#### THE TRUE, WUTNESS AND CATHOLIC CHRONICLE. OCT. 17, 1877. en port i station, en gene THE UNEMPLOYED. MUTUAL FIRE INSURANCE COMPANY 1.34 OF THE CITY OF MONTREAL. This Company held its 18th annual meeting on What is to be done with the unemployed? Monday, the 8th instant. The attendance of mem-WISEACRES recommend that they be sent to culubers was larger than usual, and the meeting was composed of the most influential shareholders. vate unsettled lands. ST. PATRICK'S NATIONAL ASSOCIA The Directors' Report begins with an expression of grateful acknowledgment of the protecting care

of Providence, who has so wonderfully preserved our city from those terrible conflagrations which

have spread destruction through most of the prin-

cipal cities and towns of the Dominion of Canada.

.The number of, fires during the three years end-

The number of fires shows increasing neglect and

carelessness on the part of the people; indeed, it

would seem that the number of fires becomes

greater in proportion to the means which are found

to extinguish them; and the small amount of losses

which the city has experienced is due solely to the

excellent organization of our Fire Department, and

especially to the additions to the fire stations and

alarm boxes, as well as to the happy choice which

is made of the firemen, whose devotedness, skill

The persons assured have paid on an average

during the term of three years 21 per cent. per an-

num on their deposit notes, a rate which is less

than in former years; they have, besides, been able to place in reserve during the said term the sum of

\$16,000, while at the same time realizing a profit, on an average, of 45 per cent. on the amount which

they would have had to pay an insurance com

This company has now risks on property of the

value of \$7,354,963, insured to the extent of two-

thirds thereof; the amount of guarantee notes

being \$405,368, together with an available reserve fund of \$51,000. This fund is accumulated for the

purpose among others, of reducing, if possible, the assessments in future years, and of rendering them

In their report the Directors note and beg to

state that, besides several improvements already

made, or on the point of being carried out, it would be of great importance, as well to the citizens as to

the insurance companies of this city, if the Corpora-tion would render the department of the Inspector of buildings more efficient; and, having recognized

the necessity of organizing at once an additional

body of men, provided with the necessary means to aid our firemen in case of large conflagrations, or of

division of their forces, the Corporation should not

delay any longer to adopt the necessary means to

It is a fact well recognized that had risks are a

source of ruin to the insurance companies, and that

good risks have to make compensation for bad

oncs; therefore we must conclude that an insur-

ance company like this one, which insures only

buildings offering sufficient guarantees, is liable to

less risk, and necessarily guarantees more profit to

In referring to the report of the Superintendent

of the insurance companies for the year 1876, we find that the guarantees of the American Insurance
