

TO HELP VETERANS IN GETTING WORK

Conference With Rollo Regarding Employment Agencies is Satisfactory.

Further progress in the arrangements necessary for the establishment of a proposed labor day for veterans was reported by the deputation representing various veteran and patriotic organizations which conferred yesterday with Hon. Walter Rollo, minister of labor. The veterans' representatives, who were considerably reduced in number from the deputation of the previous day, state that the labor minister is affording them every co-operation and has practically assured them of the fulfillment of their schemes.

The principles upon which the veterans are proceeding are understood to be those which will ensure a permanent solution of the problem of employment for veterans. They will, they state, consider every applicant for employment a problem case until he has proven his return to 100 per cent. economic efficiency and, in pursuit of this policy, will advise a comprehensive and careful system of classification. It is believed that by these measures persons can be secured for veterans which will have consideration for their temporarily reduced efficiency and will not force them to compete with men who are not handicapped by the reaction of a period of military service.

Dominion Secretary C. J. McNeill of the G.W.V.A., is in town from Ottawa for a few days, and will take part in the meetings which the association has arranged for the coming week. He is also concerned, it is understood, with the question of the G.W.V.A. as the official organ of the organization. In view of the numerous various quarters of the importance of the provincial house as it may affect the returned soldiers' interests, local G.W.V.A. officials point out that it is to the Ontario legislature that the soldier has at present to look for relief from the housing problem of the necessary grant of land with which to re-establish himself agriculturally. They say that before endorsing any of the Northeast Toronto candidates, veterans should ascertain carefully their views these places of the re-establishment question.

The industrial depression which has recently visited the city, is declared by the G.W.V.A. to be a serious one, particularly the returned men. Applications for relief, they state, are unusually heavy, particularly for those in which the industries are in necessity through unemployment.

RUMANIA SUZERAIN OVER BESSARABIA

Paris, Oct. 28.—The treaty of cessation prepared by the ambassadors' council, providing for the suzerainty of Rumania over Bessarabia, was signed this afternoon at the French foreign office. Jules Cambon signed for France; the Earl of Derby for Great Britain; Count Bonin-Lonkare for Italy; and Take Joneacu for Rumania. Representatives of Japan and the British dominions will sign later. A clause in the treaty provides that "Russia will be permitted to sign at such time as the constituted Russian government is recognized by the contracting parties."

The U. S. ambassador, Hugh C. Wallace, did not sign the treaty, his state department's position being that Russia should not be dismembered; that so doing would strengthen soviet rule.

Spain Refuses Loan From U. S. Of Twenty-Five Million

Madrid, Oct. 28.—The ministry of finance has issued an official note saying that an important group of New York bankers has offered to advance Spain \$25,000,000 immediately, redeemable in 25 or 30 years, and adds: "The minister of finance, Lorenzo Pascual, is disinclined to accept, since even though he might gain an efficacious method of diminishing the high mark of the dollar, it would counteract his firm intention of redeeming the entire Spanish exterior debt and not creating new obligations, which in general, are objectionable, and are admissible only in exceptional cases, in which the Spanish treasury, happily, does not find itself."

NEEDS NO CHANGE OF ADMINISTRATION

Cox Asks Whether Country Wants Tax Revision By Big Business.

Indianapolis, Ind., Oct. 28.—Speaking here tonight, Gov. Cox of Ohio, Democratic presidential nominee, attacked the Republican plea that the country needs a "change of administration." He asked his audience whether they wanted to change to "tax revision by big business, success of reactionary politicians, and control of government by men led by Lodge and Penrose." OTTAWA TEAM TO PLAY MONTREAL SATURDAY

Ottawa, Oct. 28.—The Ottawa rugby squad is expecting a particularly hard game against Montreal in the Big Four fixture here next Saturday. The Ottawa players are confident of their ability to defeat the Montreal team of the season, lined up against the winged wheelers.

Coch Quilty had his Ottawas out at Lansdowne park again today, the regulars, with one or two exceptions, being in uniform. They did not line up, but went over their signals and did the usual punting and running. If the weather continues cold tomorrow afternoon it is probable that the Ottawas will transfer their rehearsals to Howick Hall. It is understood that Dave McCann, who has been ill this week, will be available for Saturday. Twenty men will be in uniform, and the exact line-up will not be made known until the men are addressed and ready to go out on the field. The probable line-up, however, will be as follows:

Flying wing, Emmerson; halves, Joe Smith, Connell and Tubman; quarter, McCann; scrum, Davies, Kincaid and McKell; inside wings, Humphreys and Gill; middle wings, Dewhurst and Baker; outside wings, Finney and Thomas. At least six good substitutes will be kept in readiness, as President Church, Coach Quilty and other officers of the Ottawa look for one of the hardest games they have ever been thru. If the ground is frost-bitten it will be particularly tough on the players, so every precaution will be taken to keep the fourteen at full strength.

EXPLAINS CLOSING OF ARMOUR PLANT

Hamilton Packing Branch Suspends Operations—Exports Lessen.

Hamilton, Oct. 28.—(Special.)—Realizing the seriousness of the closing of the Armour plant here, "The World" had an interview today with W. Duvall, general manager of the local plant of Armour & Company, Inc., stating that with the export market practically gone and with no prospect of a revival, the closing of the Hamilton plant had been made imperative. Continuing, Mr. Duvall said: "We hope to be able to resume operations when conditions become favorable for continuing the plant on a basis which makes earnings possible."

LOW-PRODUCING HOG AREA

"While the lack of export market and the high price of hogs are the immediate causes for cessation of operations, there is another important factor essential to our business, and, the production of hogs in the Hamilton territory has not been sufficient to enable volume operation. "We have a large stock of hogs and we still believe that this territory can produce good hogs in abundance, but it is not operated for a long time on a basis far short of its capacity, and this has greatly increased the overhead expense of each animal necessarily had to bear. That made it impossible for us to compete with plants more favorable as to volume. It is the part of good business, therefore, to close the plant."

CLOSE DOWN GRADUALLY

"Cessation of operations is being brought about gradually as stocks are cleared out. Some of our employees will be transferred to other places, and the others are being released as we are able to do so. We look forward to the time when we can resume operations here and more than make up for the loss of the industrial life of the territory."

In the first combination Little, he played left half, Russell at right and Anderson at centre. This trio worked well together, but there was improvement shown when Philpott was sent in to replace Little. Philpott was praised for the punting and made good a practice.

Later in the afternoon Anderson went up to flying wing, while Philpott, Russell and Philpott were used on the half back line. This trio also worked out well and Shaughnessy has a problem to solve in selecting his halves for Saturday's game. The final selection will not be made until the night workout tomorrow afternoon. CANNOT DIVERT FUNDS TO O. B. U.

Justice Prendergast Gives Important Judgment as Aftermath of Winnipeg Strike

Winnipeg, Oct. 28.—Judge Prendergast today handed down the first judgment in the various cases pending where the international union locals joined the One Big Union around the period of Winnipeg's historic strike. The case was that of one of the branches of the Carman's Union, and related to the disposal of the funds at the time of the breach in the ranks of the two organizations. It was entitled Jubilee Lodge, No. 6, versus Carman's Council, section A.

The effect of the judgment is that funds subscribed by members of an organization under a constitution must be disbursed in terms of the rules of that constitution, in short, that the purposes of the international labor are separate and distinct, and that the property of the locals acquired by them as internationals, prior to the birth of the One Big Union, belong to the members loyal to the old organization.
