GAS IN DEMAND.

There were several good reasons for the There were several good reasons to the strength in stocks at to-day's board. Strong prices from abroad, great ease in money, strength of New York market and highly satisfactory crop reports all over this continent.

CANADIAN PACIFIC.

This stock could not help being strong in face of London prices. The first sale was at an advance of a cent over yesterday, but New York quotations being higher the next business was at 85\(\frac{1}{2}\), which proved top. The close was under best quotations supposedly on a slight reaction in New York market, generally. generally.

TORONTO RAILWAY.

The large earnings of this road for the past ten days were sufficient to send this stock much higher than it sold at. An in-crease of \$1903.89 even, on a civic holiday is highly satisfactory, showing that every-thing is ready at any time to accommodate all increased business presenting itself. For particulars regarding its earnings con-sult another page. The price for the stock seems now well established over

MONTREAL GAS.
