EFFECT OF STRIKE IS FAR-REACHING

Upon Outcome, Says Empire Club Speaker.

The extraordinary complexity of the political and economical situation in Europe and the importance of a stabilization of the same by Great Britain were clearly and forcibly described by Captain James A. Roy, at the Empire Club luncheon vesterday

Captain James A. Roy, at the Empire Club luncheon yesterday.
Captain Roy, who is assistant professor of English at Queen's, was educated in Edinburgh and Giessen, Germany, and on the outbreak of war escaped and joined the artillery. Later he was transferred to the intelligence branch, where, with his knowledge of the German people and language, he proved invaluable. After the armistice he was appointed to the inter-allied commission of control at Teschen, Silesia.

commission of control at Teschen, Silesia.

The political unrest in Europe, said Capt. Roy, was due to the endless bickering over the frontier limitations of the smaller states, and there was a very active divergence of opinion of the policies of Great Britain and France with regard to the rehabilitation of Europe. France was determined to keep Germany in such a position that a military revival was impossible, while Britain was more concerned with putting Germany on her feet that the indemnities might be paid.

Capt. Roy told of the fight retween Poland. Czecho-Slovakia and Austria for possession of the coal fields so valuable to each, and described how two colonels and himself were instrumental in preventing, at one time, further conflict between the Poles and detriment to Canadian sport. The commission of control at Teschen, Silesia.

Capt. Roy, was due to the endless at last session giving the city power to establish a fair rents court. The mayor said he believed 80 per cent. of the landlords were all right, but nevertheless he thought such a court would be useful.

Both Aldermen Birdsall and Blackburn expressed the view that the agitation against landlords and high rents was stopping the building and sale of houses. Investors would not put money in dwellings for rent if retrictions were to be onerous.

Ald. Baker put up a stiff fight to have his motion adopted calling for the imposition of a heavy fee on the professional baseball clubs that play in the city. They were, he said, taking considerable Toronto mone; to the United States and the business was a detriment to Canadian sport. The

two colonels and himself were instrumental in preventing, at one time, further conflict between the Poles and the Czechs. All the countries involved had separate traditions, and their racial rights made frontier limitations especially difficult. Germany was not missing any opportunity to stir up further unrest, and so inter-penetrated was roomer those countries by Germany in Mayor Church said there was room enough for all sports and other were those countries by German in-fluence that it was incredible to be-lieve the economic friction to a great extent present there.

In Vicious Circle.

Racial hatred, communism and Bolshevism, said Capt. Roy, were rapidly placing Europe in a state where the questions of frontiers, etc., swung in questions of frontiers, etc., swung in a vicious circle, growing larger and larger until the problems were intermational and practically insoluble. France wanted to keep the European states in a position of subordination, and her attitude towards Poland, for instance, was not to be compared with ber friendship for Russia. She ardently desired the restoration of Russia, because General Wrangel was intent upon czardom and the incorportent upon czardom and the incorporation of the buffer states, including Poland, in the Russian empire.

Rumania, Jugo-Slavia and Czecho-

It was absolutely essential that ordered government should win, as the workmen in Europe looked to Britain and would take their cue from her. "There never was such a moment," said Capt. Roy, "when the mother country needed to feel the strong, silent sympathy of her daughters across the sea more than she does now. What is needed is a strong, united front. Therein is the true League of Nations: therein not only League of Nations; therein not only the hope of the salvation of Europe but of the entire world at large."

LIBERAL CANDIDATE STARTS CAMPAIGN

Major Kippen to Speak on Tuesday in East End.

Major Kippen, the Liberal candidate in Northeast Toronto, will hold his first pullic meeting in the new hall, corner of Danforth and Carlaw, at 8 o'clock on Tuesday evening. Amongst the speakers will be the candidate, Hartley Dewart, K.C.; Colonels Rennie and Kirkpatrick. A large attendance is expected.

Last night a meeting of the chairmen of the Liberal ward associations was held at headquarters, and all the reports of a preliminary canvass of the constituency they presented was of a most encouraging character. They said the recent sugar order of the board of commerce had done a lot to further Liberal opinion in the division.

The attention of those having votes in the division is called by the executive to the fact that claims from those not on the voters' list at present must be made by persons living east or west of the Don River or the city hall. Full particulars can be obtained at any Liberal committee room. Tuesday evening. Amongst the speak-
