RUPTURE

✿ ✿
PATIENTS

Are among the most difficult that many physicians have to deal with. Truss making and fitting is a mechano-medical art, and when ruptured patients present themselves why not put the matter in the hands of one who makes a specialty of the subject?

A perfect holding Truss is as important to a ruptured patient as an accurately filled prescription is to others. You would not advise inferior drugs in your medicines; then why allow patients to use doubtful Trusses? We make Trusses which hold as if 'the fingers were there,'—two distinct motions, IN and UP. Pressure can be set to suit any case. Our best ones are made of German silver and will not corrode or rust. No pressure on the spine, and do not bind on the body. Try us in your next case. We will send two or more on receipt of measure and particulars of case, and the most suitable can be kept and paid for and the others returned. We also make **Poro-Plastic Jackets, Steel Instruments**, for Spinal Curvature, Bow Legs, Knock Knees, Paralysis, Club Feet, and anything and everything in the way of mechanical appliances for medical purposes. If you have any doubtful or difficult cases let us have particulars and we will make suggestions and help in every way to make satisfactory appliances.

..WE ALLOW LIBERAL DISCOUNT TO THE PROFESSION..

Guarantee First-Class Work, and use
the Best of Materials.
