### TAX SYSTEM INCONGRUITIES

Continued From Page 1.

Hundreds of Cars of Goods on Tracks—Merchants Can't Place the Contents.

San Francisco, July 25.—Between 400 and 500 freight handlers in the employ of the Southern Pacific Company in Oakland are on strike. They demand an increase in pay from 22 1-2 cents to 25 cents an hour, such as was granted the freight handlers on this side of the bay over a week ago.. Every day adds to the serious nature of the freight congestion, which threatens to become a situation of the greatest perili to the city.

"As was to be expected, in the application of business assessment, many appeals have been made, the greater number from retailers and professional men. With several of the retailers, the old argument is brought forward that they have not the money in their business, that is, the amount represented by the business assessment. This, as the court of revision have to explain, is not now the basis of assessment, and in such cases, because of their assessment being increased, as compared with last year, they become quite dissatisfied with the new act. These are small affairs, however, but if it were possible to get at the exact monetary position in such cases, I doubt if any injustice is being done on the amount they now have to pay on, as compared with neir actual assets."

The World, and, no doubt, its readers, would be glad to know whether these small dealers are still dissatisfied. These are "small matters," but not to the city.

ther methods will be tried to force them to take the goods they have orlered.

As soon as the ashes of the big fire the goods upon which, and only upon which, the tax is rightfully assessed. As soon as the ashes of the big fire had cooled large orders for all kinds of goods were sent east, and the goods were rushed out with the greatest possible speed. These goods arived in the city, but the merchants found that instead of being provided with ample accommodations, they had a hard time to get any. The result was that the cars stood on the sidings waiting to be unloaded and the consigners had no place to put their goods.
