The list of cattle, sheep, and swine for sale will be published in the third issue of each month. Members having stock for sale, in order that they may be included in the Gazette, are required to notify the undersigned by letter on or before the 9th of each month, of the number, breed, age, and sex of the animals. ANOTHER CAR FOR THE WEST.

Another load of live stock will leave for the West about the 20th. Parties wishing to send stock to Manitoba and the Northwest should correspond immediately with F. W. Hodson, Parliament Buildings, Toronto.

The grape is probably more easily grown than almost anything else in horticulture, but it requires care and

skill in the management if a return in the form of heavy fruitage is expected.

A few standard varieties of apples, well grown and prepared for market, will make a farm's reputation, while, if there be a score of kinds, there will not be enough of any one to establish a name. It is wise even for the farmers of a certain region to make a reputation for a few standard things, suited to climate and locality, and their fame will come.
