

the further limitations in armed forces. The parties must be satisfied before such further limitations of armaments are undertaken and at all times thereafter that the armaments at the disposal of any party to the convention do not exceed the quantities thus allowed in each category.

H. No measures for the reduction and limitation of armed forces and armaments beyond those provided for in paragraphs A and B above will be put into effect until the system of control is appropriately expanded and is able to verify such measures.

## II. *Military Expenditure*

In order to assist in verifying compliance with the provisions of paragraph I, and looking forward to the reduction of military expenditures, France, the Soviet Union, the United Kingdom and the United States agree to make available to the International Control Organization information about their military budgets and expenditures for the year preceding entry of the convention into force and for each year thereafter. The categories of information to be supplied will be agreed in advance and annexed to the convention.

## III. *Nuclear Weapons*

Each party assumes an obligation not to use nuclear weapons if an armed attack has not placed the party in a situation of individual or collective self-defence.

## IV. *The Control of Fissionable Material*

A. The parties to the convention further undertake:

1. That all future production of fissionable materials will be used at home or abroad, under international supervision, exclusively for non-weapons purposes, including stockpiling, beginning one month after the International Board of Control described in paragraph VIII has certified that the installation of an effective inspection system to verify the commitment has been completed.
2. That they will co-operate in the prompt installation and in the maintenance of such an inspection system.
3. That for the purpose of accomplishing the above undertakings, the five Governments represented on the Sub-Committee will appoint a group of technical experts to meet as soon as possible to design the required inspection system, and to submit a progress report for their approval within the first ten months after the entry into force of the convention.

B. The parties which are producers of fissionable material for weapons purposes at the time of cessation of production for weapons purposes undertake to provide, under international supervision, for equitable transfers, in successive increments, of fissionable materials from previous production to non-weapons purposes, at home or abroad, including stockpiling; and, in this connection

1. To fix the specific ratios of quantities of fissionable materials of comparable analysis to be transferred by each of them, and
2. To commence such transfers at agreed dates and in agreed quantities at the fixed ratios following the cut-off date for production of fissionable materials for weapons purposes.
