

MUTUAL LIFE ASSURANCE.

The Scottish Provident Institution.

THE business of this well-known Institution has steadily increased from year to year since its establishment in 1837, till, at the close of 1871, there had been issued no less than 22,445 Policies assuring over FIFTY-TWO MILLIONS OF DOLLARS! Its rates of premiums compare favourably with those of any other Companies, whether British or American, in some of which members may assure at rates as low, but without any prospects of additions: or, they may obtain the right to profits, but only by the payment of excessive rates. *In this Office alone are the two benefits combined.* It is also particularly worthy of notice that the surplus funds of the Institution are reserved exclusively for those who survive the period at which their death would be a loss to the common fund—a manifest advantage to good lives.

In this Institution a person aged 30 may secure £1000 at death, by a yearly payment, *during life*, of £20 15s. This Premium, if paid to any other of the Scottish Mutual Offices, would secure a Policy for £800 only, instead of £1000.

Forms of proposal, and all necessary information may be obtained on application to
