THE TORTURES OF RHEUMATISM

Happily Stopped When He Began To Take "Fruit-a-tives"

S OTTAWA ST., HULL, P. Q. "For a year, I suffered with Rheumatism, being forced to stay in bed for five months. I tried all kinds of medicine without relief and thought I would never be able to walk again. One day while lying it bed, I read about "Fruit-a-tives" the great fruit medicine; and it seemed just what I

needed, so I decided to try it. The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me.' LORENZO LEDUC.

The abolition of the office of Ontario Fuel Controller should not obscure the necessity of laying in an early supply of coal for next winter. The President of the New England Coal Dealers' Association warns consumers to buy their anthracite now, because they are threatened by a greater shortage next autumn than that of last year.

The volume of the manufacture and sale of motor vehicles is most marvellous. It is only twenty-two years since the first automobile was made and sold in the United States. Last year no less than one million eight hundred thousand motor veh icles were sold in that country. Ten years ago automobile industries were first established in Ontario and the product of passenger cars to date is some four hundred thousand.

prices being on the toboggan. They may be that-but there is little indication that the toboggan is on the slide. Cost of raw materials may in some instances show a decline, but the great factor in the production cost of all manufactured articles is labor, and labor up to the present shows no signs of willingness to accept any reduction in its price. Even in cases where unemployment is rife. there is a disposition on the part of labor to accept starvation rather than lower wages. The old saying that "half a loaf is better than no

Citizens who have rifles and revolvers in their homes, whether they be of the ancient flintlock muzzle loader type kept as curios, of up-todate hunting weapons or revolvers for protection against burglars, must have a permit from the police to keep such firearms in their homes. Brandon Sun .- In the Dominion of Canada there are all sorts of very patriotic bodies organized to protect the interests and forward the ideals of many other countries to which the members own some affiliation. A man born in any other country than this yearns to show the world of his very justifiable pride in his parentage or the land of his birth. Thus we have separate but very worthy societies, each working to the end that they may uphold love of this or that other land, but what is the matter with Canada? We have no Canadian society no Dominion league, no society purely to promote Canadian

According to coal operators quoted in the Philadelphia Public Ledger the anthracite mines continue to produce full output. How does the New York city coal dealers' association make this statement conform with its recent announcement that prices of anthracite coal would soon have to be advanced unless consu bought more freely so that the mines could be worked to full capacity? Some time we shall know the truth of these statements and counter statements about coal. Remember the sugar profiteers? Sugar dropped when they had to unload because they could no longer get credit. Will some economic law finally operate to make the coal men disgorge?

EXTREME MISERY DAY AND NIGHT

Follows a Breakdown of the Nerv. ous System.

Misery day and night is the lot of hosts of men and women who are toattitude tell a sad tale, for nervous weakness means being tortured by morbid thoughts and unaccountable

fits of depression. These sufferers are painfully sensitive and easily agitated by some chance remark. Sleeplessness robs them of energy and strength; their eyes are sunken and and memory often fails. This nervnew blood can be had through the which have a direct action on the nervous system. That a fair use of We hear and read a great deal of this medicine will bring satisfactory results is shown by the experience of Mrs. Marsh, Bass River, N.S., who says: "Following a run down condition, I became practically a nervous wreck. The doctor who was called in said the trouble was inflammation of the nerves. It grew so bad that practically I had no control of my lower limbs, and had to go about with crutches. Quite aside from my suffering I had a small family and a baby in arms to care for and I became much discouraged, as I did not appear to be growing better. One evening my husband met an aged doctor on the street and told him of my condition. He asked my husband who was attending me, and when told said: "I don't want to interfere, but why not try Dr. Williams' Pink Pills." My husband got me a supply of these pills and after taking a few boxes I was able to go about with the use of one crutch. Continuing the use of the pills I was able to discard the other crutch as well, and was as active as ever I had been. There are many in this neighborhood who know what my condition was when I began the use of Dr. Williams' Pink Pills and who know what this medicine did for me, and I hope my experience may help some other

sufferer. Dr. Williams' Pink Pills are sold by all dealers in medicine, or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville,
