

New problems best solved by Campus site.

(a) R.V.C.

(b) Campus centre for many years.

(c) Required exams., class work, voluntary exams.

Quite evident an auxiliary gym required. Most inconvenient.

CONSIDERATION OF MACDONALD PARK SITE

1. Necessity of Stadium facilities unquestioned, not essential and possibly not desirable in gymnasium building, location too far, different type locker, use of pool.
2. Present centre of student life.
10% students using Stadium for 2 months. As many using Campus.
45% students residents of Montreal.
25% students already provided for
5% students in new combined building.
50% students take no exercise. Sell good on front street.
Best time for exercise between 5 - 7.
3. Future centre. Cost of Dormitories and accommodation.

FURTHER REASONS

1. Reconstruction of Molson's Hall necessitated space to hold sessional exams.
2. Possibly use of gymnasium floor as Convocation Hall temporarily
3. Possibly use of gymnasium floor as Theatre, etc.
4. Proximity combined building to Union.
5. Cost of heating and lighting system 40/60,000

CHANGE OF POLICY

General gymnasium now on Campus. Auxiliary when required at Macdonald Park. Stadium dressing rooms urgent.

PROBLEM CAREFULLY AND UNHURRIDLY STUDIED

1. Not a single feature but relation to life and activity of Student body
2. Seeking to avoid baffling situation in U.S.
3. McGill in front rank Department of Physical Education.

CLOSING

Have not endeavoured to discuss all reasons or in detail. Study led to Committee's decision. Trust information may commend itself to undergraduates.

UNANIMOUS DECISION

Gymnasium Committee. General Building Committee. Meeting of Deans and Professors.
