We here present an accurate diagram of the double lock stitch as taken by this Machine. The stitch being magnified to show the direction of the two threads are firmly twisted and interlocked with each other, making it impossible to rip though every fourth stitch be cut. Clothing sewed with this stitch can never give out.

Having for some time heen solicited to open a branch in Montreal, we have now complied by taking the elegant and spacious Store under the Grand Trunk Offices, opposite the Ottawa Hotel. In opening so extensive an establishment here, we but repeat the requirements of our business in other cities, and we trust we may be encouraged to place in the household of every family one of our Sewing Machines. We know by actual experience that no family can afford to be without one. The difficulty of managing other and more complicated Sewing Ma-chines has heretofore prevented their general use in Canada: WE GUARANTEE the Management of this Machine as simple as the common Coffee Mill. Three thousand Families in the States who have purchased and used our invention during the past year, attest to the truth of all we here assers, for not one machine has been reurned to us, yet we wish it, and will return the money if it does not give entire satisfaction
