## THE NOT POPULAR IDIOT HAR PARRY IS DISGUSTED

Success of Negotiations Upsets  
Hopes and Calculations of  
Enemies at Home—Czar Cal-  
culation and the Railway Concessions.

Portsmouth, N. H., Aug. 30.—Actual work of drafting the "Treaty of Portsmouth" began to-day. It is being done by Dr. de Martens and Mr. Demuth, acting as legal advisers for the respective sides. While the "basis" of peace has been accepted by the plenipotentiaries, it still remains to be worked out in elaboration of the articles of the treaty. This is especially due to the regard to the articles dealing with the Chinese-Eastern Railway and the surrender of the leases of the Liaotung Peninsula and Port Arthur and Tsingtau (Dairen). Mr. Pokotiloff, the Russian Minister to Pekin, who was formerly at Pekin and who has intimate knowledge of all the details relating to those matters, is assisting Mr. de Martens.

An anomalous situation exists as to impression created by the outside world. While in Japan there is evidently great disappointment in terms, and great dissatisfaction, it would seem that there would be universal rejoicing over the great diplomatic victory Mr. Witte has achieved. The government seems to have received it coldly. With the people it will make Mr. Witte and add to his laurels, but at court evidently the very victory Mr. Witte has achieved makes it all the more bitterly resented.

Bomb shell fell near War Party.

It is an open secret that Mr. Witte and his party have and fears Witte and that when the emperor appointed him chief plenipotentiary they expected him to do what they did not want peace and it was freely predicted in St. Petersburg when Mr. Witte left that he had both given an impossible mission and sent to America to "break his neck." They expected him to fail in the negotiations or to make a "bad peace," and either would have spelled political ruin.

Great at St. Petersburg.

Since Japan is in a conciliatory mood they now say he made a mistake in surrendering half of Sakhalin. It is pointed out that either side could still repudiate the agreement, if she checks the other from doing so.

The Press is able to give an additional and interesting as well as important detail. It is pointed out that the conditions of peace, most important of all is the fact that the formal recognition of Japan's victory over Russia in the Chinese-Eastern Railway below Kuenchen-tze, the junction of the branch to Kirin, involves a payment of \$75,000,000. This is the Chinese interest in the road, and for it, China must be satisfied.

Ultimate Possession.

The question of the ultimate possession of the road is a matter to be settled between Japan and China. Japan can keep the road or surrender it to China, demanding in return the money paid by Russia. If she checks the latter course Japan will, therefore, obtain an indirect "spoils of war" from Russia, the above mentioned sum, in addition to reimbursement for the cost of maintaining the Russian prisoners of war, for which Russia is to present an itemized bill. Japan is known to have given her word to China to retain the railway, which was really built for strategic purposes. But if China prefers the money to the road, Japan could not be accused of bad faith.

China Has the Say.

Another important provision is that Japan's succession to Port Arthur and Liaotung leases which Russia surrenders is conditional upon China's assent. The armistice was not arranged to-day. The war departments at St. Petersburg and Tokio are consulting Liao-tung (Yuma) and other officials. It is not probable that the armistice will be concluded directly by the generals on the field of battle.

NO LASTING BITTERNESS.

Japan's Withdrawal of Idemitsu Is Good Stroke.

Paris, Aug. 30.—In the course of conversation, one of the highest places. French diplomat declared that the Japanese made a clever move when they accepted peace without indemnity. They thereby, he added, secured a treaty with Russia without leaving among her late adversaries a grudge for revenge, such as existed in France after the conclusion of the Franco-Prussian war. Japan's own natural resources without the fear of an enemy waiting for an opportunity for revenge would have been the case had she insisted on the payment of an indemnity.

## DEFENCES OF AUSTRALIA TIME HAS COME TO BORROW

Commonwealth Cannot Adequately  
Provide From Revenue—Policy  
Under Way.

(Canadian Associated Press Cable.)  
London, Aug. 30.—A Melbourne despatch states that speaking of the government proposals to increase the personnel of the partially paid forces by 1000 men and to store two years' supply of ammunition, Hon. Mr. McCarty, ex-minister for defence, made a powerful speech in parliament to-day, declaring that the time had arrived for Australia to stand on its own feet and to provide defences entirely out of the revenue of the commonwealth. He urged that government must borrow at least three-quarters of a million pounds sterling immediately to rearm the forts. "It can no longer burke her responsibilities. The speech created a deep impression and was approved by all parties.

Premier Deakin, Senator Playford, minister for defence, and Mr. Ewing, vice-president of the executive council, are now working out the details of the plan with the council of defence to complete a defence policy which will have far-reaching effects. Mr. Deakin promises a public statement in a month's time. Experts say that if the imperial government fails to promise to improve the Australian squadron the federal government is prepared to meet the cost of the defence of the coast and the enrolment of thousands more men in the citizen military forces.

## DISLIKE YANKEE INTRUSION. West India Committee Condemns Colonies to Consider Annexation.

(Canadian Associated Press Cable.)  
London, Aug. 30.—Alluding to the steps being taken to secure the federation of the West Indies and Canada, a circular is to be issued to-morrow by the West India committee, which will call attention to various defects in the present administration, such as the administration of the St. Vincent relief fund, the withdrawal of the imperial troops and the middle over the mail contract.

In conclusion the circular will say: "The West Indies as a whole are strongly opposed to passing under the flag of the United States. We earnestly request that they be allowed to remain as they are, and that we be so left to our own devices, without any such annexation as the increase of American influence in the Caribbean Sea."

We would counsel the colonies to consider the matter carefully and decide whether the time has yet actually arrived when assuming the suggested federation would be approved. It is expedient that if should be carried out.

FIVE FIRES FROM ELECTRIC WIRES.  
Orillia Has Exciting Day—Opera House Damaged.

Orillia, Aug. 30.—(Special.)—A defective electric wire caused a blaze in the opera house and down hall, at 8 o'clock to-night and before it was extinguished it had done damage to the extent of \$1500.

The stage was badly scorched, and the scenery totally destroyed. The public library, in the same building, suffered heavy damage by fire. The fire in the business part of the town during the day, all originating from electric wires.

## CLOUDS SPOIL ECLIPSE HERE BUT AFRICA SEES IT O.K.

American Expedition to Algeria is  
Enabled to Take Numerous  
Photographs.

Quelma, Algeria, Aug. 30.—The American astronomical expedition, headed by Rear Admiral Chester, superintendent of the United States Naval Observatory, succeeded in obtaining a splendid photograph of the eclipse of the sun. The expedition also by means of special apparatus sketched the sun's protuberances.

Tripoli, Aug. 30.—The American, Italian and French expeditions observed the eclipse here to-day in a clear atmosphere. It lasted three minutes and four seconds. The shadow bands were particularly fine, beginning ten minutes before the totality. Bailey's beads were not seen. The corona was evenly developed. Prof. Todd of Amherst College, head of the American expedition, took numerous photographs.

The success of the government expedition to Labrador is yet to be learned. It was not much of an eclipse that Toronto was favored with yesterday. Those who rose early were humbugged. Up at the observatory there was a scattering of the faithful interested in the doings of the bodies in space. But even the people at the observatory were unable to make any observations, and beyond a slightly noticeable darkening of the sky for some time after sunrise, and the evidence of the eclipse was manifest. At Ottawa and Montreal similar untoward conditions prevailed.

At Washington it was seen for a short time and was observed with interest at the United States Naval Observatory, and by many amateur astronomers. The sun was never obscured to the extent of more than six tenths of its diameter, and the observation attained its maximum at 6:30 a.m.

The observatory astronomers used their 5-inch comet-seeking telescope and were enabled to observe three spots on the sun. This was no discovery, however, as the presence of the spots had been known before.

At Cambridge, Mass., observations at the Harvard Observatory were impossible because of the clouds. At New York the eclipse was completely obscured by clouds and foggy atmosphere. At Winnipeg a good view was obtained.

At Halifax it was visible from 8 until 10.

## PAUSE FOR THE BOYS. Roger McFee Gets Nearly Two Thousand Dollars in Gold From Dineen Company.

Roger McFee made his annual visit to the exhibition yesterday, and after taking a hasty look around the exhibition grounds departed, with his son, Andy, for the family home town west of New Toronto, in the vicinity of the McFee family, which is one of the oldest families in the county. Roger carried with him out of Dineen's store \$1950 in gold, being the value of the most beautiful of his traps, the skins of last season's trapping in the wilds of New Ontario. This is the seventh consecutive year that Roger McFee in yellow gold for his bundles of skins. The McFee stock traps are of respect for money that is not gold, and cannot be persuaded to accept anything but the highest price for his traps. He has not learned the commonest methods of financing as practiced in the business world.

McFee is of Scotch parentage and was at one time in the service of the Hudson Bay Company. He married an English girl who was housekeeper at one of the posts and located in the Temagami district years ago, where he worked southward, and finally taking up land for farming purposes. Although the McFee boys have developed into rough farmers and woodmen, the father is a veritable pioneer, and is sometimes away a month at a time hunting and trapping in the forest. He sells exclusively to the Dineen Company, and he expects to bring down \$3000 worth of pelts about this time next year.

You cannot live on bread alone. You cannot live on meat alone, but you can live on Norka, the only cooked food manufactured in the world.

Our typewriter exhibit is at 80 King St. E. L. C. Smith & Bros. Writing is right all the time.

RUNS INTO A HULK  
AND IS SUBMERGED.

Sandwich, Aug. 30.—The steam barge Lily, bound for Chatham, coal-laden, ran on the wreck of the old Prince Albert. The Lily is owned by Tucker Bros. of Mount Clemens and is valued at \$1000. She will be raised.

## MUST GOVERN OURSELVES AND USE OUR OWN IDEAS

Position of the Colonies Toward  
Motherland in These Latter Days,  
Says British Writer.

(Canadian Associated Press Cable.)  
London, Aug. 30.—J. S. Ewart in the course of an article in the Monthly Review, says that now that some of the British colonies have reached their majority and are almost entirely self-controlled, the old idea of British supremacy is revived in the more alluring form of partnership or of a federation in which the United Kingdom would be the predominant force. "We have," Mr. Ewart makes Canada say, "our own fiscal ideas and do not wish to submit them for revision. We are illiterate for political union with a nation whose characteristics are diametrically opposite to ours, with a predominance of a policy that we do not approve, and we do not wish to be incorporated with them, in its judgment the best way in which we can cooperate with our sister British states, is not in incorporation with them, but in an independent state, they ought to build up military and naval establishments of their own, and to take any other state of equal or unequal rank with them to be expended by it."

## YOUNG CANADA'S DAY AT THE FAIR

MANUFACTURERS' DAY.

8 a.m.—Gates open.  
9 a.m.—Continuation of Cat Show; processes of manufacture and the entire exhibition.  
10.30 a.m.—Butter making competitions in Dairy Building.  
11 a.m.—Concert by the Irish Guards' Band on grounds.  
1 p.m.—Directors' luncheon—leading manufacturers entertained.  
1.30 p.m.—Horse judging, racing and variety performance in front of grand stand; judging pair of ponies in harness between 13.1 and 14.1.  
1.45 p.m.—Judging single roaster, trotter, 15.3 or over.  
2 p.m.—Band of Royal Grenadiers on grounds.  
2.05 p.m.—Judging single horse, 16 hands or over.  
2.25 p.m.—Judging delivery or express horses.  
2.30 p.m.—Gun drill and physical exercise by sailors and marines.  
2.40 p.m.—Road drivers' parade, trotters.  
3 p.m.—Judging single horse between 15 and 15.2; Prof. Robert Harcourt in Woman's Building, on "The comparison of different grades of flour for food value and cooking purposes."  
3.20 p.m.—Judging standard breds, geldings or mares.  
3.40 p.m.—Single horse, amateurs only, 15.2 and over.  
4 p.m.—Band of Irish Guards on grounds; judging single horse up to carrying 140 to 165 lbs.  
4.20 p.m.—Lightweight green hunters up to carrying 140 to 165 lbs.  
4.30 p.m.—Musical ride.  
5.30 p.m.—Music by massed bands.  
6 p.m.—Final drill and exercise by sailors and marines.  
7 p.m.—Final drill and exercise by sailors and marines.  
8.30 p.m.—Fall of Port Arthur.  
9.30 p.m.—Fireworks.  
10 p.m.—Sailors strike camp and march off grounds.

## TORONTO JUNIOR'S DAY OF IT SEES FAIR FROM END TO END

Second Day is Another Breaker of  
Records—Educational Features  
Discussed at Luncheon.

Schoolchildren's Day, looked at from the real sentimental standpoint of the exhibition, is to be an educator, with the circus performances in it on the same understanding that a couple of raisins or a lump of sugar go after a dose of medicine.

Canada's greatest exhibit which can readily take first prize at any exposition held at any point of the compass—the schoolchildren of a bustling Canadian city—look over the management of the National Exhibition yesterday morning and kept that way all day. Bright and early they came and bright but tired they went away, after seeing more, individually, during their short stay than any adult could find out all about in a week's visit.

The immensity of Canada's National Exhibition impressed itself yesterday on the folks who were watching the interest the youngsters manifested in it, where they went, what they did and the means they employed. Things the grown-ups pass by to see something else were investigated by the youngsters and the real tributes to the nerve centres of the exhibition were discovered. It's a great idea to have the schoolchildren's day come early, if there are any defect children who find them.

The attendance estimate is placed at 60,000, but it doubtless looked much more to the woman who had three or four youngsters to look after. Every now and then someone lost a treasured offspring and the police spent a busy day with their lost and found columns. When the census was taken at the hour the inspector went to bed all of

Continued on Page 6.

## PARDEE GETS NOMINATION. West Lambton Liberals Pick Their Man—Talk of an Independent.

Sarnia, Aug. 30.—Fred F. Pardee, ex-M.L.A., was nominated on the second ballot at the West Lambton Liberal convention this afternoon.

Four candidates were balloted on, viz., Pardee, John Cowan, Ralston and E. Armstrong unsuccessfully in East Lambton; David Milne, town councillor of Sarnia, and William Nesbit, county councillor of Dawn Township.

On the first ballot Pardee and Cowan were even with 16 apiece, and Milne and Nesbit got a small scattered vote, which mostly went to Pardee on the second ballot, giving him 61 votes and a clear majority of three.

Dr. J. G. Morrison of Sarnia, who was prominently mentioned as a candidate, was absent from the convention and may run as an independent Liberal.

Dr. Pardee has for one term in the Ontario legislature and was twice defeated by Hon. W. J. Hanna. He is a son of the late Hon. T. B. Fardee.

## THOUSANDS OF PEASANTS ARMED. Enormous Autumn Movement Organized—Troops Being Sent.

St. Petersburg, Aug. 30.—At a meeting of three hundred members of international classes of St. Petersburg at the Terjoki, near here, yesterday afternoon, the speaker described the peasant agitation in the provinces of Saratoff and Samara, saying that there were tens of thousands of men supplied with arms and that an enormous peasant movement was being organized for the autumn.

A force of Cossacks and infantry has been sent to Terjoki.

## TORNADO IN PENNSYLVANIA. Score of Houses in Scranton Suburb Are Uprooted.

Scranton, Pa., Aug. 30.—A tornado struck the northern part of Carbonate and struck and demolished a score of houses and railroads, but fortunately caused no fatalities.

The storm came from the west and whirled towards the east, having a path of 200 feet. Its centre had the appearance of a luminous funnel shaped cloud.

There was no accompaniment of lightning, thunder or rain, and the stars were immediately before and after it passed.

All kinds of second hand typewriters at your own price. L. C. Smith & Bros., 80 King St. E.

Use "Maple Leaf" Canned Salmon, the best packed.

NOT YET AWHILE.

New York, Aug. 30.—(Special.)—It was officially announced to-day by the U. S. Steel Corporation offices in this city that the prospect for a steel plant in Canada has been shelved for the present.

Tucker's "T. & B." 10 cent plug, 26 An Accommodating Alderman.

Montreal, Aug. 30.—(Special.)—The mayor's chain of office has been found and the situation is saved.

Ald. Fortune, who reached home to-day, had the chain locked up at home.

Babbit Metal, best made. The Canada Metal Co.

## RUSS PRESS TAKES IT BITTERLY PEACE MORE BENEFIT TO JAPAN

"Blow Fallen Upon Russia" Says One Writer—Editor Declares  
Oyama Was Not Confident of Defeating Lively—  
Hate to Let Sakhalin Go.

St. Petersburg, Aug. 30.—The Novoye Vremya to-day says:  
"God grant that the blow has not fallen on Russia at the moment when Japan was ready to make every concession to terminate the ruin of war, and when the Russian army had become stronger than ever before."

M. Souverin, editor of the Novoye Vremya, says he regrets that Gen. L'nevitch who telegraphed recently to St. Petersburg and Portsmouth, exploring Emperor Nicholas and M. Witte, did not conclude peace, did not accept the plenipotentiaries instead of supporting the Russian army had been the editor adds that he knows from a certain source that Gen. Marshal Oyama had been told to Tokyo to the effect that he could not guarantee a victory. M. Souverin considers the concessions made by Japan to be of little importance, and says they do not weaken her.

"If the national assembly does not succeed better in renovating the country, than the army has in defending it, Russia will be lost."

The Russ discussed the conclusion of peace and says it will be of supreme benefit to the country.

The Pan Slavist Soviet says: "All the Japanese concessions pale before the news that Japan has acquired the better part of the island of Sakhalin."

"It is the verdict of Prince Oukh-ke as enabling Russia to enter heart and soul into interior re-organization."

"A great diplomatic victory for M. Witte, but a great moral victory for Japan," is the verdict of Prince Oukh-ke to-day. He says:  
"Notwithstanding the difficult circumstances under which the negotiations commenced, M. Witte carried out his task with the greatest skill and obtained from Japan the utmost she was prepared to give. More we expected to receive, but the M. Witte wrested out of defeat these advantageous terms, the moral advantage rests with Japan. She will be recognized in the eyes of the east and of Europe as the victor, and she has acquired a predominant position in Asia, while Russia's prestige has suffered a correspondingly heavy blow."

The Future.

"It is impossible to tell what will be the result of peace on the internal situation. The revolutionary movement has roots a generation deep, and its causes are entirely independent of the war, which it preceded, the its growth has been fostered by the misfortune of the conflict. The agitator and the moll will no doubt find an outlet in the coming elections for the Duma, regardless of the outcome of the war."

## COBALT'S CHIEF HONORED. P.C. George Caldwell Leaves Toronto Police Force.

Great respect was manifested last night at No. 1 Police Station when P.C. George Caldwell severed his connection with the Toronto Police Force after over seven years' service. Inspector Gregory made presenting constable a present of a handsome gold watch.

MONEY WAS MISSING.

Ceiling that as they slept they were relieved of over \$90. J. Brooding and J. Watts, two Scotchmen, brooding into the immigration office yesterday. They slept at the New York Restaurant on York street. Monday night and awoke on Tuesday morning to find their money was missing. They reported the matter to the police, but no trace of it was found. Yesterday they were given tickets by the immigration department and sent back to Woodville, where they have been employed for the past two months.

## RUSSIA WINS LAST BATTLE

St. Petersburg, Aug. 31.—(3.25 a.m.)—A despatch from Lidzida-Pudze contains the details of what will probably be the last engagement of the war. This encounter occurred on Aug. 28, and resulted in an advantage to the Russians, who took 129 prisoners.

A number of Japanese were killed. The Russian losses were eight killed.

The remnant of the Japanese retired, bearing their wounded.
