ST. YVES BREAKS ALL RE- CORDS IN SEATTLE MARATHON

John P. Sweeney, Victoria Runner, Writing
for Post, Declares Fitzgerald, of Calgary,
Was Juggled Out of Third Place—John
D. Marsh—Finishes Second, Hayes Third—
Greatest Race in History.

BY JOHN P. SWEENEY
SEATTLE, Oct. 18.—Henri St. Yves, the tiny runner from far-away France, ran and won one of the greatest foot races that has ever been pulled off when he broke the tape first in the Guggenheim marathon at Dugdale's Park, in this city, yesterday afternoon, defeating the classic field of long-distance runners that money could bring together. Not only did the French water win the race, but he smashed the present world's record by fully eight minutes, and hung up a new record to the tune of 2 hours 32 minutes and 39 seconds.

THE WINNERS.
Henri St. Yves, France, 2 hr. 32 min., 39 1/2 sec.
Johnny Marsh, England, 2 hr. 35 min., 4 1/2 sec.
Johnny Hayes, America, 2 hr. 44 min., 1 1/2 sec.

Special to The Evening Post.
SEATTLE, Wash., Oct. 18.—Breaking every Marathon record that has ever been made, the tiny Henri St. Yves, of France, world's champion Marathon runner, before a cheering multitude at Dugdale's baseball park, yesterday smashed his own record decisively by over eight minutes, finishing the last lap in whirlwind fashion and setting the new mark at 2 hours 32 minutes and 39 1/2 seconds. The sudden burst of speed shown by the little Frenchman when Mayor Miller fired the two shot signalling that he was entering the last lap of the long race came as a surprise to the big crowd that cheered enthusiastically to the echo, and the enthusiasm knew no bounds when the announcement was made that the world's record had been established. Johnny Marsh, English runner, in the time of 2 hours 35 minutes and 4 1/2 seconds, came in third in 2 hours 44 minutes and 1 1/2 seconds. Fitzgerald, the Canadian runner, made a plucky race, and he collapsed upon crossing the finish line. He recovered in a few minutes, and is now all right.

The race was easily the best ever run on the coast, and the time shown was the fastest ever run in the world. When it is considered that the new record was made on a track laid out on a hill field without any preparations, coupled with the fact that one whole turn of the track was a slight grade, not noticeable probably except to the runners, the performance of St. Yves is all the more remarkable.

The Start
A little before 2 o'clock preparations for the start were completed, and the men went to the mark in two divisions in the order indicated:—
Johnny Hayes, United States; Henri St. Yves, France; Johnny Marsh, England; Harry Melun, Indiana; William Stanley, Denmark; Oscar Clow, Norway; Peter Terway, Holland; J. Lexus, Seattle, Greece; Alex. Rowan, Scotland; Bill Bennett, San Francisco; Reinder Bill, Alaska; Art Burn, of Calgary, and Wada, the Japanese runner, failed to show up for the race, forfeiting their appearance money. A few minutes before 3 o'clock the field of runners gathered for a photographer, took the word and, upon the gun being fired by Mayor Miller, the cheers of the crowd amid the cheers of the crowd.

"They're Off"
Hayes and St. Yves, who had pole and second position respectively, jumped the gun pretty, but in the first five hundred yards Marsh took the lead, and passed Hayes and St. Yves for the first time, the first bunch of runners lined up in this order:—
Marsh, St. Yves, Terway, Clow, and Hayes. For the first five miles the first bunch, which comprised Marsh, St. Yves, Stanley and Fitzgerald, kept constantly shifting places.

In the fourth mile Carl Birch, the runner representing Norway, dropped out. He could not stand the terrific pace. Oscar Clow, the Tacoma entry, quit in the third mile. Loda, the Seattle entry, quit in the fourth. During the first fifteen miles of the race Alex. Rowan, the Nanaimo entry, was repeatedly warned that he was coming close to the danger line in fouling Hayes, and that if he was not careful he would be disqualified.

The tactics employed by Rowan were to spur by the little New York runner and then slow up, forcing Hayes to swing around and pass him every lap. He would do this several times in running a lap. Hayes and Melun, the Indian, stuck close together during the early stages of the race. Marsh and St. Yves had lapped them three times up to the sixth mile. By the tenth mile they had lapped them four times and were still maintaining a fast pace. At the finish of the tenth Marsh was running about a yard ahead of St. Yves and a tremendous cheer went up from the crowd when it was announced that the world's record for 10 miles of the Marathon race had been shattered by Marsh, the record, up to yesterday, was 51 minutes, 18 1/2 seconds, made by St. Yves last April. Marsh's time yesterday was 54 minutes 50 seconds.

Leading Marsh by half a lap, which he gained gradually after passing him in the thirteenth mile, St. Yves smashed the fifteen-mile Marathon record from 1 hour, 28 minutes, 23 seconds to 1 hour, 22 minutes, 41 seconds.

St. Yves Plays With Marsh.
In the seventeenth mile St. Yves lapped the field. He and Marsh had lapped every other entrant, but in the

Nevertheless it was one of the greatest races that has ever been seen in the world, and it will be long time before such a race will be witnessed by followers of the game. The cause of death is not known, but it is supposed that it resulted from heart disease or apoplexy.

Mr. Buchanan has been here for several weeks. He took up quarters at Fitzgerald's hotel, and he left the hotel on Saturday night for dinner, and it is supposed he was walking home when he was struck. An inquest will be held on Wednesday.

The official papers and property found in the rooms occupied by Mr. Buchanan were turned over to the United States embassy. Investigation thus far has failed to throw any light on the movements of the diplomat during the few hours preceding his death. Friends who had seen him during the day say that he appeared to be in the best of health and spirits. He left his hotel just before the dinner hour on Saturday, but where or with whom he dined, or how he spent the evening had not been learned today. There are no evidences upon the body of assault or robbery and it was supposed that death was due to heart trouble, or an apoplectic stroke.

Mr. Buchanan was formerly United States Minister to Panama, and later special commissioner for the United States to Venezuela. At the time of his death he was on his way to his post as agent for further arbitration at the Hague, of a matter still pending with Venezuela.

It is expected that a big investigation will follow the race, as both Rowan, Fitzgerald and Terway are up in arms at the way they were treated. Each one of them claims to have beaten the speedy American. "Whether they all beat him cannot be said for certain, but the writer is in a position to know that Hayes was not by any means the conqueror of Jimmie Fitzgerald, of Calgary, in the big race here. Outside of the mix up at the concluding stages of the race the affair was a great success, and the race put up by Johnny Marsh against a runner of the type of St. Yves, in which they both broke the world's record, is something to be highly commended. It was an ideal day for a Marathon, and the band in attendance held things along in such a manner that there was no drag to the sounding of the gun for the final lap.

Believe Cook Found Pole
Eskimos Who Talked With Explorers
Natives Are Fear Peary.

NEW YORK, Oct. 18.—A special cable to The Sun this morning says that the Greenland administration's steamer Godthaab, on which Dr. Cook travelled from Upernivik to Egeasside, where he boarded the steamer Hans Egde, had returned to Copenhagen. Her master, Capt. Schoubye, says that Knud Rasmussen went to interview the two Eskimos Dr. Cook says accompanied him to the Pole. Rasmussen did not see them. He did not succeed in reaching Anaktuok. However, he met at North Star Bay, north of Cape York, some Eskimos who had conversed with Dr. Cook's. They believed that Cook and his Eskimos reached the Pole. Capt. Schoubye adds that when the Eskimos returned to Copenhagen, they were terrified, believing that Peary was on board. They hurriedly hid their provisions and other property. They fear return soon on board the Hans Egde but it is improbable that he has further information.

BRINGS REMAINS TO VICTORIA

Body of C. C. Johnston, Killed in the
Yukon By Sliding Gravel Dump, to
Be Buried Here.

The body of Christopher Charles Johnston, a native of Tyrone Island, Ireland, and third son of Mr. and Mrs. Johnston, late of the George road, who was killed at his mining claim on Cluffy Pulp Quartz creek Y.T., on September 18, by a dump of gravel sliding over him, arrived in Victoria yesterday. This is the first accident of this kind that has happened in the Klondyke since the rush of 1898. Deceased and Louis Madigan joined together in the rush, with dogs and oxen, and sledged their provisions over the White Pass to Bennett, where they built their boats and were heading for the McQuesten river, but decided to go first to Dawson and learn the latest methods of mining. Since good large private operators in the past, an active prospector, and was one of the largest private operators in the past. His brother, John D. Johnston, was in Port Washington at the time of the accident, and after some difficulty was located by wire. After learning of the accident he immediately left for Dawson and within weeks was on the ground where the accident happened. He had the remains embalmed and accompanied them to Victoria, where they arrived yesterday.

The body was removed from the boat to the Victoria Undertaking parlors, and the funeral will take place tomorrow at one o'clock, and proceed to the Colwood cemetery, The Rev. W. I. Clay will officiate.

DR. JAMES SAMSON
Of Windsor, Ontario

In practically all the cities of importance in the East and in Ontario, and in Massey hall, Toronto, he was listened to by an audience of 3000 people. If his meeting tonight is a success he will return here in a couple of days and deliver a second lecture, on that occasion by an audience of the local Y. M. C. A.

The Annuities Act was a Government measure, but in the arrangement of its details the co-operation of senators from both parties was invited and the system as it stands is the result of a careful, non-partisan examination and revision of the original scheme.

PARIS, Oct. 18.—Count De Lambert, the French aviator, made a remarkable and sensational flight in a Wright bi-plane this afternoon. Leaving the Juvissy Aviation Field, he flew to Paris, circled above the Eiffel Tower, at times reaching a height of about one thousand feet above the city, and then returned to Juvissy.

A few minutes before Count De Lambert returned to the aviation field at Juvissy from his flight to Paris, M. Blanc, the French aviator, attempted to land in a Biplane at Juvissy. Shortly after ascending, the monoplane, as the result of a false shift of the rudder, turned into the air and fell, mortally wounding a woman and injuring a dozen other persons.

Count De Lambert left the aerodrome at Juvissy at 25 minutes past four, traveling at a height of about 250 feet, and headed northward. Half an hour later his population of Paris, approaching the city, high in the air, from the southward. As the machine neared the Eiffel Tower, the crowd of 200 feet above the Eiffel tower, or at an estimated distance of 1,500 feet from the ground, the machine then described a wide course and headed southward.

Count De Lambert received a great ovation on returning to the aviation field at Juvissy after his flight around the Eiffel tower. After the machine disappeared from sight over the hills in the direction of Paris the spectators became greatly interested and when it was announced that the aviator had returned, the excitement became intense. Darkness was already falling as the crowd awaited breathlessly for the machine to return and when finally she came, a great cheer on the horizon in the gathering gloom, a scene of indescribable enthusiasm occurred.

Amid frantic cheers the machine came closer and closer and, on finally reaching the enclosure, circled the course and alighted gently before the eyes of the aviator. The machine was in Paris in an air line is thirteen miles.
