WEATHER NOTES. WEATHER NOTES.

The Atlantic high pressure is becoming less pronounced, and the shallow depression which was over Quebec yesterday is moving eastward toward the Gulf.

These changes will probably lead to the disappearance of the fog near the Atlantic coast.

Thunderstorms have occurred in disappearance of the log near the Atlantic coast. Thunderstorms have occurred in many parts of the Western Provinces, but the weather has been on the whole fine and moderately warm. In Ontario and Western Quebec it continues fine and very

hour this morning. It is supposed that the fire was caused by someone throwing a lighted cigar into the prisoners' dock after the inquest last night.

Ernest Bronson was sent down for nine months on a charge of stealing a valise, and Thomas Freel got six months on the same charge.

water pressure upon those who have most to gain from it.

It is the cheapest of all schemes, a doubly important feature in the present state of the money market. It will keep river water in a separ-

ate system of mains and pipes, so that

it cannot possibly mingle with spring water for drinking purposes. It will furnish unlimited water for factories, street-sprinkling, flushing of

sewers and washing of pavements. It will furnish high pressure where it is needed and not where it will threat-

en plumbing fixtures in the homes. It will place London abreast of the most enterprising cities of the continent in the matter of fire protection, and give her a lead over every municipality in Ontario, except Toronto.

It will be an effective bid for new ndustries, without burdening the tax-
