Grain and Produce.
Flour—Trade is quiet and prices are steady.
The apprehension that if wheat goes up at all here, when the demand for flour comes, American flour of low grades will pour into Canada is not, millers say, well founded. The mills here is not, millers say, well founded. The mills here are as good as those across the lines, they can make as low grades and above all there must be a difference of 11 cents in the price of wheat before the United States millers will be on a basis with the Canadian duty protected mills. Wheat—Trading is quiet; few transactions are being made. Manitoba is strong but there is little changing hands; farmers deliveries are almost nil. Locally the feeling with wheat is strong, notwithstanding the weakening in the west. Holders offer moderately, satisfied that they will be able to get rid of their dear wheat, so they are, waiting. Five cars sold yesterday for \$1.03 outside and 3 cars of Manitoba at \$1.25. On change to-day \$1.05 was bid for No. 2 fail. \$1.07 for No. 2 spring, \$1.07 for No. 2 red and 95c. for No. 1 frosted, with sellers for the latter at \$1 to arrive.

Soc. for No. I frosted, with soliers for the latter at \$1 to arrivo.

Barley—There is very little stir in the market. The higher grades are wanted but none are offering. The lower grades are not wanted although there is plenty offering. No. I could sell at 68c or better if there were any sellers.

Oats are changing hands at 35½ con the track but not to any considerable extent; Manitoba are held at 41c, with 3½ to 400 bid, and white are held at 37 chere.

Hogs—Cars are offering at \$6.52 at Chatham, but the market is sick and the packers feeling that they have been buying too cheap hold off. Montreal reports purchases of 2 cars at \$6.80 at that point. that point.
Butter—Good could sell at 20c, and 21c but it is not coming in. It is wanted but nothing is offering but medium.

organization.

Mr. Wilson briefly introduced his subject.

He spoke of the many places where temperance had been discussed, including our halls of Parliament "and to a certain extent legislated upon." He graw quite eloquent when speaking of the evils, which are legion, the outcome of the liquor traffic, and was applauded leartily.

Continuing and speaking of the blessings of this century he said: "I am proud of Canada. [Applause.] I am glad I am a young Canadian. In this land of the Maple Leaf I had my birth. In this great country of ours we have pure homes, we have well organized schools. We have childhood well looked after and protected; we have a Sabbath second to none in the wide world." [Applause.]

He divided the secral world into three classes: "There are those who take too much liquor; we call them drunkards. There is a large class we call moderate drunkers. Now I would say to such, 'quit.' Then we have those we call abstauers. There is nothing in the Bible that condemns a man because he abstains. I would abstau—it is a law reason—because there is money in it. We can do better than give it to those men who wear better clothes than we do and don't work so hard for them.

I may say in nearly all its branches, and it has now grown to be a large sized tree, and I would now like to add another nail to the coffin which you are preparing for the Yankee element in this city and province.

We have what is known to Canadians as the Dominion Express Company of Canada, supposed to be run by Canadians from a Canadian stand-point, but in reality is the home and feeder of the Yankee element. The leading positions are occupied by Americasis in preference to Canadians, and when a vacancy occurs it is generally filled by a Yankee mportation, especially if it is what is known as a fat one, when Canadians who have served the company from its infancy are obliged to sit still and see the foreigners take-the bread from their families' mouths. An explanation has been repeatedly asked from one of the principuls, who has always given the answer that Canadians are not capable of filling such vacancies as occur. Now, Mr. Editor, has it not been proven without a doubt that we Canacks are far ahead of our Yankee cousins in overy and any branch of trade ever known to the public at large?

The president of the company, the Hon. Geo. Kirkpatrick, surely cannot be cognizant of the present evil or he would practice what he preaches and give Canadians the preference, so that they could rise to the top of the ladder instead of having to always remain at the foot.
