REV. ALEX. GILRAY,  
College Street Presbyterian Church, writes:  
Dear Sirs,—  
It is with much satisfaction that I learn that  
you have decided to establish a branch office  
in Toronto, believing as I do, that the more  
widely your Acetic Acid remedy is made known,  
the greater will be the gratitude accorded to  
you for the relief experienced by many sufferers  
in Canada. We have used your Acid for  
over eighteen years, and are now prepared to  
state that it is worthy of a place in every family.  
We have found it thoroughly safe and effective  
and have commended it to many,—for which we  
have been thanked. We wish you success in  
your new quarters, as we feel sure your success  
will bring relief here as it has already done to  
large numbers in the old land and other  
countries. Much will depend on the patient  
and persevering use of the Acid as set forth in  
your little book.

There is always a best way of doing  
everything, if it be to boil an egg.—*Emerson.*

Honor to those whose words or deeds  
thus help us in our daily needs.—*Longfellow.*

tailoring, originated with the present century.

white glass for houses was established in  
1330.

to work.

to apply it; not having it, to confess your  
ignorance.—*Confucius.*

The special sanitary inspector sent to  
Lisbon by the Spanish Government in order  
to inquire into the epidemic which has  
prevailed there for some time past, after a  
long investigation declares that the outbreak  
is one of true Asiatic cholera, imported to  
Lisbon from the Cape de Verde Islands.

Mr. Henry Arthur Jones, the dramatist,  
says that when he first taught himself how  
to write plays, it was his custom to witness  
the same piece six nights a week in order to  
learn the technique. He keeps a stock of  
characters, plots, scenes, incidents and  
themes, all lying ready for use, and simmering  
in a dramatic stock-pot.

MR. M. ROBERTSON (Revell & Co.'s  
Bookstore, Yonge street, Toronto,) says:—  
"My mother owes her life to the timely  
use of Acetocura."

Man, it has been well said, begins a new  
series. He stands alone, erect, godlike, not  
so much in the pyramid of life, as on its  
summit. And, as every lofty summit of  
life is overhung by shining clouds, as if the  
souls of the hills had risen high above, so,  
to the vision of reasonable faith, there is  
another series of life—the spiritual, the  
glorified, of which man is the beginning.

#### A Puny and Fretful Baby.

This is now quite unnecessary! Like many  
others, you may have your baby fat,  
laughing and happy, if you give it Scott's  
Emulsion. Babies take it like cream.

The *Vancouver News-Advertiser* says  
that Mr. Edward Holmes who recently  
tramped across this Continent along the  
C. P. R. route will start on another long walk  
for San Francisco. After this Mr. Holmes  
will most likely visit the Hawaiian Islands.  
This gentleman has earned great fame as a  
walker. In 1885 he walked across Central  
Asia and in 1889 round Japan. He has  
been passing the winter at Warnock with a  
friend and during that time has done a  
good deal of climbing among the peaks of  
the coast range.

#### THE SPRING MEDICINE.

"All run down" from the weakening  
effects of warm weather, you need a good  
tonic and blood purifier like Hood's Sarsaparilla.  
Do not put off taking it. Numerous  
little ailments, if neglected, will soon  
break up the system. Take Hood's Sarsaparilla  
now, to expel disease and give you  
strength and appetite.

Hood's Pills are the best family  
cathartic and liver medicine. Harmless,  
reliable, sure.

### "For Years,"

Says **CARRIE E. STOCKWELL**, of Chesterfield, N. H., "I was afflicted with an extremely severe pain in the lower part of the chest. The feeling was as if a ton weight was laid on a spot the size of my hand. During the attacks, the perspiration would stand in drops on my face, and it was agony for me to make sufficient effort even to whisper. They came suddenly, at any hour of the day or night, lasting from thirty minutes to half a day, leaving as suddenly; but, for several days after, I was quite prostrated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with bilious typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced. At the first of the fever, my mother gave me Ayer's Pills, my doctor recommending them as being better than anything he could prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which yielded readily to the same remedy."

A discussion in English papers has brought out the fact that explosions take place from the stoppage of the pipes by frost or sediment, never, as has been thought, by the heating of the boiler red-hot and the subsequent admission of cold water, this last, contrary to common opinion, being accompanied by a reduction instead of an increase of pressure. The remedy is the provision of a proper safety-valve for every kitchen boiler.

It has been inferred from the behavior of iron that it exists in two allotropic modifications, somewhat as carbon exists as charcoal and diamond. These forms are respectively hard and soft, and the whole phenomenon of tempering consists in the change of one into the other in varying proportions. This hypothesis now finds additional confirmation in the behavior of iron and steel when deformed by cooling, tests by extension developing abnormal peculiarities which are doubtless due to the formation of an allotropic modification.

#### MOTHERS.

"One good mother is worth a hundred schoolmasters," said George Herbert. Men are what their mothers make them. But if the mothers are peevish and irritable, through irregularities, "female weakness," and kindred ailments, they find no pleasure, no beauty in the care of their babes. All effort is torture. Let all such, who feel weighed to the earth with "weakness" peculiar to their sex, try Dr. Pierce's Favorite Prescription. They will find the little ones a delight instead of a torment.

To those about to become mothers it is a priceless boon. It lessens the pains and perils of childbirth, shortens labor and promotes the secretion of an abundance of nourishment for the child.

A writer in *Harper's Weekly* says: "Had Kossuth succeeded in making Hungary an independent nation as he conceived it, it would, in spite of the brightness, generosity and heroism of the Magyar race, have been a weak little State, torn by internal race conflicts, insignificant in the councils of nations, and constantly threatened by its neighbors. The independent Hungary he rejected is a substantially self-governing and most influential part of one of the great Powers of the world. But his stubborn consistency fitted the romance of his life."
