CHAMBERLAIN CAN'T COME

Colonial Secretary Not Available to Open New City Hall

And Sends His Regrets—Small New Industry May Come, But Negotiations Are Informal — Ald. Hallam Expected Back This Week—City Hall Carpets Now on the Carpet.

Right Hon. Joseph Chamberlain, Secretary of State for the Colonies, will not visit the colony while domesticating on this side of the Atlantic. Mayor Shaw had cherished hopes that he might drop over to Toronto and perhaps open the new City Hall, but they were all blasted by the receipt of the following autographic communication yesterday: "I had hoped that it might be possible for me to arrange this visit, but I find, to my great regret, that I must forego the pleasure of coming to Canada on this occasion. As you are aware, I have been able twice to visit the Dominion, and once to enjoy the hospitality of Toronto, and I should have been very pleased to renew my acquaintance with your beautiful city. But the circumstances which have brought about my present trip to America, coupled with the shortness of the time I can allow myself, and the private nature of my visit, combine to preclude me from accepting the numerous public engagements which have been so cordially offered to me. I can only hope that on some future occasion, with more leisure and less personal obligations, I may be able to fulfil a long-cherished visit, and to see something more of the greatest of British colonies, in whose prosperity I take so sincere an interest."

Another Possible Fleming Coup.

Assessment Commissioner Fleming has been informally urging the advantage of Toronto for the location of the H. S. Nutting Fire Extinguishing Hand Grenade Company of Minneapolis. Mr. A. H. Garfield, representing the company, explained that the industry would be comparatively a small one and will demonstrate the possibilities of its output as an extinguisher of benzine and gasoline fires to-morrow at the foot of Bay-street. There is a possibility that a small branch factory may be established here.

When Jack Comes Home Again.

Ald. Hallam has been freshened up and enlightened by months of travel abroad and is expected home this week in time to vote for prohibition. In letters and postal cards to Ald. Hubbard and Lamb, bearing British stamps, he buoys their expectations with promises of the presentation to Council of valuable researches in the realms of sewage disposal, technical schools and chimes. It is also purported that he wrote a card in pure Parisian French, hot from Paris. It is said Ald. Lamb's interpreter had but little difficulty in deciphering its contents.

Works on Hand.

The Boards of Control and of Works visited the Summerhill Reservoir yesterday afternoon and, as a result, another layer of concrete may be deposited on the bottom to retard the progress of weeds.

City Bridge Engineer Williams is putting a crown to Sherbourne-street bridge and is widening the devil strip. Suburban residents have been complaining of delay in this matter.

Enlarge or Move.

The Mayor will escort the Property Committee to the Cattle Market at 9.30 a.m. to-day to get at the bottom of the alleged agitation for more space. The Legislation and Reception Committee will meet at 3 p.m. and the special committee on local improvements at 3.30 o'clock to-day.

The Mayor Aroused.

City Engineer Rust is in receipt of many letters, urging that the Street Railway Company be compelled to live up to their agreement in the matter of providing up-to-date cars. The Mayor is becoming interested in the matter.

The "Industrial" Exhibition.

William Joyce, secretary of the Municipal Committee of the Trades and Labor Council, is applying for representation of this body on the Industrial Exhibition Board.

Now It's Carpets.

With the elevator contract still hanging fire, the Board of Control is now plunged into the entangling woof of carpets for the new City Hall, a subject about which they avowedly know as little as they know (or knew a year ago) about elevators.

City Hall Notes.

The Board of Works has promised Ald. Hanlan to have the Harbor-square rolled and put in a condition that the boys can play football on it.

Ald. Hanlan, Burns and the City Engineer are agitating for a six-minute service on McCaul-street.

The Engineer's Department has ordered the contractors to start work on the macadam roadway in Givens-street, from Queen to Argyle, and on the brick walk in Front, from Bay to York.

The Palace Cafe Co. of St. Albans, Vt., which controls a system of street corner night lunch cars, wants the exclusive right of operation in Toronto.

Dr. Sheard, Medical Health Officer, has investigated the complaints relative to the sorting of singed rags in a vacant lot on Bloor-street west, and finds nothing injurious to the public health.

Street Commissioner Jones has expended about $4000 on roadway repairs since the beginning of the year. The bulk of the money has been distributed as follows: Ward No. 1, $1326; No. 2, $169; No. 3, $258; No. 4, $758; No. 5, $93; No. 6, $532, the balance being charged to labor at the corporation yards.

The City Engineer reports to the Board of constructing a cinder path along the north side of Eastern-avenue, from the Don improvement to Broadview-avenue, at $55.

Ald. Crane received a nasty burn Saturday morning. He placed his hand upon the iron screen of a Belt Line car and came in contact with a loose current.

The City Engineer reports to the Board of Works that $3919.07 has been spent upon repairs of cedar block roadways during the present year. Of this amount $1362.03 has been spent in Ward One, and $1375.83 upon Pape-avenue.

A summary of the report gives:

	Material.	Labor.	Total.
Ward 1	$004 53	$457 50	$1362 03
Ward 2	46 72	122 56	169 28
Ward 3	43 19	215 19	258 36
Ward 4	358 93	399 10	758 03
Ward 5	130 90	363 75	493 65
Ward 6	44 60	487 64	532 24

Also there has been spent in labor at the city shops $86.79, at the western city yards $8.10, and at the city yards $250.57.

Before. After.

Wood's Phosphodine,

The Great English Remedy.

WHERE THE STEAMERS TIE UP.

What Has Happened at the Water-front During 24 Hours.

The steamers Clinton and Lisgar, which have been engaged carrying cedar blocks from the Algoma district, are in their winter berths at the foot of Yonge-street.

The Northern Transit Company of Cleveland intend adding six vessels to their fleet next season. All the boats will call at Toronto, four will ply between Cleveland and Alexandria Bay and two between Port Dalhousie and Alexandria Bay.

The steamer Spartan of the Richelieu & Ontario Navigation Company's line will make her last trip of the season next Friday, leaving Toronto at 2 o'clock in the afternoon.

The Chicora conveyed a large number of delegates of the Locomotive Firemen Convention to their homes yesterday morning.

The Acacia, from Hamilton, brought down a large load of fruit.

The arrivals yesterday were Corona and Chicora from Niagara and Lewiston, Macassa and Acacia from Hamilton, Lakeside from St. Catharines, Spartan and Ocean from Montreal, Queen City from Queenston, St. Joseph from Oswego, and schooners E. Bailey, Northwest and Maple Leaf from the lake shore.

The St. Joseph arrived yesterday with 603 tons of coal for Dickson & Eddy from Oswego.

The Persia pulled in from Montreal and cleared again for St. Catharines and Hamilton.

The Macassa to Hamilton and Lakeside to St. Catharines are doing a big business in freight. It is expected that the rush will keep up for another month.

The service of the Richelieu & Ontario Navigation Company will be extended next season, the daily boats between Toronto and Montreal will call at Charlotte on the way up and also on the down trips. Another vessel, in addition to the Hamilton, will call at the Bay of Quinte ports, and it is likely that the Spartan will be transferred to that route.

Can Work Now

Paine's Celery Compound Renews the Life of a Government Official.

After the failures of physicians the great medicine does a marvellous work for Capt. A. A. Mooney, of Mansonville, Que.

Wells & Richardson Co.:

Gentlemen,—For the last twelve months I have been suffering with poor health. Meeting with serious financial loss, I began to feel nervous and exhausted, and my mind was so confused that I found it difficult to perform my routine duties in the Customs service. I was obliged to stop work, and was granted a three months' leave of absence by the government. I consulted some of the best physicians in the country, but they did not agree about what ailed me, and I got but little relief. About three months ago a friend sent me three bottles of Paine's Celery Compound with the request that I take it. I am now taking the sixth bottle and am doing my work regularly. I have gained several pounds in weight, my appetite has improved, and I am able to perform as difficult mental work as at any time in my life. I am confident that Paine's Celery Compound has been of great benefit to me.

A. A. MOONEY,
Customs Officer, Mansonville, Que.

Gordon Union.

The following are the officers of this union: President, Mrs. Vance; corresponding secretary, Mrs. Dr. Forfar; recording secretary, Mrs. Reed; treasurer, Mrs. Yates. The monthly meeting of the district will be held on Thursday, 29th inst., at 2.30 p.m., in Headquarters.

MINES AND MINING STOCKS

In Rossland, Slocan and Boundary Camps.

About White Bear and Silver Bell —Development Work in Greenwood Section—British Columbia's Great Silver Belt—Ore From Properties Up in Michipicoton—Notes.

The reorganization of the Silver Bell Company at Rossland on Friday has created a favorable impression with the public. Mr. John A. Moody, broker, of London, Ont., who was in town yesterday, showed The World a telegram from a Rossland firm, asking a quotation on 10,000 shares.

The White Bear.

Mr. Cole of the White Bear, Rossland, writes, under date of Sept. 20: "We are now down 250 feet and it will take two weeks to fix up the shaft before drifting." Mr. J. H. Starr, secretary-treasurer of the company, says: "The mine has every appearance of becoming a big one, and if I am able to get the ore in quantity at the depth we now have, we will have no trouble in making the mine carry itself. I will do my level best to make the stock worth a dollar."

Gold From Michipicoton.

Latest reports from Michipicoton are to the effect that active interest in the district increases from day to day. Considerable development work is in progress on a number of properties, with encouraging results. Messrs. Currie, Kitely & Co. yesterday received by express some fine specimens of ore from the Rossland group, which is being opened up by the Superior Gold and Copper Mining Company. The quartz carries much visible free gold.

IN GREENWOOD SECTION.

Boundary Country Camp That is Now Coming to the Front.

Marked activity is reported from Greenwood, in the Kettle River district of British Columbia. It is stated that the Goodersham-Blackstock syndicate are interesting themselves in Summit Camp and that the "B. C." mine has actually passed into their hands at a good figure.

Bought by J. P. Graves.

Jay P. Graves of Spokane has purchased a quarter interest in the Phoenix for $5000 cash. The Phoenix is a fractional claim in Greenwood Camp. It has an enormous showing. Some time ago Mr. Graves acquired a half interest in the property. The remaining quarter is now held by McKenzie & Mann, who recently bonded the whole of Farrell & Mudgeon's valuable Boundary Creek properties. The quarter interest which Mr. Graves has just purchased was owned by Robert Denzler, one of the pioneers of the country.

Nearing the Bruce Vein.

From all appearances the vein will be struck in the Bruce tunnel within a short time. The Bruce is a mile and a half below Midway. It has a large surface showing of rich copper ore. A tunnel which is over 200 feet in length is being run on the property to tap the lead.

Work on the Joe Dandy.

The Joe Dandy claim, on James Creek, about 30 miles above Greenwood, was recently purchased by L. S. M. Barrett of Greenwood. Since acquiring it he has had several men working, and they have uncovered a vein of rich ore over 100 feet wide. The gold values are good and the copper value increases as the work progresses.

Bonded to Peter Larson.

The Rawhide claim in Greenwood Camp has been bonded to Peter Larson, the well-known railway contractor and mining man of the Coeur d'Alenes, for $40,000. The Rawhide is considered one of the big properties of the camp. It lies south of the Snowshoe and has a large body of ore, which is a characteristic of all Greenwood Camp properties. The property is undeveloped. An open cut shows the vein for 50 feet, and from this cut values as high as $22 have been secured, principally in gold and copper. As Mr. Larson is associated with McKenzie & Mann in railway contracting, it is thought likely that the Rawhide has been secured to be operated in connection with McKenzie & Mann's other holdings in Greenwood Camp. The Rawhide is owned by Mayor Wood of Greenwood, Robert Denzler, A. McInnes and Thomas Tighe.

IN THE SLOCAN.

Budget of News From the Great Silver Region of B. C.

A. J. Marks has shipped 300 sacks of high-grade galena from the California, which will go to Aurora, Illinois. At the end of the month 300 sacks more will follow, making upwards of 40 tons in all. Another strike was made on this property in the new workings commenced above the main tunnel. The ore was struck at 40 feet from the surface and is six inches in width, solid and high grade. This makes four openings now with good ore in sight.

The Bosun group, adjoining the town, recently acquired by the Sandiford syndicate, shipped a car load of ore to Aurora, Illinois, on Thursday. A large force of men will be kept employed on this property and regular shipments made.

All the mines around New Denver are preparing for large forces this winter. Twelve hundred men will be working around Sandon this season, with about 400 more in the Alamo Basin. Four Mile and Ten Mile will also have big forces working.

W. H. Sandiford has secured control of the Condor, Baltimore Fraction, Iron Mask and Sultana, a Four Mile group. He will develop the properties, and, should they pan out favorably, will buy for cash or bond. Charles S. Rashdall, A. E. Fauquier and Edward Stewart are the owners of the interest secured—three-fourths.

A late find of great importance is reported from the head of Davis Creek in the Slocan. Sample assays run high. Some galena appears in the lead, which assayed 60 ounces in silver. A picked sample ran $8102 in free-milling gold, while an average from the lead taken over 2000 feet, gave $26.40 in gold. The property is known as the Edris group, consisting of five claims, located Aug. 13, and is owned by H. M. Richardson, R. Pollock, R. J. Stinson and James Lathem.

It is estimated that there are over 1000 men now working in the mines within five miles of Sandon.

Representatives of New York and Boston capital are in the Slocan looking for properties.

Two new tunnels have been started on the Maud E. and World's Fair of the Noble Five group. The new work is on the main lead, which this year has been uncovered a distance of about 2000 feet, on the west side of the mountain.

NOTICE

On and after the 1st day of OCTOBER, 1898, the stock of the GLOBE HILL Consolidated Gold Mining Company (of Cripple Creek) cannot be procured under Ten and One-Half Cents (10½) per share.

HIGGINS & HAMPTON,
62 Victoria Street, Toronto.

Seventy-One Million Dollars In Dividends

Seven mines on the south shore of Lake Superior have paid the above sum within a few years in dividends. No other mining region in the world can show such a record. The Canadian shore of Lake Superior is more promising than the American shore, but undeveloped. The Superior Gold and Copper Company of Michipicoton, Limited, will play an important part in the development of the north shore. It has good gold-bearing properties, a practical plan for development and brilliant prospects, and, being the pioneer company in the region, should succeed. A limited number of shares are offered to the first subscribers at 5c per share. Send for prospectus at once, before the subscription for the first block of stock closes.

For an early advance, we suggest the purchase of Caribou or Minnehaha (Camp McKinney), Virginia, White Bear, Grand Prize, Commander, Silver Bell, Iron Colt and St. Paul (Rossland Camp), Smuggler (Fairview Camp), Olive (Lake of the Woods). Send for our weekly letter and special list.

"OLIVE GOLD MINES, LIMITED."
The "OLIVE" is not a mere prospect, but A STEADY BULLION PRODUCER.
For the last nine months its little prospecting mill has been stamping ore taken out of hand development works, and about $14,000 in gold bricks has been gathered on the plates.
A large part of this sum is now in fund and AVAILABLE FOR DIVIDEND PAYMENTS. About 700 feet of shafts and drift on the 60-foot levels have been completed, with RICH AND CONTINUOUS ORE IN ALL. A ten-stamp mill has been purchased and is NOW BEING INSTALLED. An eight-drill air compressor is now on its way to the mine. It is expected that both these will be at work by the latter part of October. The "Olive" will then be worked continuously, with a view to steady dividend paying.
Only a limited amount of stock is being offered.
