THE
CANADA LANCET

A Monthly Journal of Medical and Surgical Science, Criticism and News

THE OLDEST MEDICAL JOURNAL IN THE DOMINION

Vol. XLVIII TORONTO, CANADA, SEPTEMBER, 1914 No. 1

**Duncan, Flockhart & Co's
Easton Syrup Capsules**

Ch. S.
No. 214 (one minim) equivalent to **20 minims** Easton Syrup
No. 215 (two minims) " **30 minims** "
No. 216 (three minims) " **60 minims** "

Each Capsule is standardised to contain the pharmacopœial quantities of Iron, Quinine and Strychnine, concentrated to as small a bulk as is consistent with accuracy and activity. The Salts are present in a highly soluble form, and directly the gelatine wall is ruptured, are quickly dissolved by the gastric juices. This is undoubtedly the most rational method of exhibiting this most useful and powerful remedy, since there is no chance of disturbing the patient's digestion by a strong acid, nor causing nausea by the disagreeable taste of the Quinine and acid.

Samples on request. May be ordered through all Retail Druggists.
