped by poor pressure and the fire spread to several flats and houses. As a result about 30 people are homeless. Over 150 are temporarily out of work. The fire burned fiercely for over three hours.
