

# Standard Steel Tube Posts

*For The Up-to-date Farmer !*

The Steel Tube Post outlasts the wooden post five to one. Dampness won't rot it, insects can't weaken it, and it takes one-third the labor to erect.

Standard Posts and Standard Woven Wire Fencing make a combination that ensures the Farmer using them the best job possible in fence erection.

There's an agent in your vicinity. If you don't know him, write to us and we will send you full particulars.
