THE TIMBER DOMAIN.

In previous issues reference was made to the greedy rapidity with which choice tracts of woodland were being ferreted out by the agents of foreign speculators and located and locked up, to the manifest injury of the whole country. It was shown that many bogus locations of timber land have been made by an evasion of the land Act, and that a system of thievery has been inaugurated here similar to that practised by a syndicate of Scotch redwood grabbers in California. In fact, nearly all the locations on the east coast of the island and northwest coast of the mainland have been illegally acquired by men of straw who, having registered the claims in their own names, turned immediately around and disposed of them for a trifle to the speculators, who then became the virtual owners of the land. This procedure is neither more nor less than a conspiracy to acquire by unfair means what could not be got by fair means. It is an evasion of the act and cannot stand in law should the government decide (as we hope they will), to void all claims that may have been acquired by a strained interpretation of the statute. The United States government is about to confiscate property so acquired and our government should follow the good example. In Ontario money and the sale of Crown timber lands and leases forms the chief source of revenue. As high as $629,000 was received by the province last year on timber account. There is a song the title of which reads—"You'll never miss the water till the well runs dry." And the people of British Columbia will never miss their timber until it has all gone without having conferred much benefit upon the province. On the occasion of the civic dinner to Mayor Beaugrand at the Driard on Monday night, Premier Smithe referred to the timber grabbers in tones which showed that he is alive to the necessity of so amending the act as to effectually prevent a continuance of the pernicious system now in force of acquiring and removing from public competition and use the best timber in the world. This declaration will be received with much satisfaction by the public who, having watched the proceedings of the timber grabbers with disapprobation, will be delighted to think that pirating is about to be rendered impossible. While Mr. Smithe is preparing his bill steps should be taken to compel the grabbers to disgorge their illgotten holdings. The fact that they acquired the property by using the names of irresponsible parties is sufficient to indicate the fraudulent character of the transaction. If all things were open and above-board why did not the speculators take up the land in their own names? If a man cannot legally gain a great advantage by himself, how can he do so by the roundabout method of employing a qualified person to do it for him without defeating the law?

Late Canadian News.

ONTARIO.

Two Brantford boys, Geo. Whitfield and J. Fletcher, have been arrested upon the charge of causing an explosion in Miss Dymond's night school room, that badly injured the leg of another lad named Joseph Clark. The explosive, as stated by Whitfield, was manufactured by himself, and was composed of powder and saltpetre wrapped about with twine, and had the appearance of an ordinary and innocent ball. Fletcher testified that he did not know the ball contained any explosive, but was playing with it the same as any other ball—pounding it on the floor. After the explosion, which nearly resulted in the loss of a limb to young Clark, the police were called in.

The following additional nominations have been made: South Oxford—Dr. Williams, conservative, local. North Oxford—Hon. Mr. Mowat for the local; James Sutherland, liberal, for the commons. East Durham—Thomas D. Craig, conservative, local. West Victoria—John Cruess, conservative, local. East York—H. P. Crosby, independent, local. H. B. Eckford, the conservative local nominee for North Wentworth has retired.

Hon. Mr. Sullivan, premier, and Donald Ferguson, provincial secretary, of Prince Edward Island, are in Ottawa to urge the government to carry out the terms of confederation with reference to keeping up communication in winter with the mainland.

A case of smallpox has occurred in Renfrew, and the neighboring municipalities are much excited. There is a vaccination boom all about here.

NOVA SCOTIA.

A prominent Halifax city doctor, suffering from delirium tremens, patrolled the streets of that city during the first snowstorm of the season, carrying a loaded revolver in his hand. He was finally induced to allow his friends to look at it. A friend quietly extracted the bullets and then returned the weapon. Shortly afterwards the doctor placed the muzzle to his forehead and pulled the trigger. The action of his friend in extracting the bullets prevented his blowing his brains out.

Reports from Cape Sable and other points eastward show that the catches of cod, herring and mackerel lately have been something extraordinary, and fishermen are unable to recall a time when these branches of fishing have been prosecuted successfully so late in the season. One day many boats were loaded twice with codfish taken close to the shore, and the next they were doing still better. Many fishermen, when their boats were full, strung the codfish on lines, and towed them ashore.

QUEBEC.

Howard T. Blackstone, of Portland, has arrived at Montreal in splendid condition. He brought with him part of $25,000 stolen from the Canal National Bank.

Out of 60 seats in the Quebec provincial legislature which were filled at the recent election, 38 seats are to be contested.

NEW BRUNSWICK.

Hon. David McLellad, provincial secretary of New Brunswick, does not want annexation to the United States, but if not granted reciprocity, will leave confederation.

NORTHWEST TERRITORIES.

Mr. Baillie, editor of the Calgary Tribune, is being tried on a charge of criminal libel, preferred by Mr. Cayley, proprietor of the Herald. Both are old Torontonians. Mr. Cayley was charged with addressing the North-West Council while under the influence of liquor, a charge which he indignantly repudiated.

A CLUB'S DEBTS.

How It Was Found That the Servants Were Dishonest.

NEW YORK, Dec. 9.—The Union Club, in June, found itself $146,000 in debt, a large increase over last year. The club appeared prosperous, the membership was full, and the bar and restaurant better patronized than ever. Consequently the increase in the debt seemed to the members to indicate that something was wrong but after investigating the steward's accounts without finding anything out of the way, the house committee dropped the matter.

A fortnight ago a mineral water company, angry because the custom of the club was taken away from it, complained that this was done because it refused to pay large bonuses and submit to extortions by the club's servants. The house committee soon found sufficient evidence to warrant the summary dismissal of several servants, including the chief engineer and the head barkeeper. It was found that some of the most trusted servants had united to systematically rob the club by exacting bonuses from the tradesmen, who recouped themselves by excessive charges to the club. In one case a servant charged the club $200 for an article for which he had paid but $50. It is estimated that the club has lost $100,000 in this way.

T. THOMPSON, practical gun maker, has removed to 37 Johnson street. Guns, pistols, sporting material, etc. All kinds of repairing done and warranted. 1m
