Note No. 0582

Excellency,

I have the honour to recall that both Canada and Norway are non-nuclear weapons states party to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and that both countries have concluded agreements with the International Atomic Energy Control Agency (IAEA) for the Application of Safeguards in connection with the NPT. In the case of Norway, this is the "Agreement between Norway and the Agency for the Application of Safeguards in connection with the Treaty on the Non-Proliferation of Nuclear Weapons" (INFCIRC/177).

I have further the honour to refer to the transaction between British Nuclear Fuels Limited of the United Kingdom and the Institutt for Energiteknikk of Norway for the supply of 250 kilograms of Canadian-obligated uranium (containing 10 kilograms of uranium-235) for the OECD Halden Reactor Project, and to propose that this transfer shall be made under the following conditions:

His Excellency Mr. Thorvald Stoltenberg
Minister of Foreign Affairs
Oslo
