

20th January, 1930.

Dean J. Playfair McMurrich,
Dean of the School of Graduate Studies,
University of Toronto,
Toronto, Canada.

My dear Dean McMurrich,

I have your letter
of January 16th regarding open post graduate
fellowships.

In reply I would
say that I think it both feasible and advisable
to require that each application for an open
fellowship should be accompanied by an official
statement that the candidate's University or
Faculty approves of his or her candidacy.

This requirement
is, of course, now made by the Rhodes Trust.

Ever yours faithfully,

Principal.
