## LEGISLATIVE COUNCIL.

Quebec, Aug. 14th.

His Ecellency the Governor General at three o'clock proceeded in state to the Legislative Council Chamber, and having taken his seat upon the Throne.

The Hon. Joseph Tessier informed His Excellency that the choice of the Legislative Council had fallen upon him to be their Speaker.

His Excellency then commanded the attendasce of the Legislative Assembly.

The members of that body, preceded by their Speaker, the Hon. Lewis Wallbridge, informed His Excellency that the choice of the Assembly had fallen upon him to be their Speaker, and be prayed for the members thereof the customary parliamentary privileges.

After which His Excellency was pleased to deliver the following speech:-

Honorable Gentlemen of the Legislative Council:

Gestlemen of the Legislative Assembly: I have called you together at this unusual season, because I desired, as soon as practicable after the dissolution of the last Parliament, to obtain your advice and assistance in reference to the public affairs of the Province. Although the period of the year at which you are now assembled is one that renders it difficult for many of you to leave your other avocations in order to give attention to your Parliamentary duties, I am persuaded that you will cheerfully co-operate with me at the present time in considering such legislative proposals as the exigencies of the public service may demand.

Measures of importance, the progress of which in the late Parliament, was interrupted by the dissolution, will again be submitted to your notice.

I would specially direct your attention to the ex-ising Militia law, which requires extensive amendment in order to place this important arm of the public defence in a condition of efficiency. The large increase which has occurred in the Volunteer force, and the offers for service which I continue to receive from new Companies, are gratifying proof of the patriotic real which animates the whole community, in reference to the subject of public defence. The interest which has been displayed in the formation of Drill Associations and the manifest desire of the south of the country to perfect themselves in the 438 of arms, are satisfactory evidences that the people of Canada are prepared to submit to any personal sacrifices which can reasonably be demanded of them, in order to enable them, in the most efficient manner, to put forth their strength in defence of their instiutions and their homes, should circumstances ever figuire from them such an exhibition of patriotism. limst to your wisdom to give a proper direction to the excellent spirit by which the people are animated, and to your liberality to supply the means by which Plactical advantages may be obtained from it.

A bill for the equitable a justment of the relations Metween debtor and creditor, and to afford relief to inform debtors will be laid before you.

Certain alterations in the laws regulating the administration of justice will be submitted for your Pprobation.

The existing laws affecting the registration of liles to real property in Upper and Lower Canada ad concerning patents for inventions, as well as he laws relating to the encouragement of agriculore will also claim your attention.

Gentlemen of the Legislative Assembly:

The estimates for the current year, for which prowith such additional estimates as may be necessary the present time, will be laid before you without lay. The last Session of Parliament having abonly terminated without the grant of the usual lies for carrying on the Government, I have been ing advances out of the public chest, to defray certain indiscensable charges. Statements will be submitted to you, from which you will perceive that these advences have been strictly limited to the un avoidable requirements of the public service. Under these circumstances I confidently rely upon your read-iness to sanction the outlay which has been thus incurred, as well as to provide for the current year. Hon. Gentlemen and Gentlemen :

I urge upon your early attention the state of the finances of the Province and the relation which the expenditure bears to its income and resources.

You will not fail to concur with me in the expres sion of regret that for some years past the public expenditure has exceeded the annual income, and I cannot doubt that you will agree with me that the time has arrived when a strenuous effort should be made to avert the continuance of this deficiency.

I have received a despatch from the Sc cretary of State for the Oolonies enclosing copies of a correspoudence between Her Majesty's Government and the Agent of the Atlantic and Pacific Transit and Telegraph Company in reference to a proposal made by that Company for the establishment of a telegraph and postal communication between Lake Superior and New Westminster in British Columbia. The importance of such an undertaking to the British North American Provinces, both in a commercial and in a military point of view, induces me to commend the subject to your consideration. Copies of the correspondence shall be laid before you, and I feel assured that, should any proposal calculated to effect the establishment of such communication on terms advantageous to the Province be submitted to you, it will receive encouragement at your hands.

I cannot refrain from congratulating you at this season of the year upon the prospect which every-where prevails of an abundant barvest. I sincerely trust that the prosperity with which it appears likely Providence will this year bless the agricultural classes may produce a corresponding improvement in our commerce and manufactures.

In commending to your careful attention the public affairs of this Province I depend upon your zeal and ability to promote whatever may conduce to the advancement of its future welfare, and I humbly inwoke the Divine Blessing upon your deliberations, that they may be entered upon in an unselfish and impartial spirit, and may tend to the idcresse of unanimity, prosperity and contenument throughout the land.

His Excellency the Governor General then retired, and the Speaker called the House to the latter for \$2,925. order.

Hon. Mr. Ferguson Blair then moved pro forma for leave to introduce a Bill relating to Common Schools .- Carried.

Hon. Mr. Ferguson Blair also moved pro forma that the members of the House be a Committee or privilege to meet and adjourn at plea-

Hon. Mr. Ferguson Blair further moved, that the Address in reply to His Excellency's Gracious Speech from the Throne be taken into consideration on Tuesday next .- Carried.

The House then adjourned.

#### LEGISLATIVE ASSEMBLY.

On their return, Honorable J. S. Mucdonald

brought in a bill, pro forma, to provide for the administration of oaths of office to persons appointed as justices of the peace.

The Speaker then read in English the Speech from the Throne, which was read also in French by the Clerk at the table. The usual formal motions proposed at the commencement of a new Parliament were then proposed and agreed to.

agreed to postpone the consideration of the speech until Monday.

Hon. Mr. Brown gave notice of a motion for Monday, reciting the words of Hon. Messrs. Cartier, Galt and Rose in 1859, in regard to the existence of great difficulties in the government of the country, which were yearly becoming worse, and appointing a select committee to enquire and report upon the best means of remedying the evils referred to.

Quebec, August 17.

The Speaker took the chair at 6 o'clock. Mr. Scatcherd rose to move a series of resolutions relating to special returns for the County. of Essex, declaring Mr. Rankin entitled to the seat, but it was objected that the papers had not

been printed in French, and the matter was allowed to stand over. Mr. Perreach then moved the Address in renly to the Speech from the Throne, being simply an echo of the speech itself. Mr. Chambers

seconded the motion. The debate on the reconstruction of the Cabinet turned on personal explanations unimportant to the public.

It is reported that the Government have notified Edmonstone, Allan & Co. that the contract for carrying the mails has been repeatedly broken, and that it must cease at the end of the year's engagement.

DEATH OF A PRIEST .- It becomes our duty to record the death of a most estimable and worthy priest the Very Rev. Father Vincent, Visitor General of the Order of the Oblats of Mary Immaculate. This unfortunate accident which has deprived the Church and the Order to which helonged, of the services and labors of this experienced, talented and indomitable clergyman, took place at the River an Dessert, up the Gatineau, on Sunday evening last. From the meagre information we have received regarding the occurrence, we learn that Father Vincent went accompanied by another friend, to bathe about 6 o'clock in the evening; and while beyond his depth in the river sunk to rise no more. We suppose that while bathing he must have taken cramps and thus have lost his life, for he was, we are informed, an excellent swimmer. The sad news of his sudden death, we are sure, will be learned will be learned with the deepest sorrow, by all who had the pleasure of his acquaintance.

Father Vincent came to Canada from France in the purpose of officially visiting the several houses in America belonging to his Order. He completed the visitation of all the houses of the order about two weeks ago, with the exception of the Establishment at the Dessert. This he proceeded to on Tuesday week, accompanying his Lordship the Right Rev. Dr. Guigues, who was to administer the Sacrament of Confirmation on Sunday to a large number of Indians, who were to meet him at the Dessert. The deceased was to return to Ottawa to-day, but an all ruling and wise Providence has deemed otheriwse. His loss will be long felt .- Requiescant in Pace .-Ottawa Tribune.

The Kingston News of Monday states :- During the past week several thousand horses have been purchased from our farmers by the agents of the Federal Government here, for the use of the Northern army. On Saturday 79 nnimals were shipped to the other side-40 by the American line and 39 by the Pierrepont. The former lot was purchased for \$5,000 and
