TUXIS BOYS MET AT NEWCASTLE

Interesting Program Carried Out Last Friday, Saturday and Sunday.

(Crowded out last week.)

The Tuxis Boys' Conference for the northern part of New Brunswick was held at Newcastle Friday, Saturday and Sunday.

At the opening banquet to the leaders and friends, Friday evening, at 6 o'clock, Rev. F. T. Bertram presided. The first speaker was Rev. Dr. King of Mount Allison, who spoke on "Aims and Organization." He explained that the boys' movement was thoroughly co-operative among all Protestant denominations, and was under the immediate superintendence of the Y. M. C. A. The Tuxis work is a programme not an organization, therefore does not impose any new organization upon any church. The aim of these conferences is: (1) Religious education for our boys; (2) training in Christian citizenship. The programme is based on the character and personality of Jesus. The teen age boy is a hero worshipper and the greatest of heroes is Jesus Christ. A boy should not be intellectually, physically, morally or socially lopsided. All sides of his nature should be trained equally well. Why do boys and girls leave school just before entering high school? It is because the high school does not offer a progressive programme. The trouble with too many of the colleges today is that the curriculum is too cramped. Too often the boy learns nothing but what is on the curriculum and comes out without an adequate view of life. The "group" and "team" instinct is stronger than the "gang" instinct, if worked properly. Boys properly handled will help the forward and all other movements. The boy naturally wants to get out around in his teens, and he should be guided at that age. The Tuxis movement may properly be called school extension.

A. M. Gregg, assistant secretary of the Maritime Y. M. C. A., spoke on "The Personal Interview," and explained the process of charting the boy.

After a vigorous address by the chairman the boys' conference, proper, opened at 8 o'clock, Rev. E. A. McKinley presided, conducted devotional exercises and gave an address on "The Earnest-Minded Boy." Rev. L. H. MacLean gave an address of welcome and Mr. Gregg spoke on "The Tuxis Boys in the New Era."

The following officers were elected: Grand praetor, Edwin A. Stuart, Newcastle; grand scriptor, Alvin R. Metzler, Campbellton; grand deputy praetor, Eldred Mowat, Campbellton.

NO IMPORTATION OF LIQUOR ALLOWED YET

An Ottawa despatch, says that: People who are shipping liquor from Quebec into New Brunswick and Ontario, and the number of seizures indicate that they are many, are wholly astray in their conclusions that the war measure restrictions let up with the anniversary of the armistice. The lid is on as tightly now as ever. As frequently explained it will be lifted only when peace is officially promulgated by the King. Even that proclamation in itself, will not affect the order, but it will be the signal for the Governor General to issue a proclamation suspending the war measures act. It is expected before Christmas. It would appear from all reports that tons of liquor await the advent of the wet season before being shipped to arid areas. Some of the more venturesome have taken a chance and shipped or imported since Armistice Day. The result has been a material increase in the stock of confiscated liquors in the hands of the Ontario authorities and a corresponding enrichment of the treasury by heavy fines.

NEW SCHOONER IN TROUBLE.

The four-masted schooner Holmes A. Frank, launched recently at Nordin, and bound from Gaspe to New York, with a cargo of laths and lumber, had to put into the port of Liverpool, N. S., last week owing to damages received to her rudder. A new one will be put on this vessel by the Nova Scotia Shipbuilding and Transportation Co., Limited, who are the owners. After unloading at New York, the schooner will take in coal for Genoa, Italy. Captain Frederick Inness displayed remarkable seamanship in bringing this ship through the storm without further damage.

WHY RURAL PRESS IS A POWER

The average man can live in a big city all his life and never see his name in the paper, but the farmer and the average man and woman in any small town will see their names in their local county newspaper at least ten times a year, and always connected with some worthy cause, some faithful service, something that brings joy all through life. The country newspaper is the paper that spreads happiness and content.

If you witness a fire you read the details of that fire with double interest. If you hadn't seen the blaze perhaps you would not read the story at all. Why is this asks an exchange It is because the things you know about are the thigs you like to read about. That is why country newspapers have such a tremendous hold on their readers. They tell them about the comings and goings of their friends and neighbors the people they know. Nothing on earth is as interesting to the farmers and people living in the town as the news of their babies, the marriage of their boys and girls, their social and church events, the illness and deaths among their friends. Year after year the country newspaper records the history of its community.

Is it any wonder the country newspapers is the most powerful advertising medium on earth. Just as its power is great in holding its readers' interest, so it is helpful in shaping thought and powerful as an advertising medium. It turns the printed word almost into the spoken word.

No metropolitan daily, no magazine, no billboard, no farm journal—good as they all are—rings the bell with farmers and small town people as does their home newspaper. It is an integral part of the community that cannot be filled by any other medium.

The Tale of Perfect Time in a Watch.
From Mainspring to Hairspring, between them lies the secret.

The Mainspring is the power which it transmits to the active parts of the watch. The Hairspring has the control and regulates the motion. The fitting is most delicate; imagine a 100th part of a hair, (Impossible isn't it?) Yet it is enough to interfere in its performance, so wonderful is the adjustment. The friction from accumulating dirt; lack of oil, etc., destroy these perfect fittings. Do not let your watch run to ruin from neglect. Remember my business is the care of watches, and my opinion costs nothing.

PROBATE COURT.

COUNTY OF RESTIGOUCHE

To the devisees, legatees and creditors of Aurele LaCasse, late of the Town of Campbellton, in the County of Restigouche, Barber, deceased, and to all others whom it may concern.

The executor of the last will and testament of the above named deceased having filed his accounts in this Court, and asked to have the same passed and allowed and order for distribution made. You are hereby cited to attend, if you so desire, at the passing of same, at a Court of Probate to be held in and for the County of Restigouche, at the Council Room Chambers, in the Murray Building so called, on Water Street, in the Town of Campbellton, in the County of Restigouche and Province of New Brunswick, on Monday the First day of December, A. D. 1919 at the hour of two o'clock in the afternoon, when said accounts will be passed and order for distribution made.

Given under my hand this sixth day of November, A. D., 1919.

FRANCIS F. MATHESON
Judge of Probate.
(Cond.) Harriet F. Mott.
Registrar of Probate.

HIGH PRICES PAID FOR N. B. APPLES

Our Apples Lead When Compared With Others and Bring Big Prices.

(Crowded out last week.)

McIntosh apples grown on the farm of G. G. Dunphy at Devon sold at a record price of $12 a barrel to a dealer in Montreal last week.

These apples were part of of a carload shipped by the New Brunswick Fruit Growers' Association, and the price is said by officials of the Department of Agriculture to be the highest price ever received for this variety of apples. There were five barrels of McIntosh apples in the shipment which sold at this price, but there were also ten barrels of No. 1 Fameuse which sold at $10 a barrel to the same dealer. The rest of the shipment was made up of a low grade apples, the average price of which was over $5 a barrel.

This is the third season that the New Brunswick Fruit Growers' Association has shipped apples to Montreal, and the prices which are being received for New Brunswick's apples there this fall will encourage other growers to ship their fruit in to the Montreal market when there is such a heavy crop of apples in this province.

TREAT YOUR HORSE

as well as you treat yourself during the cold winter months. Provide him with a piece farm horse blanket with fasteners, to keep out the drafts and chill winds in the stable and out in the open. Particularly after a hard drive, when your horse is sweating profusely, you will need a good blanket to protect him. Get one of ours and your horse will be safe.
