

USE YOUR SAWDUST.

The accumulation of sawdust and other refuse around a mill is a prolific source of fires. It must inevitably increase the rate of insurance. The latter is also true of the so-called "hell-hole," fed by a conveyor. Again, the sawdust heap is so unsightly, and takes up room, while its formation represents considerable labor, on the part of men and teams. It often happens that, while the refuse is being carried to the dump heap, saleable wood is being used to fire the boilers.

Now, it seems a self-evident proposition that in a case of this kind a grate that would consume the sawdust under the boilers, and save the aforesaid wood, permitting it to be sold, would be an excellent investment. It would save the expense of hauling the sawdust away, reduce the risk of fire, probably reduce the insurance rate, and render it possible to sell, often at a good figure, the wood that is now being used to run the mill.

We suggest that those interested in this subject take the matter up with the Gordon Hollow Blast Grate Company,

of Greenville, Michigan, manufacturers of the celebrated Gordon Hollow Blast Grate, which runs a mill with its sawdust and other refuse, even though wet, green or frozen. The grate is sold on approval, thirty days being given in which to thoroughly test it.

**THE DISTINGUISHING MARK**Factories and Home Office,
Indianapolis, Ind.

To install in your mill a set of saws that will suit you in every particular, it is necessary that you be familiar with some means of distinguishing the HIGH-CLASS SAWS from the others. Knowing some such mark you will always discriminate in favor of the saw which bears that mark of QUALITY.

THE ATKINS "TRIPLE A" etched on all HIGH GRADE SILVER STEEL CIRCULAR and BAND SAWS, is the sign which assures QUALITY, EXCELLENCE and absolute SUPERIORITY in Saws. "IF IT'S SILVER STEEL IT'S AN ATKINS." Look for our trade mark.

A little reminder of the "TRIPLE A" in the way of a pretty watch charm to Mill men who write for it. Also our Mill Supply Catalogue. Both free.
