

- Peptone, influence of, on lymph flow, 199
- Perfusion of the frog, 69
of excised mammalian heart, 189
turtle heart, 64
- Phosphores, 132
- Physical basis of sound, 166
- Pigeon, decerebrate, 231
- Pinna reflex, 226
- Pitch, 166
- Pithing, 14
- Pituitrin, influence of, on lymph flow, 199
- Polysphygmograph, 84
- Posterior column of spinal cord, stimulation of, 231
- Postural tonus, reflex, 228
- Potassium ions, action of, on cardiac muscle, 57
influence of, on mammalian heart, 192
- Preliminary technique, 9
- Preparation of cat and dog for experimental study, 72
of rabbit, 80
- Pressure adjuster, 98
- Primary circuit, 10
- Principal axis, 127
focal plane, 129
focus, 128
- Propagation of pulse wave, 81
- Purkinje figures, 119
images, 140
- Radial pulse, 85
- Rapid kymograph, 23
- Reaction time in man, 97
- Reciprocal inhibition, 229
innervation, 223
- Red muscle fibres, 36
- Reflection from a concave mirror, 125
- Reflection, laws of, 124
- Reflection from a plane mirror, 121
- Reflex, accommodation, 139
acoustic, 227
action in frog, 89
action in mammal, 217
control of circulation, 182
deglutition, 227
extensor thrust, 218
fatigue, 219
flexion, 218, 227, 234
head shake, 227
palpebral, 95
pinna, 226
postural tonus, 228
control of respiration, 182
scratch, 218
summation, 219
time, 218
time in frog, 90
time in man, 95
- Reflexes, spreading of, 90
inhibition of, 92
- Refraction by a convex lens, 129
at a convex surface, 127
at a plane surface, 126
errors in, 133
in the eye, 130
- Refractive index, 127
- Refractory period in the heart, 63
- Relaxation, an active process, 24
of smooth muscle, 42
- Removal of paper from drum, 12
- Resistance of nerve to fatigue, 54
- Respiration, 98
reflex control of, 182
- Respiratory exchange in man, 102
movements, influence of, on pulse, 88
quotients, 238
quotients, calculation of, 104
- Response of retina to light, 151
- Resuscitation by transfusion with epinephrin, 188
- Retina, effects on, of stimulating with two different colours, 155
structures in, 147
response to light, 151
- Retinoscope, 145
- Rheoscope, nerve muscle as a, 39
- Rhythmicity of smooth muscle, 42
- Rigor mortis, 37
- Salivary glands, innervation of, 201
- Saliva, secretion of, 209
- Scheiner's experiment, 111
- Schematic eye, 131
- Sciatic stimulation, effect on respiration, 182
- Scratch reflex, 218, 234
- Secondary circuit, 10
- Secretin, influence of, on pancreatic secretion, 208
- Secretion of bile, 206
of gastric juice, 211
of pancreas, 206
of saliva, 209
of submaxillary gland, 204
- Semilunar valve, effect of damaging, 201
- Sensations, skin, 175
- Sherrington electrodes, 215
- Simple contractions, 22
