perienced pharmacists of today, who have brought to the production of this great medicine the best results of medical research. Hood's Sarsaparilla is a modern medicine, containing just those vegetable ingredients which were seemingly intended by Nature herself for the alleviation of human ills. It purifies and enciches the blood, tones the stomach and digestive organs and creates an appetite; it absolutely cures all scrofula eruptions, boils, pimples, sores, salt rheum, and every form of skin disease; cures liver complaint, kidney troubles, strengthens and builds up the nervous system. It ntirely overcomes that tired feeling, giving strength and energy in place of weakness and languor. It wards off malaria, ty-phoid fever, and by purifying the blood it keeps the whole system healthy.

Is the best-in fact the One True Blood Purifier.

HOLDEN TOLD

And Backed Up the Statement of Para in the Napanee Bank Robbery Case.

Napanee, Nov. 26 .- Over the crown's side of the Napanee bank robbery case busy day." Holden took the stand in the afternoon. He told a sensational ctory. Holden, examined by the crown, went along smoothly, but when Mr. Porter took charge of him he was retractory. Holden, by his own confession, would

have lived an honest life, but he was hounded from pillar to post by lance minions of the law. He is a first-class mechanic and engineer of ability, a plumber, a gasfitter, and a competent electrician, and got good money wherever he worked, yet no matter how good a position ne obtained, and no matter what satisfaction he was giving, there was always the snake in the grass to whisper into his employer's ear, "He is an old jailbird." This was the old story of "a dog with a bad name." He declared, with great vehemence and more than a show of des-peration: "I was out of work for two weeks. If I remained without work another week I knew I would have to go to jail as a vagrant. There was a chance to go to Napanee and break the bank. I hod to choose the job or jail. I took the job."

The crown feels sure of its case, and, viewed in certain ways, it does look overwhelmingly strong. The defense place much stress upon

certain discrepancies that appeared yesterday. Pare said it was 5 p.m. when Ponton was given his money in Belleville. Holden says it was 9:30 p.m., and he had his watch with kim. In his preliminary hearing Pare said he was in the bank only three times-on Aug. 5, 18 and 27. Yesterday he said he was in the bank ten days before his arrest on Aug. 22. Pare swore he was never during the summer beyond Belleville or Kingston. Holden swore that Pare and he spent from July 30 to Aug. 2 in Montreal.

INDEPENDENCE FIRST. A dispatch from Havana says: Domingo Mendez Capote, late vice-president of the Cuban Republic, and now president of the executive commission, has expressed his belief that the future of Cuba will inevitably be annexation to the United States. Capote says: "I may state phatically the commission has not been authorized to accede to any scheme of butchers and exporters, mixed, annexation, or anything save our cognize that annexation to the United States is inevitable. We believe it will come naturally; but it will be by the almost unanimous wish of the people, and that the time will not be long before this wish is expressed."

SPARRING FOR TIME. Madrid, Nov. 2.-It is believed here that the Philippine question will be settled on Monday next. Premier Sagasta, when asked if Monday's session would see the close of the Paris conference, and the signature of the treaty of peace, he replied: knows? Maybe a fresh incident will arise, or further consultations or ex-

changes of views will be necessary. The Liberal (newspaper) says: "The cabinet disagreed as to the reply which should be sent to Senor Montero Rios. But it is believed the cabinet will come to an agreement today at its meeting and decide whether it will or will not instruct the Spanish commissioners to sign the treaty of peace."
