Which will be sold CHEAPER THAN EVE |ay. BEFORE. BEFORE. all and inspect.

The harvesting of buckwheat is quite inferent from that of other grains. The grain 'shells' or drops from the straw that will cut the price down to two very readily, and therefore must be shillings a bushel. I was going to let sathered with especial care. It is best the old woman get a set of false teeth to cut it with a cradle and leave it in a this fall, but the way things look now warth until the next morning, when it rather goes to show that she'll have to hould be rolled and set on end while gum along until next year .- Wall Street

t is moist with dew. After standing News. for a few days it is ready to be thresh-Awful Warning.

d. The straw has no special value as fodder, but should be used as litter At one of the Thomas concerts at

nd absorbent of liquid manure. The Chicago the other evening the electric ind absorbent of liquid manufe. The Chicago the other evening the electric grain makes an excellent food for poil ry, and when its flour is in the form of buckwheat cakes it is highly prized, especially in cold weather.—American Agriculturalist.

Indian Bay, Shelburne County, N. S. according to a plan and specification to be seen on application to R. W. Freeman, Esq. Jordan River, from whom printed forms sup-pited, the blanks properly filled in, and sign ed with their setual signatures. Each tender must be accompanied by as a corprise bank cheque, made payable to the order of the honorable the Minister of Public Works, equal to five per cent. of the amoun-of the tender, which will be iorfeited if the party decline to ontract wheir called on to do so, or if he fail to complete the work contracted for. If the tender be made for the tender be and the day between called on to do so, or if he fail to complete the work contracted for. If the tender be made for the tender between called on to do so, or if he fail to complete the work contracted for. If the tender be made for the tender be and the tender between called on to do so, or if he fail to complete the work contracted for. If the tender be made for the tender be and be the day be the tender between called on to do so, or if he fail to complete the work contracted for. If the tender be made for the tender be and below the tender be the fail to complete the bill the tender be and the tender be and the tender between the stalks are cut; experience has hown that the ripening process goes through his fingers, and the expression party decline to enter into a contract when called on to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned. The Department will not be bound to ac cept the lowest or any tender: from the root. Indeed, the grain thus treated often comes to greater perfec-tion than if the plant was left until the him quietly to the door and they passseed is fully ripe. What takes place ed out. Young ladies should not wear with these crop plants also occurs with weeds. Many weeds, if cut up while not the place for them, and a wound in A LL persons having legal demands against A the estate of Edmund F. Bent, late of Lawrencetown, deceased, are requested to render the same, duy attested, within twelve months from the date hereof; and all person-indebted to said estate are requested to make immediate payment to S. M. BENT, Administrator weeds. Many weeds, if cut up while the side of the jaw made by coming in flower, still have nutriment enough in their stems and leaves to perfect and suddenly and painfully in contact with ripen a crop of seeds. It therefore a cruel two-pointed hairpin at a mohappens that the mere cutting up of ment when his heart is set on a momany weeds, and leaving them to dry ment of ecstatic bliss might result in upon the ground, does better toward a coolness on the part of the young Salesmen Wanted. To begin work at one on
